Nervous Debility. and have few will a JAUNDICE, ERUPTIONS of the SKIN, and all Discuses arising from a Dis-ordered Liver, Stomach, or IMPURITY OF THE BLOOD. Read the fallowing symplome, and if you find that you, system is affected by any of them, you may rest assured, that disease has commenced its attack on the most important organs of your body, and unless soon checked by the use of powerful remedies, a miserable life, soon terminating in death, will be the result.

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Blomach, Nausea, Heartburn, Disgustfor Food, Fulness or Weight in the Blomach, Sour Erucitations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering, at the Heart, Choking or Sufficiating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight Dull Pain in the Head, Deficiency of Perspiration, vellowness of the Skin and Eyes, Fain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Degression of Spirits.

All these indicate disease of the Liver or Digestive' Organs, combined with impure flood. Boofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Finid Extracts. The Roots, Herbs, and Barks from which these extracts are made are fathered in Germany. All the medicinal virtues are extracted from them by a scientific clienist. These extracts are then forwarded to this country to be used expressly for the manufacture of these littless. There is no alcoholic substance of any kind used in compounding the litters, hence it is the only litters that can be used in cases where alcoholic stimulations are not advisable.

Coolland's German Conic TAILOR AND CUTTER, has opened a shop on Crafton street, rear of Saars & Derby's shoe shop, where he is prepared to manufacture garments to order in the most substantial manner, is a combination of all the ingredients of the Bitters, with PURE Santa Crue Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in infind that these femedies are entirely different from any others advertised for the curs of the diseases named, these being scientific preparations of medicinal extracts, while the others are more decoctions of runs in some form. The TONIO'S steriledity one of the most pleasant, and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhitarating, and medicinal qualities have caused it to be known as the greatest of all finites. mind that these remedies are entirely to Cutting and Fitting. CONSUMPTION. Thousands of cases, when the patient supposed he was afflicted with this terrible disease, have been cured by the use of these remedles. Extreme emaciation, debility, and cough affect the usual attendants upon severe cases of dyspepsis or disease of the digestive organs. Even in cases of genuine Consumption, these remedies will be found of the greatest benefit, strengthening and invigorating.

DEBILITY. There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a lone and vigor to the valuel system, strengthen the appetite, cutars an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, smuth, hadling complexion, cradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous javalid, to a fall-food, stout, and vigorous person. w by

Weak and Delicate Children are made strong by using the Histers or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of afnety.

These Remedies are the best Blood Purifiers ever known, and will cure all diseases resulting from bad blood. bad blood.

Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you.

THE COMPLEXION. Ladies who wish a fair skin and good complexion, free from a yellow-ish tings and all other disfigurement, should use these remedies occasionally. The Liver in perfect order, and the blood pure, will result in sparking eyes and blooming checks. CAUXXON.

Hoofland's German Remedies are counterfeiled. The genuine have the signature of G. M. Jackson on the front of the autside wrapper of each bottle, and the name of the article bloom in each bottle. All others are counterfeil. Thousands of letters have been received testifying to the virtue of these remedies.

READ THE RECOMMENDATIONS, FROM HON. GEO. W. WOODWARD, Chief Justice of the Supreme Court of Pennsylvani PHILADELPHIA, MARCH 16th, 1867. I find "Honfland's German Biliers" is not an intoxicating beverage, but it a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debitity and want of nervous action in the yestem.

Yours truly,

GEO. W. WOODWARD. FROM HON. JAMES THOMPSON, Indge of the Supreme Court of Pennsylvania PHILADELPHIA, APRID 28th, 1866. A consider "Hooffand's German Bit-

Dr. Jackson—Dear Sin:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my one family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Miscelluneous Rending. JOHN QUILL'S HORSE SPECULA-

TION. I bought him of Johnson, the horse doctor, and he said he was dammed by Flora Temple, sired by Black Hawk, and desired by all the horse jockeys in the state. I wish they had got him.

He was fourteen and a half hands high, and one finger over. His color

log than anything else.

But he was rather a fine looking horse, and the man whrranted him kind. But it was a very poor kind I afterwards found.

He said he could make his mile inside of 2:35 without an effort! It was two hours and thirty-five minutes he meant, unless he intended to deceive me. But time, if he exerted himself and didn't get one of his fits on him.

He was a peculiar horse, and was subject to a variety of complaints that would have killed an ordinary animal; but heseemed to stand them wellenough.

We waited full three-quarters of an hour. Then Johnson got out and undertook to pat him on the neck, and the horse got frightened and kicked until he got one leg through the dasher. I saked Mr. Johnson what he thought we had better do now. He said:

"It is all right. All really good hosses kick. I wouldn't give a cent for an animal that hadn't pluck enough to kick. It is a sign that he feels his oats." So we loosed his leg and got in, and before we had time to pick up the lines he gave a jerk and started down street.

The United States are exempt from state and municipal traxition has created a wide spread discontent among the people, and the belief prevails quite generally that if this exemption could be removed the local burdens of the full power to tax by local authority these 600,000,000 do on the ax-payer would be immediately and essentially lightened. I didn't get to see the man at Delaware City, and in fact haven't seen lim since. Johnson said it was a good thing anyhow, for they had the fever down there, and I ought to consider it.

Indeed it may be safely said that there has never been any popular desaits faction with regard to the non-taxation of the five per cents., it being agreed by common consent that such a rate of interest was not unreasonable on a loan negotiation. Johnson said it was a good thing anyhow, for they had the fever down there, and I ought to consider it a providential thing that the horse was taken just as he was. If we had gone to Delaware City we might have been to Delaware City and the first of the proportion in the State. And yet the facility for concealing owner-bear the facility for concealing dead men.

It is singular how Johnson looks on the bright side of things when that horse is concerned.

Then I thought that perhaps after all I had better sell the horse, he was so much trouble, so I advertised him. The man who came to buy him was not so ture to assert with confidence that if the power of local taxation of these bonds were fully accorded to day, the tax lists was spavined, foundered and distempered. He had the glanders, and heaves, and blind staggers, and ringbone, and a number of other infirmities possibility be subjected to any more locreased on an average one per cent.— Many of these who to-day may be am-bitious of parading their bonds when protected by what is deemed an offensive exemption, would suddenly have none were the power of taxation appli-ed to them. Should we proceed, however in num. Should we proceed, however in violation of good faith and of the uniform fractice of civilized nations, to hold back part of the stipulated interest instead of effecting an honorable exexempt from taxation, as an incentive change of bonds to the mutual advanto thirst and economy. In other States tage of the Government and of the where these deposits are taxed, as in public creditor, we should only punish ourselves, produce calamitous results in the business world, and permanently injure our national fame.

To withhold one per cent. of the interest under the plea of a national tax this year might be followed by withholding two per cent. next year and the three per cent. the year ensuing.— To enter upon such a policy would produce alarm at home and wide-spread distrust abroad, for every man holding a bond would have to count his rate of interest not on what was stipulated in the contract, but on what might be the will and caprice of Congress in its an-nual withholding of a portion of the interest under the pretence of a tax. him; at the end of that time his lower jaw had swelled up until you couldn't quant and amusing while all is smooth tell whether he'd got his head on upside down or not.
