THE FLIGHT OF TIME.

At length I hear the wings of Time—
I feel the tremor of their flight,
And see them like a Condor climb
The surging peaks of Day and Night—
The weary waves that alternate
Upon the sea of earthly Fate.

A subtle sense of loss and change—
A moody vapor—gloams the mind,
Yet from its center a feeling strange
And unregretful, undefined
Like that, when, from a mountain shore,
First looms the sea unseen before.

Deep in the niches of the Past
I see my cherished idols stand,
But lo! the moulds where they were cast
Lie shattered on the false quicksand,
And I amid the ruins grope
Unguided by the lamp of Hope.

WHAT YOU MAY AND MAY NOT CALL A MAN.—There is more or less of the animal about man; that nobody will deny. Plato's definition of man was "An animal without feathers, walking on two legs." This was too much for Diogenes, who caught an old rooster, plucked it, took it into school, and scornfully asked "if that was Plato's man?" We don't know how Plato got out of it, and don't care, as this has but little to do with the matter in hand. Though an animal, a man does not like to be called a beast; yet there are many known as "bulls" and "bears" that accept these appellations as rightly bestowed and properly belonging to them, though individually, in another sense, they would object to being called bears. There are many who like to be known as "lion," and even tiger would be considered more complimentary than calf. Many a young fellow would like to be regarded as a "buck," and you may call a man "dear fellow," but don't think of calling him a moose. To be called a "duck of a man" would please many an individual who would take it to heart if called a goose, independent of the misnomer. Call a man a "puppy," and he'll resent it; but call him a "sly dog," and you'll rather please him. Don't call a man a hog, even if he is a bore, nor an elephant, if he happens to be a "heavy weight," but you may call him a "fox" or a "coon" with impunity. A man doesn't like to be called a shark, but you may call him a "queer fish" without offense. Never call a cross-eyed man lynx-eyed—he'll think you are "sarkastic." Call a man a jackass, and he'll "talk back," but you may call him an "old rat," and it is ten to one he'll ask you to "take suthin." A man who wouldn't feel complimented at being called a cormorant, would smile at being called a "night owl." Don't offend by calling a man a gosling, but you may call him a "gay rooster" without offense. Don't call a man a fool; call him a clever fellow, which amounts to the same.

EXCELLENT WHITEWASH.—As the *house cleaning time being now here*, it may not be amiss to say a few words in regard to whitewashing. There are many recipes published, but we believe the following to be the best that can be: White chalk is the best substitute for lime as a wash. A very fine and brilliant whitewash preparation of chalk is called "Paris White," this we buy at the paint stores for three cents a pound, retail. For each sixteen pounds of Paris White we procure half a pound of the white transparent glue, costing twenty-five cents (fifty cents a pound.) The sixteen pounds of Paris White is about as much as a person will use in a day. It is prepared as follows: The glue is covered with water at night, and in the morning is carefully heated, without scorching, until dissolved.—The Paris White is stirred in with hot water enough to give it the proper milky consistency for applying to the walls, and the dissolved glue is then added and thoroughly mixed. It is then applied with a brush like the common whitewash. Except on very dark and smoky walls and ceilings, a single coat is sufficient. It is nearly equal in brilliancy to "zinc white," a far more expensive article.

INTERESTING FACTS.—A legal stone is 14lbs. in England, and 16lbs. in Holland. A fathom, 6 feet, is derived from the height of a full-grown man. A hand, in horse measure, is 4 inches.—An Irish mile 2240 yards; Scotch mile is 1981; a German, 1806; a Turkish, 1626. An acre is 1840 square yards, 1 foot, and 3½ inches each way. A square mile, 1760 yards each way, contains 640 acres. The human body consists of 240 bones, 9 kinds of articulation or joinings, 100 cartilages or ligaments, 400 muscles or tendons, and 100 nerves, besides blood, arteries, veins, &c. Potatoes planted below three feet do not vegetate; at one foot they grow thickest, and at two feet they are retarded two or three months. There are no solid rocks in The arctic regions, owing to the severe frosts. The surface of the sea is estimated at 150,000,000 square miles, *taking the whole surface of the* globe at 190,000,000 square miles. Its greatest depth is supposed to be equal to the height of the highest mountain, or four miles.

