As we had a remarkable fall and an uncommon winter, it need surprise nobedy if we have an uncommonly early spring.

SEED POTATOES .- We have no potatoes to sell, and can therefore recommend to farmers the "Russet Pink-eye" as one of the very best varieties known, for the main crop. It is the count of any other variety in flavor and dryhese, and is a fine yielder. But no man should plant potatoes raised on the premises, no matter What the variety may be. It will not do to "breed in and in" in vegtables more than in animals. Farmers living from four to six miles tion each other can exchange seed potatoes, and

if the potatoes are bealthy, may plant without hat of rot. We have never seen a discased Rusand Pink-eye yet. We have seen other preferred smattes in the same patch, rotting as early as jugust. The Russets require a soil of average in liness, and will hear deep planting.

No doubt there are other of the new seedlings as good as the Russets. But we know nothing of them by actual trial. There can be none bet ter, either for table use, for yield, and freedom

"Gossip:-The frogs, as we were remarking when we closed our gossip so abruptly has week, have not soriously disturbed the solemn quet of the April midnights thus far. We heard a "toice of the Night" some nights ago, but whether it was a last year's "peep," echoing down the corridors of Dream-Land, or a veritable peep of a frog of 1868, we dare not say. If the latter, he paid for his temerity at Mr. John Frost's counter last week, and sung his songs under a dozen inches of snow which fell during Tuesday, The red breasted robin, too, changed be at the door of every house in the county during the stay of the snow. We are sorry to say that this favorite bird has a weakness for fresh meat rather than for buckwheal. He salues a grub, or an earthworm, above bread stumps, even. Does this account for the preference given by Thomas Cat to robins? Thomas his tune to "Poor Tom's a cold !" at the same prefers the red-breasted warbler to all other birds, and the robin seems to be aware of the

A Patent Right that is No Humbug, THE SUBSCRIBER having purchased the right of D. B. Sturdevant's Milk Shelves & Provision Rack for Tiogs County, is prepared to sell Township or individual rights at fair rates. This Rack is portable and so arranged that it can be taken apart and put together again in five can be taken apart and put togother again in five minutes. It occupies less than four feet square of a room, and can be placed in the kitchen in cold weather, and in the cellar in warm weather, and will hold fron 72 to 84 pans of milk. The shelves are made in skeleton form so as to allow the free circulation of air all around the pans. It has been proved that milk will raise more cream, and keep from four to six hours longer than on ordinary shelves.

than on ordinary shelves.

Each shelf turns by itself independent of the other, so that the cream of the former milking is not disturbed by the removal or putting on of pans. The frame is such that it can be readily covered with a cloth or gauze, effectually excluding insects or dust. It is a complete arrangement to down further many the content of ment to dry fruit upon. The subscriber will soon visit different parts of the County with a model of this rack, or he can be addressed at Wellsbore, by those desiring to purchase Township or individual rights.
