WHAT I HATE.

I hate the toothache, when with maddening jumps,
Like torrents wild it raves among the stumps;
I hate the whole dire catalogue of aches,
Distempers, fevers hot, and ague-shakes.

I hate mad dogs, snakes, dandies, fleas and bugs,
Tea-parties, wild cats and whisky jugs,
Hard times, bad roads, spoiled fish and broken banks,
Stale news, cold soup, light purse and lawyer's thanks.

I hate long stories, and short ears of corn,
A costly farmhouse, and a shabby barn,
More curs than pigs, no books, but many guns,
Sore toes, tight shoes, old debts, and paper duns.

I hate tight lacing and dull conversation,
Abundant gab, and little information:
The fool that sings in bed, and snores in meeting;
Who laughs while talking, and talks much while eating.

PAYING A PROMISSORY NOTE.—There were two early settlers in the western part of Pennsylvania whose names were Peter Schmit and John Smartz. Peter had increased the size of his farm by annexing to it a small tract of land adjoining, and he lacked about one hundred dollars to pay for his new aquisition. He called on his neighbor John to borrow the amount. John consented at once, and going into another room he brought out the desired number of dollars, and then the pair sat down to two large earthen mugs of cider and as many pipes of tobacco.

After smoking over the matter awhile it occurred to Peter that in a similar transaction he had seen or heard of something like a note passing between the borrower and lender, and he suggested as much to John. The lender assented to the propriety of such a course. Paper, pen and ink were produced, and between the two a document was concocted, stating that John had lent Peter $100, which Peter would re-pay to John in "tree monts." This Peter signed, and thus far the financiers made the thing "all regular and ship-shape."

But at this point a difficulty presented itself. They both knew that notes were drawn in the operation of borrowing and lending, which they had witnessed, but neither of them had observed what disposition was made of the document; neither of them could tell whether it was for the borrower or the lender to take charge of the paper. Here was a dilemma. At last a bright thought struck John.

"You have the money to pay, Peter; you take dis paper, so you can see as you have to pay it."

This was the conclusion; the common sense of the thing was plain, and Peter pocketed his money and his note, "so he could see that he had to pay it."

Three months passed over, and to the day appeared Peter, and paid over the promised sum to John. This being done, the mugs and pipes were again brought out. After puffing awhile, Peter produced the note and handed it to John with the remark—

"Now, John, you must take the note, so as you can see that the money had been paid."

CURIOUS MISTAKES.—In "Ten Months in Brazil," written by Mr. John Codman, are the following:

On our first acquaintance with the business of carrying passengers upon the coast, there was some ludicrous mistakes. I once incurred the violent anger of an old army officer, who, with his family, had been among our passengers, by inquiring after the health of his wife. Thus we learn that what is considered ordinary politeness in the United States, is excessive rudeness in Brazil.

AN ILLINOIS LAWYER "DOING WELL."—There were few abler lawyers in the State of Illinois during the past quarter of a century than Judge Purple, of Peoria. He was the author of several important law books. By the entire devotion to his profession, he had attained merited celebrity as an advocate and jurist.

Some years since, Judge P. when in the city of Washington, met with a gentleman from Boston, who upon learning that the Judge was from Illinois, made particular inquiry as to the success of a young sprig of law by the name of B——, who had emigrated West some five years before.

"He is doing very well," very promptly replied the Judge.

"He is? Well, I am glad to hear it —glad to hear it indeed."

"You think he has a good practice, do you, Judge?"

"Don't know anything about his practice," replied Purple. "But, he is doing well—succeeding finely!"

"Making money, then, is he? persisted Boston.

"I tell you I don't know anything about his business," said Purple.

"Well," said the Boston man. "You seem to think he is doing well, and yet you know nothing about his practice or business. What do you mean?"

"I mean this," said Purple. "That any man who practices law in Illinois five years, and who keeps out of the penitentiary, is doing well, whether he has practice or not!"

