ONLY A WOMAN'S HAIR." Relic of bygone love, Priceless in days of yore, Freely you waved above, Beauty that vanquished lore, Dearer than virgin gold, Brighter than jeweis rare, Treasured from days of old-"Only a woman's bair!" Earnest of plighted troth, Broken, but precious still,

Fragile as woman's wrath. Helpless as woman's will. Cherished in secret long. Hidden with loving care, Eubject of many a song-"Only a woman's hair!"

Relies of levelit days, Poem that never pails, Only the warmest rays, Truly thy tint recalls, Faded thy glowing gold, Vanquished its glitter rare,

" Only a woman's hair!" † [Apple Thomas Celestial and Terrestial Phenomena.

Dearly hwas bought and sold-

Vesuvius is once again pouring its torrent. of fire through the vineyards of La Curym Christi, and threatening to engulph cities as it did in the days when the world was first divided between the thought of Julius Coar and those of Jesus Christ. There is terror in the valley of Mexico, also, and the people are. filled with alarm at the threatened activity of voicenoes long extinct, whose bluze was perhaps a beacon to the ad-venturous Cortez and a portent to the fading empire of the Montezumas. News from the West Indies hints the idevastation of an earthquake in the rislands memorable for its association with the came of Columbus and as the first sear of Spanish power in this hem-Isphere. From such different points on the earth's surface comes, the evidence that there is pertubation within; that there is pertubation within the pertubation Simultaneously with these internal dis-turbances—dependent upon them by un-known relation—we have also wondertal distarbance of the surface-storins in the air of scarcely a paralleled power, hurricanes that have blown the sea completely over ereat tracts of rand, Devoid our atmosphere, in Jpen, appending the stars. tod-hodis of nebulous matter have lately been driven across the cartil's orbit, recounding from the clasticity o

our athe spheric arnor, or masses of this matter Consumed by combustion resulting from the contract, or from the heart generated by the friction of their flight. In all the preat divisions of visible nature there is perturbation, de traction of the common order, perhaps derangements or natural and planetary laws. Yet it was long since wisely suggested that our so-called discord might be "thermony not understood," and this is an subject on which it is harely safe to say that what seems to made angement is not order. In whatever phase sei-ence may state the relation between there several wonders of the universefor it ceems difficult to believe that they are not related one with another-it is doubtful whether the phrace, can do more than disguise ignorance. When Moses said of somewhat similar won-ders that "the spirit of God moved upon the face of the waters" he expressed the thest cause quite an entistactorily as science can do dven now. -How the Atlantic Cable is Worked.

The other day a telegrapher, who had looked into the matter, told me lif, a few words, how the Atlantic cable was worked. I had read column after column in the papers, in the vary effort to runderstand now it was done, and was ast_ni-hed, I assure you, to see how simple a thing was the instrument which talks across the sea. Jungine a very small needle—it weighs only three-sevenths of a grain—set so that either end points to a powerful fixed magnet. Over this needle is a boar line which is a small hole, above and behind which is a small back board. One end of this needle, or rather magnet, is positive. and the other a negative one. The bat tery is taken off at one side of the ocean by the action of the magnet, themselves, when the operator at the other side is whith the pattern used at either end contains only three cups; a wondecidly small number when you know that it takes a thousand or more to work the various wires leading to 145 Bioloway, the head offices here. The application of a current from the battery to the positive mignet at Valentia, induces an attraction of the needle by the negative magnetat Heart's Content. or vice versa. The movement of the incline is so very small, however, that it could not be detected by the naked eye. A powerful magnifier, however, carries the reflection of the motion of the needle through the hole in the board above, and transfers it in an enlarged, and, with the aid of a light, an enlightened from the black board. The al-It is not that a large battery, as has needle so violent-touse a vulgar phrase,

FOOLSCAP PAPER. Every kind of paper is known by the stationer, by its name-quarto post, &vo. post; foolscap, etc. The term toolscap, to designate a certain Earl of paper, no doubt has puzzled many a young inquirer. 'The origin is not only amusing, but historical. CIPARLES I. of England granted nume-CITABLES 1. of ringland granted numerous monopolics for the support of the Government. Among others was the manufacture of paper. The water mark of the finest sort was the Royal Arms of England. The consumption of this article was great at this time, and large for the grant model by the consumption. fortunes were made by those who had purchased the exclusive right to vend it. This among other monopolies was set aside by the parliament that brought Charles I, to the scaffold; and by way of showing their contempt for the king, they order the royal arms to be taken from the paper, and a tool with his cap and bells to be substituted. It is now over two hundred years since the fool's cap and belis were taken from the paper, but still the paper of the size, which the rump parliament ordered air their journals, bears the name, of the water mark, then ordered as an indignity to Charles.

isville Courier.

INFORMATION TO RAILROAD TRAV-ELERS.—The following "rules of the road" are based upon legal preisions, and ought to be university made known. The courts have decreted that applicants for tickets ch a railroad can be ejected from the car if they do not offer the exact amount of their rare.—Conductors are not bound to make change. All tickets are good until used, conditions "good for this day only." Price 25 Cents. For sale at Roy's Drug Store.

I are the latest improvement among the pills. They are confidently behaved to be the dest pills for family use that have ever been made. They see smild and pleasant in their operation and yet so effectual, that it would be quite impossible to supply the demand for them were they more generally known. The whole story is told in the directions which accompany each box.

Sold as Low as at any other Establishment. Mind that. ly" or otherwise admitted time of genuineness, are of no account. Passengers Acking for hops, best quality 25 cts poryard who lose their tickets can be ejected his a from the car unless they purchase a second one. Passengers are bound to obdemands to show their tickets. Standing on the platform or otherwise violating the rules of the company, residers a person liable to be put from the train.

No person has a right to monopolize more seats than he has paid for; and any article left in a seat while the owner is temporarily absent, entitles him to Cabil Paid, for Butter at his seat on his return. WRIGHT & I his scat on his return.

LAWRENCEVILLE, PENN'A. September, 17th, 1867-tf

The American Cooking Stove.

A FTER twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true ecohomy consisted in buying the best stoves that could be made, notwithstanding the price of the was is desirable, the magnetic being equally attractive, holding the meedle stationary when no other ingitteence is applied. And now the reason why a small battery works best. It is not that a large battery, as has when an improvement suggested itself, we have at once adopted it, and we have several of these been jopularly supposed, would eat up the conducting wire, but that it would make the motion of the delicate brought it to a higher state of perfection than brought it to a higher state of perfection than the brought it to be perfection than the brought it to be perfection to be perfection. needle so violent—touse a vulgar phrase, it would be perpetually "wabbling about." The small current used has no saided largely to its convenience and effectiveness the effect.—N. Y. Correspondent Lousuch effect. - N. Y. Correspondent Loufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of these purchasing ourstoves. AMERIC'N WATCH MADE AT WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in tructure, and therefore stronger, and less likely o be injured than the majority of foreign watch-

PENN. RAILROAD COMPANY. OFFICE OF THE GEN'L SPERINTENDENT,) ALTOONA, PA., 15 Dec., 1866. GENTLEMEN: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn, and do wear much longer without re-pairs than any watches we have ever had in use trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience exended over a series of years. Respectfully, EDWARD II. WILLIAMS,

General Superintendent.
American Watch Co., Waltham. We make now five different grades of watches, named respectively as follows: Appleton, Tracy & Co., Waltham, Mass. Waltham Watch Company, Waltham, Mass. P. S. Bartlett, Waltham, Mann.
Wm. Ettery, Home Watch Company, Boston, Mann. All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every equisite for a reliable timekceper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and

against imposition. Any grades of Waltham Watches may be pur hased of Watch Dealers throughout the country. ROBBINS & APPLETON. Sept. 4, 1867-6m. . 182 Broadway, N. Y.

Real Estate Sale. THE Subscriber will sell or ront the following

valuable property, to wit:
One tavern stand in Lawrenceville.
One tarm, on which he now resides, one half mile from three churches, two School Houses, two grog shops, and one railroad, and about the same distance from the line of the Wellsboro and Lawrenceville Railroad. The tarm contains 160 neros of good land, 50 acres timbered, well watered, and very productive. It requires that the seed should be sowed and planted, however, to ensure a harvest. One farm in Juckson township, 175 acres: a first-rate place for a cheese factory.

Also—for sale—4 mules, 75 sheep, and other stock, cheap on reasonable terms.

M. S. BALDWIN.
