of the motion now made by the Senator from Nevada. I had no intention to say a word on this subject, and should not have done so but for a remark that fell from my colleague, which I think was disrespectful to the State from which he and I come, in which we were both born, and to which we owe not only allegiance but love. I was sorry to hear him say that money had been brought into Pennsylvania to influence and corrupt the elections there, and to produce a result which the peo-ple did not desire. In 1854, my colleague and I separated in politics. The first election of any consequence after that was the election for President in 1856, when Mr. Buchanan and Mr. Fremont were the opposing candidates. In reply to the remark of my colleague I think I may say with confidence that there is hardly a man in Pennsylvania now living who was acquainted with that contest who does not believe that Colonel Fremont was cheated out of the vote of Pennsylvania by the activity and dishonesty of the men who sup-ported Mr. Buchanan. Large sums of money were brought into Pennsylvania to use as a corruption fund, and they were so used. Sir. had General Fremont received the vote of Pennsylvania then, as he was entitled to do, we should have been saved the evils which blood and treasure, and its consequences. But General Fremont lost the vote of Pennsylvania by the manage-Democratic Central Committee of that 'year, who through the use of money from other States changed the result of

They intend to claim them, and I have no doubt they will receive them. I remember the other day, in a contest for a seat in the Leg-islature from the city of Philadelphia, three men were brought up and swore that they had voted at every precinct in the city, and at each place they had given different names to the amount of eight or ten each. A stupid man is not to be admired by anybody; but we sometimes differ as to where the stupidity is to be found. Sometimes we think people are laughing with us, when they are laughing at us; and so it may be in regard to stupidity.