In the shop windows of one of our shops there was posted, not many years since, this placard: "No reasonable offer refused." It chanced that a very pretty maiden was clerk in the establishment. A youth just in the tender peach bloom period, being somewhat enamored of the fair lady, noticed the placard as he passed by, and at once rushed into the store, when the following *conversation ensued: [Youth to* the fair]—"I noticed your placard in the window and thought I'd come in." "Yes" said the lady, "glad to see you; let me sell you some goods."—"Well," said the youth, "I would like to buy some dry goods, but I want a pretty little face in 'em, I thought as you refused no *reasonable* offer, I would take the best dress pattern you have and also yourself. "Very well," said the fair clerk, "I must stick to the text. Pay for the dress and I will throw myself into it, in the bargain." There was soon after a wedding, and the sign, "No reasonable offer refused," became quite *popular among the* lady clerks of the city.

An Indian came to a certain agent in the Northern part of Iowa, to procure some whisky for a young warrior who had been bitten by a rattlesnake. At first the agent did not credit the story, but the earnestness of the Indian and the urgency of the case overcame his scruples. He asked the Indian "how much he wanted?" "Four quarts," answered the Indian. "Four quarts!" repeated the agent, "as much as that?" "Yes," replied the Indian, frowning as savagely as though about to wage a war of extermination on the whole snake tribe, "four quarts—snake very big!"

Kartfalatt's wife discovered her old hen sitting in the back yard, and "bust up her nest." Soon after the poor wife came in much excited and said: "My dear Kartfalatt, I took the eggs from 'Browne,' and she has gone and set onto an old meat axe." "Let her set," said the bilious old fellow, "if she sets on an axe may be she'll hatch'et!"

Aunt Susan, about seventy years of age is unanimous on man; she says, "if all the men were taken off, she'd make arrangements for her funeral forthwith." She also says, "suppose all the men were in one country, and all the women in another, with a big river between them. What lots of poor women would be drowned."

An old Marquesan chief on being told by a Missionary that in Heaven there was no war, or hunger or thirst, or sickness or death, replied: "That will be a good place for cowards and lazy folks who are afraid to fight, and too lazy to climb breadfruit and cocoanut trees."

Why is a bridegroom worth more than the bride? Because she is given away and he is sold!

To Owners of Horses and Cattle.

TOBIAS' DERBY CONDITION POWDERS ARE warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hidebound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Phil. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the depot. Sold by Druggists and Saddlers. Price 25 cents per box. Depot, 56 Cortlandt Street, New York. [Feb. 19]

Proofs of the Superior Quality

OF THE

AMERIC'N WATCH

MADE AT

WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are *more than 700 parts.* How they run under the hardest trial watches can have, is shown by the *following letter:*

PENN. RAILROAD COMPANY.
OFFICE OF THE GEN'L SUPERINTENDENT,
ALTOONA, PA., 15 Dec., 1866.

GENTLEMEN: The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn, and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lowis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:

Appleton, Tracy & Co., Waltham, Mass.
Waltham Watch Company, Waltham, Mass.
P. S. Bartlett, Waltham, Mass.
Wm. Ellery, Boston, Mass.
Home Watch Company, Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, of the most approved principle, and to possess every requisite for a reliable timekeeper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

ROBBINS & APPLETON,

The American Cooking Stove.

AFTER twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied *we study the interest of those purchasing* our stoves. To the Farmers of Tioga County.

I AM now building at my manufactory, in Lawrenceville, a superior

FANNING MILL,

which possesses the following advantages over allother mills:

1. It separates oats, rat litter, and foul seeds, more effectually than any other mill.
2. It cleans flax seed, takes out yellow seed, and all other seeds, perfectly.
3. It cleans timothy seed.
4. It does all other separating required of a mill.

This mill is built of the best and most durable timber, in good style, and is sold cheap for cash, or produce.

I will fit a patent sieve, for separating oats from wheat, to other mills, on reasonable terms.
