THE ACADEMY.—The School year of the Wellsboro Academy closes Friday avening, June 11, with the usual exercises. All are invited to attend.

DEDICATION .- We are requested to Elkland, will be dedicated on Wednesday, June 10, inst., at 1 o'clock P. M. The public is invited

THE PEACE JUBILEE. - The Erie 25, from Corning and Elmira.

BINDING.-Persons wanting Magaazines and pamphlets bound, or books rebound. are informed that they can be accommodated by sending or leaving the same at this office, with on application. We are now making up a box.

NOTICE.—This paper goes to press on the last forms at 7 o'clock every Tuesday morning. Advertisers will oblige us by handing in their advertisements as early as Friday previous. especially where they want the space of from } to a column. Correspondents will please make their returns as early.Friday noon.

REMOVALS.-E. R. Kimball has removed to the new building below Roberts & Bailey's Hardware Store. He has increased his stock as well as his facilities for doing business. Pursel has removed his cigar and Tobacco Store to the stand vacated by Mr. Kimball. He Tobacco is the best in town.

GOOD TEMPLARS .- The officers Challeston Lodge, No. 669, were installed by Lodge Deputy 5. L. Lyen of Nils Valley Lodge No. 537, Tuesday evening, May 11, as follows:
W. C. T., John Francis; V. T., Matilda Dartt; S., S. E. Parker; T., Roxana More; F. S., Clara Dartt: M., Lyman Potter; C., Lorenzo Catlin; f. G., Harriot Francis; O. G., Robert Dartt; A, S., George Parker.

DRAG-RAKE.-Mr. Seth Clark, of Charleston, has shown us a Drag-rake for raking after a load, which appears to us a very good thing. It may be operated by a boy of ten years, and enables such a boy to rake clean and keep? up with ease. It is not a costly rake by any means, nor is it patented. Those farmers who do not use the horse rake to rake after the load would be well served with such a rake as Mr. Clark's and at no great expense.

SINGULAR ACCIDENT.—One day last week, as a team belonging to G. D. Keeney Esq. heavy load overcame the strength of the horses, dietment ignored. and ran off the dugway, dragging the horses | Same vs. Samuel W. Reynolds. False after it and landing lumber, wagon and horses in True hill. Continued. the field 160 feet below. Strange to say, the horses were not seriously injured, but the wagon | True hill. (Mirabile dictu!). was destroyed. A growth of young trees checked the momentum of the horses, though the heavy load mowed a swarth through trees from four to six inches in diameter as though they were grass. Such is the result of overloading a team. It is both cruel and dangerous.

PROGRESS.-We are very glad to record the following evidences of progress: F. K. Wright has bought five lots on Walnut

st., and has graded and fenced them. D. H. Belcher has bought two lots of Mr. Wright, and has commenced laying the foundation of a neat cottage. R. L. Van Horn has staked out the ground for a new house on Walnut st.

F. K. Wright has bought a house and lot of D. W. Belcher, near the Cemetery. D. P. Roberts is about to erect a fine dwelling on Walnut at.

From which it clearly appears that Walnut st., is bound to win in the race of improvement. The Messrs, Stunnock have made a nice front for Foley's new store. It is neat and tasty, and Wyvil is retuching it in his hest style.

PERSONAL -Among our Corning advertisers we desire to make honorable mention of Messrs. W. D. Terbell & Co., with whom we have dealt for several years and to the amount of thousands of dollars. They are wholesale and retail dealers in drugs, medicines, paints, oil lamns, and various of the many conveniences of the household, as well as Yankee Notions. Our deal with them is in print paper, chiefly, but we know them as dealers of strict integrity in all the branches of their trade. Their guarantee is as good as a bond, and we never heard a word of complaint from any person dealing with them. They are known as men of enterprise, prompt to fill orders, and always correct in business matters. It is a pleasure to commend them and wish them success.

UNION TEMPERANCE MEETING .- A meeting under the auspices of the several church organizations of this village was held in the Court Room, Tuesday evening, and was largely attended. The Templars were present to the number of forty, and a deputation of the Sons of Temperance were also present, all in appropriate regalia. - Hon. E. T. Bentley, of Tioga, was elected After a song, finely rendered by Mr. Hulslan-

der, assisted by Dr. & Mrs. Webb and Mrs.

