Worms.

Dr. BENJAMIN RUSH, about one hundred years ago, made a series of experiments upon earth worms, which he considered more nearly allied in many characteristics to those which commonly inhabit the alimentary canal of children than any other, with a view to test their power to resist the influence of those substances which might be used as worm medicine. The table containing the number of hours and minutes the worms lived when immersed in different substances fills several pages, and we have no space to print it entire, but the lesson it teaches is one not very well learned by those who have the care and treatment of children. It is this That these worms lived often quite as long in substances which are known as poison and fatal to animal life, as in substances perfectly inocuous and fit for food. For instance, in watery in-fusion of opium they lived 11 minutes; in infusion of Carolina pink root, 33 minutes; in an infusion of tobacco, 14 minutes; and in claret wine, 10 minutes; while in a watery infusion of white arsenic they lived two hours. Now, all of these substances are more or less poisonous and produce injurious effects when taken into the stomach.— Now, the fresh juices of ripe fruit are not poisonous, but wholesome, and yet, as the following figures will show, they prove even more fatal to worms than the substances mentioned above. For instance, in juice of red cherries, worms died in 6 minutes; black cherries, in 5 minutes; red currants, in 3 minutes; gooseberries, in 4 minutes; whortle-berries, in 7 minutes; raspberries, in 5 two doors below the old stand; where they manminutes. From these experiments Dr. Rush argued that fresh ripe fruit, of which children are very fond, "are the most speedy and effectual poisons for worms." In practice, this theory has proved correct. Those children who eat freely of good fruit have generally a much more vigorous and clean condi-tion of the digestive canal, and worms rarely trouble them. The practice of poisoning worms by anthelmintic medicines, while it may kill the creatures, also weakens the digestive apparatus, and thus invites further attacks. The best treatment is one that invigorates and cleanses. Air, exercise, and wholesome food are the best worm niedicines. While on this subject we may appropriately notice a new remedy for tapeworms mentioned by Dr. G. G. Comstock, in the St. Louis Medical Invesligator, which goes to prove that worms of various kinds may be removed without recourse to substances which produce poisonous and injurious effects up on the body. Dr. C. says: "Some two years since, a new remedy for tapeworms was brought to the notice of a physician in Bavaria. A peasant mentioned to him having passed a tapeworm after eating cocoanut rind and the contents of the shell, and spoke of it as a certain remedy for tapeworms.— Of course the medical man was skeptical, and naturally thought the enjoy ment of such a pleasant tropical fruit as cocoa would rather tend to promote the growth of tænia, instead of expelling them. He, however, tried it, and found that it was really effectual in expelling these appreciates. pelling these parasites. A notice of this fact I read in the Criminal Zcitung.

In one case, a lady, aged fifty-two years, had been out of health for years, when at last the existence of a tapeworm was suspected. The coconnut was prescrib-and eaten freely for two days, to the ex-clusion of all other food. The result

the cocoanut, took the same remedy, and each one voided a tapeworm." GIRLS.—A COMPOSITION BY A SMALL Boy.—I don't like girls. Girls is very different from what boys is. Girls don't play marbles, and also girls don't play hookey. I played hookey once and got whipped for it. Girls sometimes get whipped, but not so much as boys, their clothes ain't so well suited for it, that is the reason I suppose. I never see girls play base ball, but they say they do in Boston. I never was in Boston. There is plenty of girls in Boston and big oris plenty of girls in Boston and big organs. Last year when I was young the teacher made me set with the girls because I was naughty. I cried. Big boys like girls better than little boys.— I went on a sleigh-ride one night with my sister Nancy and Tom Sykes. We were going to New Hartford, and when we got up by Pegg's toyern. Tom asked we got up by Pegg's tavern, Tom asked me to look in the bottom of the sleigh for his whip, and while I was looking he fired off a torpedo. I asked him if he had any more torpedoes and he said no, but he fired off another when I wasn't looking. Girls don't like to have men kiss them. They always say "don't." If they wasn't fools they would turn their heads the other way, but they never do that. I saw Tom kiss Nancy once and I went and told my mother. Then my mother put me to bed. When a girl takes out her handkerchief in the street to wipe her nose the young mon who can their like. nose the young men who earn their living by standing in front of the Pine Block always wipes their noses at the same time, if they see her. Girls gets married sometimes, but not always. Those that don't get married don't want to. When they get married they have wedding cake. I like wedding cake, but I do not see any fun in getting mar-ried—especially to a girl. THE END.

