WEDNESDAY, SEPT. 15, 1899.

New Advertisements

Furniture—B. T. Van Horn, Wellboro Academy—W. W. Hunt, Shoemakers—Wentworth, R. Smith, Notice to Bridge Builders, Cider—B. A. Hillhead.

Friends of Republican principles are requested to make all necessary preparations for the meetings advertised in this paper.

Postponed.—The County Fair and the Teachers' Institute having been fixed for the same week, the Fair has been postponed to Wednesday and Thursday, October 6th and 7th—a week later.

SCHOOL.—JOHN HUNT, of Genesee College, assisted by Miss Jennie Gosson, will open the Academy for students Thursday Sept. 21st. Our citizens have now another opportunity to assist in raising the institution from its low ebb. Let us all rally to its support and make it a success.

CORRESPONDENCE.—Our readers will find with interest the sketch of a trip to the Iron and Copper mining regions of Lake Superior, on the last page. Mr. Sherwood, the writer in a practical geologist, connected with the Geological Survey of Ohio, and is, within a graceful writer of prose and poetry.

PROGRESS.—The Methodist Church is approaching completion, the main spire being nearly finished. The foundations of one's new hotel are laid and the superstructure will go up as fast as bricks can be furnished. The borough authorities are doing good work on the streets.

O. G. L.—Following are the officers of Charleston Lodge for the current quarter: W. C. T.—Wells M. Moore; V. T.—Sylvia E. Parker; Secy.—Santo J. Parker; Assistant—Geo. J. Parker; E. S.—Clara Darrin; Treas.—L. R. Jones; Chaplain—Cyrus Darrin; Marshal—J. W. Warren; Deputy—Harriet Francis; I. O.—Clara Francis; O. G.—Lorenzo Oatlin; R. H. S.—Ella R. Moore; H. S.—Clara Parker.

SPLINDID FRUIT.—We have received a box of magnificent Dose Apples from Mr. A. J. Reynolds, living 2 1/2 miles above Tioga, on the north side of the river. These apples are of a large size, being one weighing a pound, and they average about 12 inches in circumference. The flavor is superb, the most tender, and the core not larger than in apples not half so large. We have never seen so fine a lot of apples except at a Fair.—Thank you.

RAILROAD MEETING.—At an informal meeting of citizens of Wellboro and vicinity, held Saturday afternoon, Wm. Bache, Esq., Chairman, and Jno. R. Bowen, Secretary, the following Committee was appointed to attend a meeting of the Directors of the Tioga Railroad Company at Corning, yesterday, and confer with said Directors regarding the construction of a railroad from Wellboro to Arnot.

A. P. Cone, H. W. Williams, Chester Robinson, J. W. Bailey, Wm. Bache, J. Ritterello, L. Bache, E. F. Wilson, H. Sherwood.

We hope that the Committee may return with an encouraging report.

A correspondent writes: INTERESTING DISCOVERY.—Andrew Sherwood, Esq., of Mansfield, recently discovered some remarkable fossils in the rocks, two miles below Blossburg. They are the bones, scales, and teeth of several varieties of fish, the largest of which he calls "Dactylopterus," which was about five feet in length. The scales, which he has in his possession, are two inches in diameter, and some of the teeth are an inch in length. These strange fossils are believed to be of the Devonian Age, and from the position in which they were found, must have lived millions of years ago. Mr. Sherwood has made, as this large museum abundantly testifies.

THE INSTITUTE.—The Teachers' Institute of Tioga County will meet at Tioga on Monday, 27th inst., and continue in session until Friday noon following. Among the notables to present are Prof. Saunders, author of Saunders' Series of Readers, etc.; Prof. Jones, of Erie, Pa.; and J. L. Moore, of New York. The Institute is expected to be a present a part of the time. The value of Institutes may be incalculable, if well sustained, or neglected, as has been so long the practice here. Prof. Horton, our Superintendent, takes hold of his work with an energy which promises good results. His heart is in the work, and his head is equal to the most difficult problem. The citizens of Tioga have profited freely from his lectures, and heard at \$4 per week to make. Of course this will result in an excess of funds over what is necessary to pay the expenses of the Fall Examination. Let the friends of education attend this Institute and make it a grand success.

THE FAIR.—If we have not yet attended to the coming Tioga Show and Fair of the County Agricultural Society it has not been from lack of interest in its object. Tioga county has much to show, and its object, mainly to improve the stock, is of the highest importance. When developed, five-sixths of the wealth of the county. The soil is strong, and the natural resources of the face of the county is a steady process of maturing. Our rocks are a mass of organic remains and an inexhaustible fund of fertility. Our pastures are carpeted with sweet perennial grasses, and the rate of progress is rapid. A yearly meeting to compare notes cannot fail in great good to farmers. Every man who learns something of his neighbor—if not of his neighbor, then of somebody more remote. If every popular school district would establish a Farmers' Club, to meet fortnightly and discuss agriculture, and semi-annually to send delegates to a County Convention, the rate of progress would be wonderful. We have urged this plan for years, but men are slow to advance, and all because indifferent to the appliances of growth. However in the absence of such clubs, nothing better suggests itself than the County Fair. It cannot be a success unless the farmers make it their direct, rendering good will to them, and incidentally to every man, woman, and child in the county. Bring your best stock, produce, and fables, and do not forget to inform the Committee who you manage to raise improve crops of grain, roots, and grass. The show is important as important as the big cats, leeks, potatoes, and so forth. Come along?

GOSSETT.—Sylvanus Stoppie was far and wide known as a man of wax. Not that Sylvanus was composed of that amber-tinted, plastic substance which shepherds give to wax their thread and fashion among by-lones to their chisels, but a man of such pliability and flexibility, so impressionable, in short, that he turned and kept the name from his by-lones to a very old age. As a boy his sayings became stock for laughter among boys, and texts for parents to preach sermons to boys who threatened to become rogues. Sylvanus Stoppie was not school at a tender age. But the youths Sylvanus was always the last boy in. This fact arose from frailty which was as usual to him as breath. For example: "Sylvanus, my boy," Mrs. Stoppie would say, "it is the year set off for school. Take your hat and satchel, and get on your feet, and get on, you will be late." "But, mammy," Sylvanus would reply, "I can't walk, my mammy." "Yes, mammy, but don't you think I will let you go?" "Yes, mammy, I will let you go," Mrs. Stoppie would say. "But I can't walk, my mammy." "Yes, mammy, but don't you think I will let you go?" "Yes, mammy, I will let you go," Mrs. Stoppie would say. "But I can't walk, my mammy." "Yes, mammy, but don't you think I will let you go?" "Yes, mammy, I will let you go," Mrs. Stoppie would say.

LIBERTY.—For the past few weeks Liberty has been the subject of much interesting to any one that would account for the non-appearance of any local items from Liberty. But at present writing, I have a few lines to chronicle the progress of the cause. Interest was first manifested when she gets ready to create new County Buildings. I present to you the plan, and even named it with shade trees, they will only put the buildings on it.

THE VOTERS OF TIOPA COUNTY. G. W. C. COX, having been a candidate before the Republican Convention for Treasurer of Tioga County, and believing that great justice was done to him, and that he had been elected to the office of County Treasurer. R. C. Cox, by many friends.

Caution. ALL PERSONS are warned against purchasing a note drawn by us in favor of Bule Vanderhorst, for the sum of one hundred dollars, dated Aug. 20, 1899. Said note was obtained by fraudulent representations and we will not pay it, unless compelled by law. AMOS D. COLLEGEY, SOLOMON DAY, Middlebury, Sept. 9, 1899-31.
