

THREE WORDS OF STRENGTH.
There are three lessons I would write—
In the trial of eternal life
Upon the hearts of men.
Have hope. Though clouds environ now,
And gladness hides her face in gloom,
Put then the shadow from thy brow,
No night but hath its morn.
Have faith. Where'er thy bark is driven—
The calm'st of seas, the tempest's mirth—
Know this! God rules the host of heav'n,
The inhabitants of earth.
Have love. And not alone for one,
But man, as man, thy brother call;
And scatter, like the circling sun,
Thy charities on all.
This gave the lesson on thy soul—
"Hope, Faith and Love—and thou shalt find
Strength when life's sargen cease to roll,
Light when thou art more blind."

ADVICE TO A DYSPYPTIC.—You asked me to prescribe for you an expectorant. Perhaps you hope for whisk-ly, just now the rage for chronic malady. But I shall give you nothing to swallow. You have swallowed too much already.
Of all the maladies, dyspepsia is the most distressing. To get rid of its hor-ror, you would put your right arm in a cast. I believe you. But will you put a portion of your table luxuries? I fear not. But, presuming you are in earnest, I will give you a few hints.
1. Rise early, dress warm, and go out. If strong, walk; if weak, saunter. Drink cold water. Of all cold baths, the one for the dyspeptic. After a half hour or more, come in for break-
fast.
2. For breakfast eat a piece of good bread as large as you can swallow, of coarse bread, and baked apple. Eat very slowly. Talk very pleasantly with your neighbors.
3. Digest for an hour and then to your work. I trust in the open air. Work hard till noon, and then rest body and mind till dinner. Sleep a little. Drink water.
4. For dinner (2 or 3 o'clock), eat a slice of beef, mutton or fish, as large as your hand, a potato, two or three spoonfuls of cold cream, and a slice of coarse bread. Give more than half an hour to this meal. Use no drink.
5. After dinner pass an hour for a few hours. Now for the social, for pleasant games—a good time.
6. No supper. A little toast and tea will make your recovery very slow.
7. In a warm room bathe your skin in gold water hastily, and go to bed in a well-ventilated room before nine o'clock.
Follow this prescription for three months, and your stomach will be re-covered that you can indulge for some time in all sorts of irregular and glut-tuous eating.
On if you have resolved in the fear of God, to present your body a living sacrifice, holy and acceptable unto God, and will continue to work and eat like a Christian, your distressing malady will soon be forgotten.—(Dio. Lewis, M. D.)

HARPER'S MAGAZINE.
The plan of the Magazine excludes Politics and Polemic. It dispenses everything pertaining to the latest fashions in dress and ornament, and social life. "The Woman's Kingdom: A Love Story," by the author of King Hal-lic's daughter, is commenced in the January Number. Four Dollars a year.
HARPER'S WEEKLY.
A Record of the Times. Nothing pertaining to civilization is beyond its scope. The organ of party or clique, it dismisses all questions of politics and social economy. A novel by William Collins, author of "The Woman in White," will occupy the January number. \$4 per annum, weekly. Splendidly illustrated.
THE BAZAR.
This is to be a Journal for the Home. It will treat of everything pertaining to Home Life. It will furnish the latest fashions in dress and ornament, describe the amusements and exercises adapted for indoors and out of doors, will contain stories, sketches, and poetry. Published weekly, with profuse illustrations, at \$4 per an-num.
For any of the above publications ad-dress, with the cash,
HARPER & BROTHERS,
FRANKLIN SQUARE, NEW YORK.
The three publications sent to one ad-dress for \$10; any two of them for \$7.

