BOUNTY LAW.—The late bounty law does not apply to those discharged for disability, but only where the discharge reads "for expiration of term of service," and in no case where more than \$100 has already been paid. See notice in another column.

PDRSONAL,-Mr. H. T. Ames, of Sullivan, was graduated in the Law Department last Wednesday. He will return to his home for a short time, and then expects to go to Williams. port to practice law. He was admitted to practice in the several Courts of Michigan as Attorney and Solicitor in Chancery. Mr. Ames has our best wishes for success.

VALUABLE WORK. -- Mr. Geo. C. Bowen is agent for the "American Year Book and National Register," for this county. This work is the most exhaustive compendium of statistical and general information, yet published. Every lawyer, and business man will find it a capital cyclopedia, and altogether indispensable, while its presence in every farmer and merchanic's library will thrice cover its cost every year.

BEAT IT IF YOU CAR t Mr. Richard Moore, of Delmar, has a Chester County or county Sow which has produced Fifty-three pigs in the 355 days ending March 16. The first litter was March 26, 1868, and numbered 15; the second litter was of October, 1868, and numbered 19; the final and conclusive batch was presented to the happy owner on the 16th of March, 1869, and numbered 19. . This is, as Mr. Moore says, a little more than one pig a week. Twenty-four of the lot sold for \$1 a head at a month old, and the balance raised-12-at \$1,50.

So the old sow earned \$114 last year. That fairly beats the best cow yet reported in Tioga and Bradford. We rest. Apropos of this .- The Havana Journal (1)

"There is a cow in Chemung County which has raised forty-four pigs of three litters during the past year and a half. Pork is scarce in Chemung, but "dis is business."

"I notice an "inquiry" from a "tencher" at Mansfield in your last issue, and reply as follows: First, The "Union Series" are not used in a majority of the schools of Tioga County. Secondly, If Susquehanna and Bradford counties have made a mistake in adopting an inferior series of text books, Tiogacounty should not comwit the same error. The banner Republican county should use the best books, for inteligence and Republicanism go

hand in hand.

The "Union Series" do not contain that first essential of a complete text book, viz: the application of Orthography. The "National Series" does, and that series as the banner series of the country, should find a hearty welcome in every township of the Commonwealth. Orthography is the base on which our Language rests, like a great pyramid, and in no re spect should it be neglected."

We give the foregoing without alteration, as chief defect of the series advocated by our correspondent is orthographical. Still, we hope there is not to be "a war of books." We like the orthography of the "Union" better than that of the "National."

THE BATTLE OF THE BUTTER MA-KERS .- The battle between Tioga and Bradford dairymen waxes botter. We find in the Bradford Reporter of the 1st inst., in a letter from Mr. S. H. Wilcox, of East Smithfield the following

spicy note:

"I notice in my last Reporter an account of two Tioga County Dairies, and also an invitation for Bradford County to come on. In the above I make no account of pork put lown for use in my family." -We admit that Mr. Wilcox beats Mr. Rorapaugh just a trifle. But what must we say to Mr. John G. Mason, of East Canton, who also in the same number, writes:

"As I have been a good deal interested in the plauke, butter controversy between Bradford and Tioga, "The

Fifteen years ago you could buy cull lumber in Wellsboro at \$3 less per thousand than you can buy hem to day, while your culls stretch upon the cost of box then. You see, the country has forged ahead. Business has grown and multiplied. Men carried on business and trades then by hand. Now they use Steam, and cannot keep up with their orders. Then all the farms in the county did not produce as much cheese as one factory within five miles of Wellsboro produced last year. How many men were buying butter for the New York market then? How many now? If butter is worth more now, remember that it is because our market is in New York, and not in half a dozen lumber camps now. And remember that good times means prosperous producers. try is doing well. Now who is going to grumble next? : -The following letter from Col. T. M. Bayne, of Pittsburg, late Colonel of the 136th P. V., himself one of the most gallant of the leaders who led the soldiers of our Commonwealth to victory, containing as it does, unselfish tributes to the daring of one and the generosity of anothmatter of fair play. We still suppose that the er of Tioga county men, must have a place in our local history:

"I saw an extract from one of your issues of recent date, concerning Phillip Petty, late Color Sergeant of the 136 P. V. Though I have not seen or heard of him since the Regiment's muster-out until I saw that extract, the scene you describe, and the combination of events that makes the day on which it took place at once terrible and memorable in our Country's history, are brought vividly to reccollection. You are eminently just when you say, "Petty is a hero.' It was like inviting death to take the colors there. Ignoring the danger, but heeding the dictates of duty, Petty seized the colors in the midst of death, and carried them gallantly thro'.

"It would be invidious, perhaps, to mention others who distinguished themselves on that occasion. But after the conflict was over for the day, and we was all of the conflict was over for the casion. But after the conflict was over for the day, and we were all so tired and hungry that we coveted the green sward for a bed, and anticipated "hard tack" with unusual feelings, we found another from your County, who; if not, strictly speaking, a hero, was the next thing; the heroes' frend. I refer to Mr. Le Roy Tabor, the Suttler of the Regt. At the most opportune moment of our lives, this worthy man "put in an appearance," as Capt. Mitchell would probably say, which was highly gratifying. He came to us at midnight, with not only hard tack, but all the good things he could gather. He distributed impartially the repast he had largely out of his own means provided, and there wasn't a soul in the 136th who did not thank Leroy Tabor for his noble generosity. But he did not stop here.

The American Cooking Stove The only real base burner. It is a well known fact that in a cooking stove with an elegant fire-box the fire will die out at each end, and a large quantity of dead coal will accumulate at these points. To prevent this in the American and aid and make a uniform combustion through all arts of the fire-box, air is admitted into a holow chamber at the top of the stove above the ire, and carried through this hollow heated chamber down to near the bottom of the fire-box at each end, and then admitted directly into the burning mass of coal. By this means a uniform combustion is obtained in all parts of the fire-chamber, and less coal consumed, and a more continuous fire can be kept than in any other stove. This new patented improvement is another great acquisition to this already worldrenowned cooking stove, which is now on the Fair grounds only for exhibition, where it can be seen by all desirous of examining its many perfectious, and is for sale by Warrant & Southworth, of this city, agents for Shear, Packard & Co., of Albany.—[Rochester Democrat, Oct. 1st.
