THE BARON AND THE POET.

FROM THE GERMAN—BY JOHN G. SAXE.

I envy you my Baron bold,
Poor devil I!—your title grand,
Your pedigree renowned and old,
Your castle gray, and leagues of land,
Your splendid parks and private grounds,
Your horses, and your gun and hounds.

And you, I hear, my noble lord,
You envy me—poor devil me!
The gentle Heaven, did not accord
To you, to match your pedigree?
But making you a peer, assigned
To me the nobler rank of mind.

Let's be content, my Baron bold,
Nor each the other's fortune crave;
Enjoy your title, lands and gold,
And leave to me what Nature gave;
Keep you the gifts your rank has won,
And I will be my mother's son.

Letter From New York.

NEW YORK, July 11, 1868.

TO THE AGITATOR: I left Tioga for New York, on the morning of the 9th by Corning & Blossburg, and Erie R. Rs. The day was delightful, and the crops, as far as the eye could reach, looked about the same as in our county: some fields of corn had not recovered from the effect of the heavy rains about planting time. I saw no corn looking any better than I had left behind me, the land suffering with drought and some pieces of buckwheat were being harrowed in the dust, the face of the country preserved much of the same appearance, small grains not being in a very thriving condition, and potato vines looking small and spindling, until we reached Port Jervis. There the scene changed. Large masses of clouds covered the eastern sky, and although no rain of any amount fell where we were, the land exhibited signs of having been visited with copious showers. Large tracts of wheat were to be seen badly rusted, and I should judge scarcely worth the cutting, and many fields of clover and timothy hay which had recently been cut, spoiling with the rain. At about 9-15 P. M., we arrived at Jersey City after a very pleasant day's ride, to hear that the Democracy(?) had put in nomination Horatio Seymour for President and Frank Blair Vice. I am staying with a friend and relative of the Democratic faith (though no Copperhead), who tells me that the Conservative element of the party are to be counted out, and that although he and they would willingly have supported Chase or Hancock, they cannot, and will not vote for Seymour. He says that Seymour cannot carry a single State, and he thinks it doubtful if this city can be counted upon for him. The war Democrats, as a body, will not vote the ticket, and he will get only the support of the three Rs, which being interpreted means "Ring, Rebels, and Roughs." There is "a growing desire among the war Democrats to defeat Seymour, as he is as obnoxious to them as to the Republicans." Well, your correspondent says to all this—"so mote it be!" I hope the temperance men of Tioga Co. will go on in earnest with the good work. I thank God that I shall soon again breathe His free air, uncontaminated with the vile effluvia that meets me at every step in this modern Sodom, from the poison shops, which in some streets are in every other house. Let them feel they have a work to do, and that having succeeded in banishing the Demon (out of sight at last) in their beautiful villages, they may not stop until the pure principles of sobriety and good order, cover the whole land. Then shall our country be as it ought to be, the first in intelligence and social order, a pattern to the nations; then will God especially bless us as a people, and make us—

"A landmark in the tide of time,
Rearing to Heaven her brows sublime."

Yours truly in "the Cause of all Mankind,"

COSMOPOLITE.

FREE MASONRY.—"Was Uncle Paul a Mason?" Ike asked of Mrs. Partington as he stood looking at the rigid profile of the ancient corporal of the "Bloody Leventh" that hung on the wall.

"No, he was a veteran sargent naturall, though he took to gardening afterwards, and raised the most wonderful squashes that always took the primer at the Horticultural affair."

"I mean was he a Freemason," continued Ike.

"O, dear, no," replied she, "and I'm glad of it, for they are a good deal too free in throwin' their plasterin' round, which is very mortarfying, and takes the color out of things so; and when they whitewashed the kitchen didn't they make free with the balmy bud rum which they mistook for a cordial? and I wish to gracious it had been a emetic to have taught 'em a lesson to be a little less free next time."

"But Free masons," said Ike petulently, 'aint masons; I mean the fellows that build the temple."

"O!" she exclaimed, "them? Well, dear, I have heard of a good many things they did, and then again I have heard of good many things they didn't, and so between em both I don't believe neither. It is a great mystery!" she whispered, "and if they did kill Morgan, they ought to have done it if they agreed to, tho' 'twas a bad story told of him sculling up Niagara Falls in a potash kettle with a crobar, which is preposterous, and as for the gridiron—thereby hangs a tale, and the Lord knows what they do in their secret cemetries when they get on one another's clothes by mistake and cut up all sorts of capers, to say nothing of the ridiculous aprons which do make em look so queer."

The interest of Ike has ceased, and he had turned his attention to anointing the cat with an application of soft soap.

At the recent laying of a corner stone of a Jewish Temple at Cincinnati, the Rabbi Lilienthal delivered a discourse denying that Israelites of the present age dream any longer about a restoration to Palestine and a Messiah crowned with a diadem of earthly power and glory. "America," he said, "It is our Palestine; here is our Zion and Jerusalem; Washington and the signers of the glorious Declaration of Independence, of universal human rights, liberty, and happiness, are our Messiah; and the time when their doctrines will be recognized and carried into effect all over the world, is the time so hopefully told by our prophets. When men will live together united in brotherly love, peace, justice, and mutual benevolence, then the Messiah has come indeed, and the spirit of the Lord will have been revealed to all creatures." This is the same Rabbi who preached some time ago in a Christian church.

A gentleman who had carefully trained up his servant in the way he should go, so that when his wife was present he might not depart from it, sent him with a box-ticket for the theatre to a young lady. The servant returned when the gentleman and his wife were at dinner. He had, of course, been told, in giving answers to certain kinds of questions, to substitute the masculine for the feminine pronoun in speaking of the lady.

"Did you see him?" said the gentleman, giving him the cue.

"Yes, sir," replied the servant; "he said he'd go with a great deal of pleasure, and that he'd wait for you, sir."

"What was he doing?" asked the wife carelessly.

"He was putting on his bonnet," was the reply.

There was "fat in the fire" immediately.

Peanuts in North Carolina, where they are chiefly raised, have almost taken the place of cotton as the great staple, and bring their cultivators annually $100 per acre. Eight thousand bushels on a single plantation is considered but an average crop, while from ten to sixteen thousand bushels is not regarded as a very extraordinary yield.

A Patent Right that is No Humbug.

THE SUBSCRIBER having purchased the right of D. B. Sturdevant's Milk Shelves & Provision Rack for Tioga County, is prepared to sell Township or individual rights at fair rates. This Rack is portable and so arranged that it can be taken apart and put together again in five minutes. It occupies less than four feet square of a room, and can be placed in the kitchen in cold weather, and in the cellar in warm weather, and will hold from 72 to 84 pans of milk. The shelves are made in skeleton form so as to allow the free circulation of air all around the pans. It has been proved that milk will raise more cream, and keep from four to six hours longer than on ordinary shelves.

Each shelf turns by itself, independent of the other, so that the cream of the former milking is not disturbed by the removal or putting on of pans. The frame is such that it can be readily covered with a cloth or gauze, effectually excluding insects or dust. It is a complete arrangement to dry fruit upon. The subscriber will soon visit different parts of the County, with a model of this rack, or he can be addressed at Wellsboro, by those desiring to purchase Township or individual rights. Specimens can also be seen at the Foundry building of Sears & Williams in this Borough at any time after the middle of March.

Proofs of the Superior Quality

OF THE

AMERIC'N WATCH

MADE AT

WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:

PENN. RAILROAD COMPANY,
OFFICE OF THE GEN'L SUPERINTENDENT,
ALTOONA, PA., 15 Dec., 1866.

GENTLEMEN:—The watches manufactured by you have been in use on this railroad for several years by our engineemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn, and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never keep time as correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:

Appleton, Tracy & Co., ... Waltham, Mass.
Waltham Watch Company, ... Waltham, Mass.
P. S. Bartlett, ... Waltham, Mass.
Wm. Ellery, ... Boston, Mass.
Home Watch Company, ... Boston, Mass.

All of these, with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable timekeeper. Every dealer selling these Watches is provided with the Company's printed card of guarantee, which should accompany each Watch sold, so that buyers may feel sure they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

The American Cooking Stove.

AFTER twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves. For sale by CONVERSE & OSGOOD, Wellsboro, Pa. May 13, 1868.

To the Farmers of Tioga County.

I AM now building at my manufactory, in Lawrenceville, a superior

FANNING MILL,

which possesses the following advantages over all other mills:

1. It separates oats, rat litter, and foul seeds, and cheas and cockle, from wheat.
2. It cleans flax seed, takes out yellow seed, and all other seeds, perfectly.
3. It cleans timothy seed.
4. It does all other separating required of a mill.

This mill is built of the best and most durable timber, in good style, and is sold cheap for cash, or produce.

I will fit a patent sieve, for separating oats from wheat, to other mills, on reasonable terms.

AGENTS WANTED FOR

THE OFFICIAL HISTORY

OF THE WAR,

Its Causes, Character, Conduct and Results.

By HON. ALEXANDER H. STEVENS.

A Book for all Sections and all Parties.

This great work presents the only complete and impartial analysis of the causes of the War yet published, and gives those interior lights and shadows of the great conflict only known to those high officers who watched the flood-tide of revolution from its fountain springs, and which were so accessible to Mr. Stephens from his position as second officer of the Confederacy.

To a public that has been surfeited with APPARENTLY SIMILAR PRODUCTIONS, we promise a change of fare, both agreeable and salutary, and an intellectual treat of the highest order. The great American war has AT LAST found a historian worthy of its importance, and at whose hands it will receive that moderate, candid and impartial treatment which truth and justice so urgently demand.

The intense desire every where manifested to obtain this work, its Official character and ready sale, combined with an increased commission, make it the best subscription book ever published.

One Agent in Easton, Pa., reports 72 subscribers in 3 days. One in Boston, Mass., 103 subscribers in 4 days. One in Memphis, Tenn. 106 subscribers in 5 days.

Send for Circulars and see our terms, and a full description of the work, with Press notices of advance sheets, &c. Address