PROOFS OF THE SUPERIOR QUALITY OF THE AMERICAN WATCH.
MADE AT
WALTHAM, MASS.
The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:
PENN. RAILROAD COMPANY.
Office of the Gen'l. Superintendent,
PHILADELPHIA, PA., 15th Dec. 1866.
GENTLEMEN: The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches for our engines. They are now some three hundred of them carried on our line, and we consider them good and reliable timekeepers. We have had no dissatisfaction in saying your watches give us less trouble, and have worn, and do wear much longer without repair than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good quality, but as they never keep time so correctly, nor have they done as good service, as yours.
In this statement I am sustained by my predecessor, Mr. J. M. WILLIAMS, who has ex-tended over a series of years. Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.
American Watch Co., Waltham, Mass.
We make now five different grades of watches, named respectively as follows:
1. **Waltham Watch Company, Waltham, Mass. P. S. Barlett,**
2. **Waltham Watch Company, Waltham, Mass. W. E. Benson,**
3. **Waltham Watch Company, Waltham, Mass. Home Watch Company, Boston, Mass.**
All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, and the most approved principle, and to possess every requisite for a reliable timekeeper. Every dealer selling these Watches is provided with the Com-pany's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure they are purchasing the genuine article. There are numerous counterfeiters and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.
Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

SENSIBLE TO THE LAST.—It has long been observed by medical writers that death is frequently preceded by insanity, a fact which occasioned the remark, that it was not uncommon for every body knew that when folks get mad, they were about to die. This re-minds us of a case which occurred many years ago in a Philadelphia neigh-berhood, wherein a pretty widow was in danger of losing two-thirds of her husband's estate in a relative's hands. Her claim on the estate was admitted, but the presiding judge was not only con-victed, but also very gallant.
"What was the gentleman's last words?" inquired the attorney.
"The pretty widow blushed, and look-ing sadly, replied, 'I'd rather be a fool than a widow.'"
"But, indeed, you must mean—Your claim may be decided by it."
"Still blushing, the widow declined to sign a release of the estate from the bench of the information."
"He said, 'kiss me, Polly, and open the other bottle of champagne.'"
"We know not whether he was admira-tion for the deceased husband, or the living wife that inspired the judge at this instant, but he at once cried, with the enthusiasm of a conqueror, 'Sen-sible to the last!—Blessed be!'"

THE AMERICAN COOKING STOVE.
AFTER twenty years experience in the man-ufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended in the coun-try, in buying cheap and worthless stoves, a large portion of which was wasted; and that that could be remedied by the use of the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improved stoves in operation. In this manner we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been achieved in cooking stoves. (The recent improvements in this stove has added largely to its convenience and effective-ness. In the articles of stoves we manufacture, we study usefulness, durability, con-venience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interests of our purchasing our stoves. **BIEBER, PACKARD & CO.,**

A TROUBLESOME WITNESS.—During the recent trial before the United States District Court in Hartford, Conn., of the case of the **Northampton** against the **Transportation Company** against the insurance companies for the amount of \$100,000, the case was tried in the City of Norwich by fire, the defendant's attorney to prove that the loss was occasioned by the steamer sinking, and not by burning, making it a marine loss, against Mr. Tracy, the pilot of the boat, being on the witness stand, was interrogated by Mr. Scudder of New York, and was asked to answer the questions, as to his views. It having appeared from the evidence that Tracy was hanging on the rudder just before the steamer was wrecked, Mr. Scudder inquired of him as follows:
"Mr. Tracy, what do you think the boat was worth at the time you were riding on the rudder?"
"I really couldn't tell, sir."
"But what do you think, sir?"
"I didn't think anything at all about it."
"Mr. Tracy, what would you have been willing to give for her at that time?"
"Well, I don't know. I was not buying steamboats very much about that time."
"Mr. Tracy, would you be willing to have given the old boat that you had on at that time for the boat?"
"Well, I don't know but I should—On the whole, I guess I should, for I don't suppose I could have needed an overcoat where I was going."
"Mr. Scudder gave it up and called the next witness."

THE QUEEN'S CEPHALIC PILLS.—These are the latest improvement on the pills. They are confidently believed to be the best for family use that have ever been made. They are so mild and pleasant in their operation and so effective that it is not necessary to be able to supply the demand for them were they more generally known. The whole story is told in the following account of a cure.