RESIST THE BEGINNING.—The Arabs have a fable of a miller, who was one day startled by a camel's nose thrust in the window of a room where he was sleeping. "It is very cold outside," said the camel; "I only want to get my nose in." The nose was let in, then the neck, and finally the whole body. Presently the miller began to be extremely inconvenienced by the ungainly companion he had obtained, in a room certainly not large enough for both. "If you are inconvenienced, you may leave," said the camel; "as for myself, I shall stay where I am."

The moral of the fable concerns all. When temptation occurs, we must not yield to it. We must notallow so much as its "nose" to come in. Everything like sin is to be turned away from. He who yields even in the smallest degree will soon be entirely overcome; and the last state of this man is worse than the

The late Bishop of Litchfield was once traveling in a railway carriage in England, when a blustering man exclaimed. "I should like to meet that Bishop of Litchfield; I'd put a question to him the the litchfield; I'd put a question to him the the litchfield." I should like to meet that Bishop of Litchfield; I'd put a question to him the litchfield. tion to him that would puzzle him."
"Very well," said a voice in another corner, "now is your time, for I am the Bishop." The man was rather startled, but presently recovered and said, "Well, my Lord, can you tell me the way to heaven?" "Nothing easier," answered the Bishop; "you have only to turn to the right, and go straight for-

Patent Right that is No Humbug. THE SUBSCRIBER having purchased the right of D.B. Sturdovant's Milk Shelves & Provision Rack for Tioga County, is prepared to sell Township or individual rights at fair rates. This Rack is portable and so arranged that it can be taken apart and put together again in five minutes. It occupies less than four feet, square

minutes. It occupies less than four feet square of a room, and can be placed in the kitchen in cold weather, and in the cellar in warm weather, and will held fron 72 to 84 pans of milk. The shelves are made, in skeleton form so as to allow the free circulation of air all around the pans. It has been proved that milk will raise more cream, and keep from four to six hours longer than on ordinary shelves.

Each shelf turns by itself independent of the other, so that the cream of the former milking is not disturbed by the removal or putting on of pans. The frame is such that it can be readily covered with a cloth or gauze, effectually excluding insects or dust. It is a complete arrangement to dry fruit upon. The subscriber will soon visit different parts of the County with a model of this rack, or he can be addressed at Wellsboro, of this rack, or he can be addressed at Wellsboro by those desiring to purchase Township or individual rights. Specimens can also be seen at the Foundry building of Sears & Williams in this Borough at any time after the middle of March.
GEORGE THOMPSON.

THE largest assortment of Watches, Clocks

Proofs of the Superior Quality AMERIC'N WATCH

WALTHAM, MASS. The American Watch Company, of Waltham, Mass, respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the unjurity at foreign watches, which are composed of from 125 to 300 pie-

hardest trial watches can have, is shown by the following letter: PENN. RAILROAD COMPANY. OFFICE OF THE OEN'L SPERINTENDENT, ALTGORA, PA, 15 Dec., 1866.

cos, while in an old English watch there are

more than 700 parts. How they run under the

GENTLEMEN: The watches manufactured by you have been in use on this railroad for severa years by our auginemen, to whom we furnish watches as part of our equipment. There are now some three binnared of them carried on our line, and we consuler them good and reliable time-keapers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn, and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done in these statements I am sustained by my prodecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully, EDWARD H. WILLIAMS,

General Superintendent American Watch Co', Waltham. We make now live different grades of watches, named respectively as follows:

Appleton, Tracy & Co., Waltham, Mass. Waltham Watch Company. Waltham, Mass. Waltham, Mass. P. S. Bartlett, Wm. Ellery, Home Watch Company, Boston, Muss. Boston, Mass. All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every equisite for a reliable timekcoper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which -hould accompany each Watch sold, so that buyers may eel sure they are purchasing the genuine article. There are numerous counterfeits and imitations f our Watches sold throughout the country, and we would caution purchasers to be on their guard

igainst imposition. Any grades of Waltham Watches may be purhased of Watch Dealers throughout the country. ROBBINS & APPLETON. Sept. 4, 1867-9m. 182 Broadway, N. Y.

The American Cooking Stove.

FTER twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have the apportite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without, them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. Its has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the depot. Sold by Druggists and Raddlers. Price 25 cents per box. Depot, 56 Cortlandt Street, New York.

[Feb. 19] at once adopted it, and we have several of there fied we study the interest of those purchasing our stoves. SHEAR, PACKARD, & CO.,

Albany, N. Y. For sale by CONVERSE & OSGOOD, Wells May 13, 1868. boro, Pa. To the Farmers of Tioga County. AM now building at my manufactory, in Lawrence

PANNING MILL, which possesses the following advantages over allother mills:
