## Josh Billings on Roosters.

There iz not on the whole horizon ov Ive nature nor pleasing and strengthening studdy than the Rooster. This Remarkable package of feathers has bin for ages food for philosophick, as the simply curious mind. They belong tew the fethered sekt denominated poultry, and are the husbanz wives. In Utah it is konsidered a disgrace to speak disrespectfut of a rooster. Brigham Young's coat ov arms is a rooster, in full blast, crowing till he is bent over double backward.

The flesh of the rooster is very similar tew the flesh of the hen; it is hard to distinguish the difference especially in your soup. Roosters are the pugitists among the domestik burds; they went the belt, and having no shoulder strike from the heel.

Roosters, according to profune history if mieducashun remembers me right. were formerly a man, who came sud-denly upon one of the heathen gods, at a time when he want prepared to see company, and waz, for that offence, rebuilt over into the fust rouster, and was forever afterwards destined to crow, as a kind ov warning. This change from a man akounts for their fighting abili-ties, and for their politeness to the hens. There is nothing in a man that a woman admires more than his reddyness and ability to smash another fellow, and itz jiss so with a hen. When a rooster gets licked, the hens all march oph with the other rooster, if he ain't half so hig or handsome.

It iz pluck that wins a hen or a wo-

There iz a grate variety of pedigree amung the rooster face, but for stiddy biziness give me the old fashn dominique rooster, short legged; and when they alwas strut, and their buzzams stick out like an alderman's abdominal cupboard. This breed is hawk-colored; and haz a crooked tail on them like a slokle, and az full ov fethers az a new

But when you come right down to grit, and throw all outside influences overboard, there ain't nothing on earth, nor under it that can out-step, out-brag. or put-pluck a regular-Bantam-rooster.
They alwas put mein mind ov a very small dandy, practicing before a look-

They don't weigh more than thirty ounces, but they make az much fus az atun. I have seen them trying tew pick a quarrel with a two hoss wagon, and don't think they would hesitate tew fight a meeting-house if it was the least sassy tew them.

It is more than fun tew hear, one ov these little chevaliers crow; it is like a four year old baby trying to sing a line out of the Star Spangled Banner.

The hen partner in this concern is the most exquisite little boquet of neatness and fethers that the eye ever roosted on.

We have enough to do an ine occarn and warming in Tioga County. In fact, we have Stoves enough to MAKE A SUMMER in WALRUSSIA.

We are the only agents for the sale of the They are as prim 1.2 a premature young lady. It iz a luxury tew watch their daintyness, tow see them lay each fethiser with their bills, in its place and preside over thomselves with as much delleacy az a belle gefore a mirror.

But the consummation iz tew see the wife a mother, leading out six little chicks a bugging; six little chicks no bigger than bumble-bees.

We keep all kinds of Hardware, Iron, Nails, bigger than bumble-bees. It seems to be necessary that there should be something outrageous in

everything, tew show us where propriety begins. This is melanchollily the case in the rooster affair, for we have the shanghi rooster, the greatest outrage, in my opinyun, ever committed in the annals of poultry. Theze kritters are the camels amung fowls; they mope about the barnyard, tipping over the hayracks and stepping

on the young goslins, and every now and then they crow confusion. If ennybody should give me a shang-hi rooster, I should halter him, and keep him in a box stall, and feed him on cut feed, and if he would work kind in harness, all right; if not, I would

butcher him the fust wet day that cum; and salt him down tew give tew the But there ain't nobody a going tew give me one ov this breed, not if I know it; I don't think there is a man on the earth mean enuff to do it

Roosters do but very little household work; they won't lay enny eggs, nor try tew hatch enny, norsee to the young ones; this satisfys me that there is sun truth in the mythologikal akount ov the rooster's fust origin.
Yu kaut git a rooster tu pay enny at tention tew a young one; they spend all their time in crowing, strutting

strutting, and occasionally find a worm, which they make a remarkable fuss over, calling up their wives from a distance, apparently tew treat them, but just as the here git there, the elegant and elaborate cuss bends over and gobbles up the morsel. Just like a man for all the world.

CLOSE CALCULATING .- "What do you charge for board," asked a tall green specimen of a Vermont boy, as he walked up to the bar of a second rate hotel a short time since, "what do you ask for board and lodging?" "Five fift!" "Five dollars and fifty cents, that's too much, but I suppose you allow for the time I am absent for dinner and suppose"

and supper."
"Certainly, 40 cents each meal."
Here the conversation ended and the
Vermonter took up his residence for two weeks. During this time he lodged and breakfasted at the hotel, but did not take either dinner or supper there, saying his business detained him down

At the end of the two weeks he again stepped up to the bar and said: "sup-pose we settle that little account now. I am going in a few minutes." Where-Lam going in a few minutes." Whereupon the landlord haded him his bill.
Two weeks board at \$5.50,—11.00.

FEAR OF LIFE INSURANCE.—The following dialogue between an insurance agent and a well-to-do Irishman is re-

"Pat, you are making plenty of money; why don't you insure your life?"
"And what is that?"

"Why don't you take out a policy of insurance on your life?"
"Because I don't see the policy of it Shure I must die, policy or no policy."
"You don't understand. If you in sure your life now, when you die the company will pay your wife enough to keep her and your children from want and suffering."

"And that would be insuring my life! Shure I am after thinking it would be insuring Bridget's and the childer's. And how much would they give her?" "That would depend upon the premium. Say a thousand dollars." 'A thousand dollars! Holy mother!

Important Facts. SINCE Salutifer is now being-used in thous-ands of families the following facts are impurtant to be known.

First—Though it is the most powerful of all popular remedies, yet it is so compounded, as to be safe and harmless. It is of such a nature that it may be handled and used by children, and persons who are ignorant of Medicines. SECOND-It is found that Salutifor will relieve severe pain in any part of the body sooner than

any other application.

THERD—It is important that the bottle be well corked, if left open only a few minutes it loses FOUNTH-This usoful remedy can be obtained rom almost every dealer in medicines.

A LARGE STOCK OF FLOUR FOR Troblas' Derby Condition Powders are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hidebound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase then ppetite, give a fine cont, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you, will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo, P. Bush, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly per mitted me to refer any one to him. Over 1,000 other reforences can be seen at the depot. Sold by Druggists and Eaddlers, Price 25 cents per box. Depot, 56 Oortlandt Street, New York. TOBIAS' DERBY CONDITION POWDERS ARE LARGE STOCK OF FEED FOR A LARGE STOCK OF PORK FOR

The American Cooking Stove. A FTER twenty years experience in the man-A ufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and worthless stoves. a large portion of which was wasted; and that true economy consisted in buying the best stores that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the lust six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner we do not besitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manu-facture, we study usofulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satis-

To the Farmers of Tioga County. Having a first-class screw-cutting Lathe, we are prepared to make AM now building at my manufactory, in Lawrence ville, a superior FANNING MILL, to order. Builders of Cheese Factories are requested to examine our work. We manufacture the which possesses the following advantages over allother

mills:

1. It separates cats, rat litter, and foul seeds, and chess and cockle, from wheat.

2. It cleans flax seed, takes out yellow seed, and all other seeds, perfectly.

3, It cleans timothy seed.

4. It does all other separating required of a mill.

This mill is built of the best and most durable timber, in good style, and is sold cheap for cash, or produce. duce.

I will fit a patent sleve, for separating onts from wheat, to other mills, on reasonable terms.
