ALBANY N. Y. April. 23 1868. DEAR AGITATOR: Fearing lest you may think that "Pat" is dead, I drop you a few lines to say that he is "right side up with care," and to use the language—not of the immortal Shakespeare but of a common mortal whom the world has not yet immortalized—"his head is lev-The hotels here are crowded with members of the legislature, lobbyists, and witnesses and lawyers who have come here to speak their piece in the Cole-Hiscock murder case, and by the way I am inditing my epistle in the very hall of the Hotel (Stanwix) only a few feet from the spot where poor His-cock was standing when he was hurled from life into eternity, and I shudder as I think of the sickening details. I do not know how much to blame Mr. Hiscock was in his acquaintance with the Cole family, that is yet to be proven. but I do know that it is a cowardly act for one man to come cautiously behind another, and without a word of warning place a pistol close to his head and blow his brains out! The conversations going on around me, conducted in animated tones, remind me of "auld lang syne" when in a country school in Ire-land the little boys were exercising their lungs by Studying their lessons aloud, and it was a continual buz z-z.-On my right there is a group discussing the great Erie War, some condemning Vanderbilt as a despotic monopolist whose motto is "rule or ruin," others condemn Drew the other great feller, and so the war of words rages hotly when a war worn yeteran appears on the scene and shouts out, "Something to eat, gintlemin if yez plaze; I lost a leg at the first battle of Bull Run, was in Col. Corcoran's 69th Regt. Have travelled all the way from Omaha on short allowance, an' faith that same Omaha is the quear place bad luck to it, and if yez, wer go there which I would not advise yez to do, ye'll have to pay \$6. a week for yer boord, an' may be get no work in the bargain" Of course he got a meal and some money. I think he was pretty near right in the last part of his remarks if course of these New 1

to come down with the cash, and help them to pay their Hotel bills, and instead of florting on life's smiling tide, they would sink in the dark waters of phlivion—that is providing they didn't get into State Prison and thereby make hemselves notorious if not immortal. Impeachment is being talked about a good deal, but I judge that there is a conviction in the minds of the majority . that the President will be removed, a consummation most devoutly to be wished, say I.

The people of the Empire State have got Dickens on the brain at present, and you hear on the Cars and in the Hotels remarks about Greeley's Speech,

of his remarks, if some of these New York corruptionists would go out west they would not get any Vap's or Drew's

and Dickens graceful reply, and the fine supper oh! wasn't it nice; with its 12 Toasts, 9 of which were devoted to the Press, and the Pica-la Pickwick, and the pudding a-la Barnaby Rudge, and the Samivel Veller champagne, and all the other eccentric, though complimentary etceteras that went to make up the bill of fare. But seriously this banquet to Charles Dickens was a grand min oner (so that the public would read it) a kind of apology for his "American Notes" and "Martin Chuzzlewit," or rather the portions that reflected on or rather the portions that reflected on America. Mr. Dickens deserved the

honor in my humble opinion.
Since Vanderbilt has been trying to get control of the Eric Rail Road, Eric stock has been fluctuating a good deal, and to my personal knowledge many a fortune has been lost and made in gambling in it. One man made \$60,000 in a week, and lost it all in a short time after. Another made \$150,000, in a day, and another lost \$25,000, in a day and so on ad libitum. The impressible Train says that nearly all Rail/Road corporations are corrupt, and for the words broad guage, broad gouge should be substituted.

L haven't time now to discuss whether he is right or wrong, so no more at present, but more anou. I am yours smoothly "PAT"

A gentleman was chiding his son for staying out late of nights—or rather early of next morning—and said: "Why, when I was of your age, my father would not allow me to go out of the house after dark!" "Then you had a douce of a father—you had," sneered the youthful profligate. Whereupon the father yery rashly vegiforated. "It the father very rashly vociferated: "I you, you young rascal!"

Fanny Fern is 55, and isn't ashamed to own it. She says she feels half the time as though she was just made. She don't eat pastry, nor candy, nor ice cream. She has stout boots, and water-proof cloak, no diamonds, likes, she says, "a nice bit of beefsteak and a glass of alc, anybody else who wants it may eat pap. I go to bed at ten and get up at any I dealy out in the pairs because at six. I dash out in the rain because it feels good on my face. I don't care for my clothes, but I will be well; and after I am buried, I warn you, don't let any fresh air or sunshine down on my coffin, if you don't want me to get

It was formerly the practice among physicians to carry acane having a hollow head, the top of which was gold, pierced with holes like a pepper box. The top contained a small quantity of aromatic powder, or of snuff, and on entering a house or room where a disease supposed to be infectious prevailed, the doctor would strike his cane on the floor to agitate the powder, and then apply it to his nose. Hence all the old prints of physicians represent them with canes to their noses.

A good story is told of camp-meeting John Allen: At a social gathering of ministers of different denominations, a Baptist brother made a display of objections to the Methodist policy, because, he said, "there was toomuch mechinery he said, "there was too much machinery to it." "Yes, responded Brother Allen, "there is a good deal of machinery, but it don't take so much water to be a so to be it don't take so much water to be a so to be it." it don't take so much water to run it as the Baptist does."

The other day an old sailor at the south end of the City Hall Park, caused a great commotion by yelling out, "Helloa, there, I say! Murder! Fire! Watch! Gridirons! Brimstone! Holloa!" "What is the matter?" isked one of the crowd. "Why, I'm out of terbacker—got any about ye, any of ye?" was the cool reply.

A handsome young bride was observed to be in deep reflection on her wedding day. One of her bridesmaids asked her the subject of her meditation.

"I was thinking," she replied, "which of my old beaux I should marry, if I should become a widow."

We invite the public to call and examine for themselves. We aim to keep the best quality of goods in our line; and all work to order done promptly and well. WILLIAM ROBERTS.

### AMERIC'N WATCH TA SUAR WALTIIAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, botter adupted for general use and more easily kept in order and repaired than may other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the unjurity of foreign watches, which are composed of from 125 to 200 picces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the

ollowing letter: PENN, RAILROAD COMPANY.

OFFICE OF THE GEN'L SPERINTENDENT,
ALTOONA, PA, 15. Dec., 1866. GENTLEBEN: The watches manufactured by you have been in use on this railroad for saveral years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn, and do wear much langer without repairs than any watches we have over had in use on this read. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but us n'elass they never keep time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my producessor, Mr. Lewis, whose experience extended over a series of years. Respectfully, EDWARD H. WILLIAMS,

General Superintendent. American Watch Co., Walthum. We make now five different grades of watches, named respectively as follows: Apploton, Tracy & Co., Waltham, Mass, Waltham Watch Company, Waltham, Mass, P. S. Burtlett, Waltham, Mass. Wei. Ellery. Home Watch Company, Bieton, Maga. All of these, with the exception of the Hom Watch Company, are warranted by the American

Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable timekeeper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure they are purchasing the genuine article There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard

against Imposition. Any grades of Waltham Watches may be pur chased of Watch Dealers throughout the country. ROBBINS & APPLETON. .. Sept. 4, 1867-6m. 182 Broadway, N Y.

### The American Cooking Stove.

A FTER twenty years experience in the manufacture of stoves, we because convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that sould be made particularly the price that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully we have experimented with it, and carrier, watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In improvements secured by letters patent. In brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manufacture, we study usofulness, durability, convenionce and economy in operation, rather than cheapness in price, and in so doing we are sailsfied we study the interest of those purchassing our gives. SHEAR, PACKARD, & CO., in Albany, N; Yells here Be CONVERSE & OSCIOOD, Wells
