mouth of the Cache la Poudre river, we and then another and another came out of the bushes, and started for the bank near which the road runs. At the disbarrels toldus that if they were enemies our time had come, for we knew that none but a large force could retain possession o the settlement. I directed the driver to swing off into the prairie, determined to sell our lives as dearly as possible. Soon a horseman appeared above the bank waving his hat and advancing toward us, and when I pressed the hand of old Ike Godfrey, the scout, and Indian fighter, I knew we were safe. Others soon joined us and their astonishment at learning that we had come through more than a hundred miles of country known to hold hostile Indians in safety, was freely expressed They all agreed that bur escape was due to our driving in the night, as the red devils were known to be at the old "Good morning! Well sir," he went seen and several hundred of the latter, junction, which place we passed about on gaily. "I have seen the property, these in droves of from five and twen- and night on the opposite side of the hault by investment in a dimension of the latter.

Then, for the first time we learned of the extent of the outbreak, and found hundred yards of us, but when his cu- | that many settlers had been killed all along the eastern border of our settleriosity was satisfied he would wheel and the herd would run for miles without ments. More than one hundred men, women and childrin,-are known to have been murdered and many hundred head of horses and mules run off. Two days after we¹ reached Denver where we found all but one of the surhave been allowed to attain their nat veying parties who had been out returned in safety. Mr. Ashley, (a brother of in finding a ready supply, but with one Senator Ashley of Ohio,) has not been heard from yet, and it is generally believed that he and his party have been found water in a ravine. It was then killed. The report was current here about So'clock in the evening, but the that myself and party had been capturlight of a full moon enabled me to de ed, but that proves to have been a misect signs that led to its discovery.
