The rite of bap-

THE CROPS .- The grain and hay crops are nearly secured, and were never better. We think it no risk to say that Tioga county caises her own brendstuff this year 1869, with some to spare. Still, with not less than a dozen cheese factories, and many private dairies, all doing a brisk business, it is not certain that Tioga county makes enough cheese to supply the local demand. The corn crop is not a certainty. Potatoes, and other root crops, are capital. .

PERSONAL.-Prof. Charles H. Verrill, principal of the State Normal School, was in town last Thursday. He reports the school filling up with a promptness that is highly encouraging. We hope the day may arrive when Bradford county shall not furnish more patrons of the school than Tioga. The faculty is made up of irst-class educators, the school is casy of access from the outside world, and the society in the midst of which it is placed is noted for its good morals and enterprising | spirit. The next term opens Wednesday, Sept 1

He has our idea that bread and meat, and boote, hats, and sarmest wishes' for his success. His brother, trowsers grow on trees. So they set out for that wonderful land. They left on Monday and rowho has had three years' experience, succeeds to the proprietorship of the Manafield Gallery.