FOLLOW THE RIGHT.—No matter who you are, what your lot or where you live; you cannot afford to do which is wrong. The only way to obtain happiness for yourself, is *to do the right thing*; you may not always hit the mark; but you should nevertheless, always *aim for it*, and with every trial your skill will increase. Whether you are to be praised or blamed for it by others; whether it will seemingly make you richer or poorer, or whether no other person than yourself knows of your action; still always, and in all cases, *do the right thing*. Your first lessons, will grow easier and easier, until finally, doing the right thing will become a habit, and to do wrong will seem an impossibility.

To desire a change of sex is not commonly considered a manly aspiration; to weep about it seems ludicrous. Yet the thing has been done, and on the tented field. In the very fiercest of the battle at Malvern Hill, General Lee encountered a tall Johny Reb in full retreat, and blubbering fearfully. He stopped him and shamed him; but the fellow openly avowed cowardice, and said he knew he was a coward when they' scripted him.

"Well," said the patient but vexed General, "that may be, but you need not bellow about it like a great baby."

"Baby!" echoed the conscript, "I wish I *was* a baby, *and a gal baby at that!*"

As a warrior the General regarded the party defective, and paused not for further colloquy.

During a recent revival a very reverend clergyman accosted a young brother with the solemn question:

"My young friend, have you prayed to-night for the salvation of your immortal soul?"

"No, sir," answered the youth in a penitential tone, and with a downcast look.

"Do you not desire to offer up thanks for the many mercies you have already received by Divine favor?"

"Yes; but I don't know how," hesitatingly answered the youth.

"But," my dear boy, you can repeat the publican's prayer, can't you?" added the minister, gravely.

"No, sir," was the emphatic response, "*I'm a Democrat.*"

A radical change is about to be effected in the mode of shoeing horses in France. The old fashioned shoe is to be altogether discarded; the hoof of the horse will be protected against accidents and wear and tear by being inclosed in a thin circle of iron, which will *preserve* it *from* danger without compressing it.

Proofs of the Superior Quality
OF THE
AMERIC'N WATCH
MADE AT
WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:

PENN. RAILROAD COMPANY.
OFFICE OF THE GEN'L SUPERINTENDENT,
ALTOONA, PA., 15 Dec., 1866.

GENTLEMEN: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn, and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:

Appleton, Tracy & Co.,	*Waltham, Mass.*
Waltham Watch Company,	*Waltham, Mass.*
P. S. Bartlett,	*Waltham, Mass.*
Wm. Ellery,	*Boston, Mass.*
Home Watch Company,	*Boston, Mass.*

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable timekeeper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

The American Cooking Stove.

AFTER twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves. They are so mild and pleasant in their operation and yet so effectual, that it would be quite impossible to supply the demand for them were they more generally known. The whole story is told in the directions which accompany each box. Price 25 Cents. For sale at Roy's Drug Store.

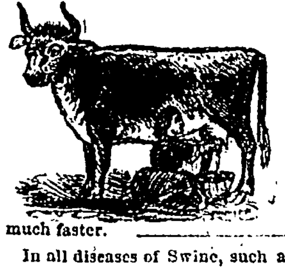
FOUTZ'S
CELEBRATED
Horse and Cattle Powders,

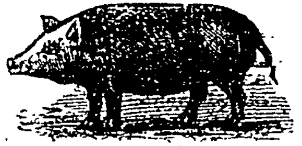
This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.



In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.



Price 25 Cents per Paper, or 5 Papers for $1.

which possesses the following advantages over all other mills:

1. It separates oats, rat litter, and foul seeds, and chess and cockle, from wheat.
2. It cleans flax seed, takes out yellow seed, and all other seeds, perfectly.
3. It cleans timothy seed.
4. It does all other separating required of a mill.

This mill is built of the best and most durable timber, in good style, and is sold cheap for cash, or produce.

I will fit a patent sieve, for separating oats from wheat, to other mills, on reasonable terms.
