A Nashville paper says: "A few days since some Democrats from Randolph, Tennessee, passed over to the Ar-kansas shore, and kidnapped a colored man, took him to the Tenne see shore, and cowhided him till his back was cut up, and then covered him with tur-pentine. They charged him with hav-ing stolen a revolver from some one of them, of which, however, there was no proof whatever. He had no pistol, had not had any, and there was no trace of any in connection with him. The fact | ufacture is, he was cowhided and turpentine l because he had preferred to work for a Yankee who was planting corn on the Arkansas shore, instead of some of them who tried to hire him. The Cincinnati Chronicle declares that at no time since the Chicago Convention has Ohio been doubtful. "Nor," says that paper, "is it true, as has been gratuitously asserted, that the Republicans of Ohio are apathetic. They are at work in earnest, and never with better hopes than to-day. We have felt sure, from the outset, of at least 25,000 majority for Grant in this State. The present indications are that it will exceed 40,000." This accords with the opinion of an eminent Democrat of that State, publicly expressed, only last

A gentleman who was waiting at the Springfield depot, the other day to obtain a view of Mr. Burlingame and his 'celestials," approached a mau who was standing by the Massasoit House truck piled with fully a dozen trunks, and asked if he was in charge of the Chinese embassy, and if they would dine at the Massasoit. "Oh, no; I do not belong to the embassy; mysel! and wife are on our way home from Saratoga and this is our become?" ga and this is our baggage,"

A farmer, who had employed a green Emeralder, ordered him to give the mule some corn in the ear. On his coming in the farmer asked: "Well, Mike, did you give the mule the corn?"
"To be sure I did." "How did you give it?" "And shure, as ye told me, in the ear." "But how much did you give?" "Well, we see, the crather wouldn't hold still, and kept switching his ear about so I couldn't get but a flat fallin both pare."

"Madame," said a polite traveler to an eccentric old lady, "if I see fit to help myself to this milk, is there any impropriety in it?" "I do not know what you mean; but if you mean to insinuate that there is anything nasty in that milk, I'll give you to understand that you have struck the wrong house. There aln't the first hair in it, for as soon as Dorothy told me that you soon as Dorothy, told me the cat was drowned in the milk, I went and strained it right over!"

AFFECTED young lady, seated in a rocking chair, reading the Bible, exclaimed: "Mother, here is a grammarical error in the Bible." Mother, low-ering her spectacles, and approaching the reader in avery scrutinizing attitude, says: "Kill it! it is the very thing that has been eating the leaves and book-marks."

A BAD SPELL -A young lady who teaches music in an academy in West-ern New York; sent an order to a pub-lisher recently, in which she had spell-ed the words very poorly. She apolo-gized by adding a postscript as follows: "You must exkews this letter, as I pla bi noat butt spel bi ear."

The American Cooking Stove. FTER twenty years experience in the man-A ufacturated stoves, we became convinced, ome six years since, that a vast amount of some six years since, that a wast amount of money was being expended by the people of this country, in buying cheap and worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the hear. stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. and most perfect stove that could be made. And we have experimented with it. and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements, secured by letters patent. In this manner we do not besitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this store, has added largely to its convenience and effective ness. In all the varieties of stoves we manu facture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves.