Derby, short, and markedly effective addresses were made by Revs. J. F. Calkins, of the Presbyterian Church, S. M. Brookman, of the Baptist. and O. L. Gibson, of the Methodist Churches. The speakers were frequently applauded, and a the addresses were listened to with marked attention. We have seldom listened to anything more practical, and in some respects more elequent. Judgo Williams closed the meeting with a few remarks in which he illustrated the disadvantages under which the temperance organizations at present labor, and the responsibility of the Government for permitting tens of thousands to go to ruin that it may put money in its purse. Altogether the occasion was a step forward, and a decided benefit to the cause of temperance and

for the moral and religious elevation of the race. Those who desire man's betterment here and hereafter must join hands in the work, forgetting all differences of belief and remembering only that in union is there strength. Gossip.-Menkind, it seems to us,

The stone contained the usual amount of church evidences, together with a copy of the "Tiogacounty Agitator," "Wellsboro Democrat," and the coins and currencies of the day. The discourse was delivered by Rev. Jno. A. Bowman, which remarks were made by Rev. Mr. Kern, of Bloss, and Rev. Thomas Cullen. In the course of Mr. Cullen's remarks he stated that it was nine years since he was first sent to this place to orgarize a church. Salt Springs. Ep. Advitation: In your paper of March 31, a brief communication from Mr. James Stock, of Delmar, touching the Salt Springs near Stony Deliar, touching the Sait Springs near Stony Fork, appeared, and is attracting attention. After satisfying myself of Mr. Steele's integrity, I resolved to visit the locality, see for myself, and thoroughly ventilate the matter. Accordingly, Dr. W. Webb, of Wellsboro, planned at trip to that place for May 14; A heavy fall of fain the day previous, raised the streams so much as the provious of the streams of much as the provious of the streams. the day previous, raised the streams so much as to prevent that there was a camination, that the importance of the subject demands; but we gleaned enough of importance to warrant me in making the facts public.

After leaving Wellsbore, we visited Mr. Rob't Steele, a well known and worthy inhibiting of Demary who stated that he well remembered the time that his brother "Jim" (ten years his sential brought hold.

ior,) went to "Stony Fork" and brought back the sait. He had often seen the well which was somewhere from pine to fifteen feet in depth, and from the bottom of which the salt water was obtained. It was from this water, mixed as it must have been, that the salt was made; and in that salt there was about two or three pounds of sodiment—a field that shows the water to have been remarkably pure before mixing with the earthy secretions." He also give us much information in respect to the well on the farm of Mr. C. Copestick, which location we visited. In the vicinity of this well, now filled up because a cow in need of salt had committed suicide there, he said the suit water gozed in the bottom of the creek through the crovices of the rock, and in the low water season was quite perceptible. We only were able to obtain a slight thiste of suit, as the rain had washed everything clean, and effect unity shut off clore observation. I am entirely convinced that the prospect is as good, if, not botter, than it was at Syracuso, in the vicinity of which place I was reared. The same old red sandstone overlies, which belongs to the Onon-daga Salt Group, and there is no lime, so that one objection to the Syracuse salt, is obviated. It is farther evident that the deposite of salt is in the hill between Stony Fork and the Conestick Farm. The coal deposits are bankly, and there is no reason why a company should not be organized and the thing thoroughly tested.

ITHAGA WHEEL RAKE

THE undersigned, a practical farmer, is offer ing this implement to the firming public other rake in use: The teeth are oil tempered spring steel and fully warranted not to break with fair usage. By an ingenious arrangement, the leaded rake is easily discharged by a feet treadle and hand lover; and the pressure of the teeth upon the ground can be exactly gauged by the foot. Every tooth is independent of every other tooth, and the head being movable the rake adapts itself to every inequality of the ground. It rakes clean, is simple, strong and lasting. To try it is to buy it.
I refor the public to the following persons who have the rake in use:
