POEM.

THE SLEEP AND THE DEATH OF PLANTS.-When the cold weather comes some plants die, and so go to sleep for the winter.
Some plants always die in the fall.
Corn dies; so does the bean-vine. And so do many other plants. In order to have such plants another year, we keep some of their seeds to put into the

ground in the spring.

But some plants sleep in the winter.

Look at a tree. Its branches are all bare. It seems us if it had no life in it. But there is life there, and it will showitself next spring. Its life is asleep, kistas I told you it is in the seed before it is put into the ground. Its sap is all still in the pipes. The mouths in the ions have stopped their busy work. The buds all over the tree are asteep. in their "winter-cradies." The wind

rocks them back and forth, but hever wakes them up.

How much life there is a sleep in that tree! The buds are all there which are to make all that you will see on it the next summer. They are covered up raugly from the cold in their winter coats. The little things are very still, but they are alive. They only want a warm sun to make them show it. As soon in the spring as they feel the warmth through their coats, they begin to swell, as I have told you, and soon open their coats and go to work to make caves, and flowers, and fruits. Agreat work they do after their long sleep. Look up into a tree in summer and see how these leaf-buds have filled every branch with leaves. You can hardly

believe that it is the same tree that you saw so bare in the winter. Some plants'die down to the ground, and their roots live through the winter. You know that this is the way with tulips and daffodils. They come up in the spring from the roots that have been in the ground all the winter. So, too, do the beautiful crocuses, that peep up so early in spring that they often get covered with snow. The roots of grass, too, live in the earth through the

The life in these roots is asleep through the winter, just as it is in the trees and bushes. Their little mouths do not drink up any sap. How much life there is askep in the winter covered up in the earth! What do you think becomes of all the

leaves that fall, and of all the plants that die in the autumn? They are not lost. They decay and become a part of the earth. A great deal of the ground under your feet was once in the shape of stalks, and leaves, and flowers. And now the roots suck up from it sap to be made into the same shapes again. So you see that the dead plants and leaves of one year are used in making the plants and leaves of the years that come after.-Child's Book of Nature.

A good old Massachusetts doctor met a sexion in the street one day. After the usual salutions, the doctor began to

cough.
"Why, doctor," said the sexton, "you have got a cold. How long have you doctor with a show of indignation, "what is your charge of interment?" "One dollar," was the reply.

"Well," continued he, "just come into my office, and I will pay it. I don't want to have you around, so anxious about my health." The sexton was even with him, however., Turning round to the docto

"Ah, Doctor, I cannot afford to bury you yet. Business was never so good as ic has been since you began to practice."

A friend was traveling over the Boston and Albany Railroad, recently, and went into the smoking car to enjoy his pipe. Billy Morgan was in the chair, pretty well "set up," with whom the conductor had considerable trouble.— On arriving at Springfield, Morgan made a motion to get out; Seizing him by the collar, he thrust him back into his seat, with the remark that he could

not get any rum there. Comme get out," said he to the conductor;" "tis a marrar of great portance "I sh'd get out—'tis a fortune to me."
"How so?" asked the conductor.
"Why, you see," replied Morgan, "if
I get out and take on'y two glasses mo' (hie) glasses I shall own the whole ra'-

A farmer's son had for a long time been ostensibly studying Latin in a pop-

clar academy. The farmer not being satisfied with the course of the young hopeful, recalled him from school, and, placing him by the side of a cart, one placing him by the side of a cart, one day, thus addressed him: "Now Joseph, here is a fork, and there is a heap of minure and a cart; what do you call them in Latin?" "Forkibus cartibus, et manuribus," said 'Joseph. "Well, now," said the old man, "if you do not take that forkibus pretty quickibus, and pitch that manuribus into that fearthus, I will break your lazy backibus." Joseph got to workibus forthbus." THE CHURCH UNION. This paper has been recently eplarged to mammoth proportions. It is the Laguer factors paper in the works. It is the leading organ of the Union Movement, and opposes ritualism, close communion, exclusiveness and church caste, it is the only paper that publishes theory, Ward Reccher's Sermons, which it does every week, just as they are delivered,—without qualification or correction by him. It advocates universal suffrage; a union of christians at the polits and the rights of labor. It has the best Agricultural Department of any paper in the world; publishes stories for the family, and for the destruction of social evils. Its editorial management is impersonal; its writers and editors are from every branch of the church, and from every grade of society. It has been aptly termed the freest organ of thought in the world. Such a paper, offering premiums of Sewing Machines, Dictionaries, Appleton's Cyclopedia, Planos, Organs for Churches, etc., makes one of the best papers for cauvassers in the world.

THAGA WHEEL RAKE THE undersigned, a practical farmer, is offering this implement to the farming public with perfect confidence in its superiority to any other rake in usc. The teeth are oil-tempered spring steel and fully warranted not to break with fair usage. By an ingenious arrangement the break arts it case it as a first displayment by the the leaded rake is easily discharged by a foot trendle and hand lever, and the pressure of the teeth upon the ground can be exactly gauged by the foot. Every tooth is independent of every other tooth, and the head being movable the rake adapts itself to every inequality of the ground. It rakes clean, is simple, strong and

asting. To try it is to buy it.

I refer the public to the following persons who have the rake in use:
R. Toles, Chatham; Chancy Ackley, Clymer; E. H. Stebbins, Clymer; J. W. Davis, Brookfield; Isaac Thompson, Kelsey Erway, Harrison Valley, Potter County.

To Orders for this Rake may be addressed to me at Westfield, Tioga Co., Pn.
June 9, 1869. ISAAC PLANK, Ag't. SHRINER'S BALSAMIC COUCH SYRUP

Will cure the ASTIMA, BRONCHITIS, BLOOD SPITTING, DIFFICULTY OF BREATHING, PAIN and WEAKNESS IN THE CHEST, TROUBLESOMY COUGHING AT NIGHT, &c. It will effectually remove the Cough that frequently follows Measles, and my affection of the respiratory organs, no matter of how long-standing, or whatever the age of the person. It acts as a specific, is purely vegetable, and is pleasant to the taste. Its effect is soothing, allaying the viglence of the cough, facilitating expectoration, quieting the nerves and exhibitating the system. Mothers, Save Your Children! No child need die of CROUP, if this Syrup is used in time: this is a fact demonstrated by experience. No family should be without this Syrup, as that fatal disease, CROUP, comes like a thief in the night, to steal away your little ones, when regular medical aid cannot be obtained.
