JAMES G. CLARK.—This popular poet and vocalist will sing in Mansfield Saturday evening, Nov. 27, at East Charleston Tuesday, Nov. 30, and at Tioga Wednesday, Dec. 1-skipping Wellsboro entirely, because we have no hall suitable for musical purpose. We really hope that Prof. Clark will count Wellsboro into his bailiwick before the bluebirds come again. We rather guess that he can have the Court House, with timely notice.

LOOK OUT!-We are informed that a woman is traveling the country selling lettery tickets. Of course she is a lawbreaker, and should be dealt with as the law directs. But, meantime, let nobody suppose that there is a fortune in store for somebody in any lottery. No fortune was ever made in that way, except by the proprietors. The silly folks who buy the tickets seldom "draw;" and when they do, they must be protty shrewd to get the cash.

A BLUNDER.-The paragraph pub-Johnston, should not have been printed; nor erly before it was put in type. We were overrun tion of blood to the head for some time past. He is a young man of strictly temperance habits.

THE CONCERT.—The Concert at the M. E. Church last Thursday night, under the direction of Prof. Adams, was a success. The class showed the effect of systematic training and thorough subordination to the controlling mind of the director. The juvenile class is entitled to highest praise, both for readiness and execution. Miss Louise Rogers, who sang the "Orphan Girl," showed that it is possible for her to enter into the spirit of the poet's song, a showing which the moist eyes of the audience proved was appreciated. She was encored. All sang well. Miss Adams, daughter of the Professor, was present. She is one of the most accomplished contralto singers in the land. The receipst were liberal, the house being filled. Prof. Adams is master of his vocation and his three weeks work in our midst has been a very great benefit to our young people

The day broke insus piciously, a fiful rain, with high wind prevailing from 3, to 71 A M. The clouds broke away how over, and though the walking was not elegant, the weather proved fair during the day. The church was completely filled, not fewer than 1000 persons being present. The dedicatory sermon was preached by Rev. B. J. Ives, of Auburn, one of the ablest and most noted clergymen of the

Gossip.—Now cometh a fitful breeze from Ohio, bearing on its wings, not healing nor Gilead's balm for the nations, but a message which betokens other symptoms of decline in public virtue. If any man, nominal Christian or nominal infidel, knows himself to be in the least responsible for this state of affairs; if any such man has struck hands with the chiefs of disorder -let him take home to his soul, if, indeed, he has anything but a stomach, the unwelcome truth which comes from the West: "The Board of Education in Cincinati has, by a vote of 22 to 15, excluded the Bible from the public schools of that city." We noted the pendency of such a proposition two weeks ago, in another part of this paper. Possibly it did not then appear to us hat the proposition would carry. It has carried. 10 Catholics, 8 infidols, 1 Jew, and three Chrisians-so the report has it-voted to exclude the Book from the schools. We presume that not a single Christian voted in that crowd. Chris. cianity is spiritual liberty or it is nothing. You cannot have spiritual liberty without a free press, ree speech and a free Bible. Luther struck for an open Bible. Wicklif, before Luther, likewise demanded it. This republic established roliglous freedom in the outset; and for fourscore years there has been no departure from the rule until now. Of course somebody's to blame. Who is that somebody? Let us see: This is preeminen-

tly a loose age. The Doctors of Divinity deounce it as a freethinking age. That is a mistake. There is a ban on free thought; and lishee two weeks ago, relating to Mr. William thought and action are hampered in a thousand way not good for them. Dr. Clark examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease and how you fest without asking questions he does not cousider himself competent to treat your case. This is the criterion to go by and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a Scientific Physician, and by this standard I am willing to be judged.

Dr. Clark treats no case unless constinuiously of the opinion that it can be cured or permanently benefitted.

Dr. Clark will treat no Chronic Disease unless he can Dr. Clark will treat no Chronic Disease unless he can explain its character to the complete and perfect satisfaction of the patient examined. And the Dr. would here most positively state, that he desires no patients to take freatment from him, unless they are fully and completely satisfied with his conspitations and examinations, which are made free from charge.

Dr. Cl. Akk bases his practice upon the incontrovertible law of Nature. First—That every cause has an effect. Second—That diseases are causes producing effects or symptoms, and that svery disease has its own peculiar: effects or symptoms which if properly and thoroughly understood by the examining. can be clearly pointed but to the complete satisfaction of the patient examined.

Dr Chris's method of diagnosing or explaining discass and their symptoms is only the process of reaching from cause to effect, and has been acquired by thorough literary and medical culture, and also by an almost unlimited practice in every form of disease to which the human system is liable.

By this process of reaconing the Dr. has acquired a reputation and success in treating diseases soldom attained. Dr. Clark is making quite a number of convenient appointments for the benefit of invalids who cannot go. a long distance to consult him. Patients will find this an opportunity rarely afforded, and one they should too fail to take advantage of.

The Dr. furnishes all the medicines, instruments and apparatus, necessary for the successful treatment of every case.

Among the many hair proparations in the narket is no easy matter to decide which one of them is most desirable for use. HALL'S VEGE S'AULE SICILIAN HAIR RENEWER, has been betero the public about nine years, its virus tested and certified to by many leading and influential physicians of New England, among whom we may name Walter Burnham, M. D., tomerly Professor of Surgery in the Worcestor Iedical Institution, and in Penn University of Philadelphia who says, "I have used it for restoring the hair, where inveterate eruptions had cosisted garious kinds of treatment, and found that not only was the hair beautifully restored of its original beauty, but also the disease of the calm completely cured; also Geo. Gray. M. D., a Nashna, N. H., the leading physician of the lace where this RENEWER is manufactured, peaks of the preparation in this way; I have seen its effects in very many cases. It will corcounty restore the hair to its original color, it means the head of danging, and leaves the hair soft, glossy and beautiful. I do not think its rest, glossy and beautiful I do not think its use in any way injurious, but on the contrary, beneficial. I can, therefore, obserfully recommend it to the public." A. A. Huyes, M. A GARDEN OF SPICES, in which every thing Sploy, from a nutmeg to cayenne per per may be seen and procured. 2d, A GARDEN OF SWEETS, in which every variety of Saceharine delights, both selld and liquid may be had by the stick, pound or gallon, and of such flavor and complexion as will make every aching sweet tooth in your head fairly jump with delight. Should you be pomologically inclined, this humane individual will conduct the same and the same a

duct you into a GARDEN OF FRUITS, in which almost every variety of luscious things to be found gathered from the four quarters of the globe, will be shown to satisfy your largest longings. Oranges from Cuba, Lemons from Florida, Prunes from Turkey, Raisins from Malaga, Currants from the Grecian Archipelago; Peaches dried and canned along with a great variety of Canned Fruits from the Jarseys; Dates from Syria, and Figs from Asia Minor. No end to the supply of every species of NUTS from 3 Continents.

THE TEA GARDEN will next command your attention; the warm decoction of the China leaf and the Java bean have become almost uni-

versal boverages, and if not swallowed too hot or to strong, the mild stimulants are esteemed as eminently promotive of comfort and sociality.— What comp my of elderly ladies could over part in peace without them? Now your riend the GARDNER, will be most happy to show you ill this. He will ask you politely to look at his Ten. You are welcome to try every chest and soe if GUN POWDER, Souchong GREEN, HYSON, &c., which flavor you like, but of all the other styles whose jaw cracking names would be dangerous to pronounce. COFFEES, in every style, ditto, ditto, ditto.

Furthermore,

The beneficent proprietor of this mammoth establishment—out of sheer good will, and if you will believe him for no other motive than your interest and his, has at vast expense established at the same place an immense depot of Provisons, consisting of

Flour, Pork, Lard, Codfish, White Fish, Sword Fish, &c., &c. Meal, Hams, Butter, Trout, Blue Fish, Halibut, &c., &c.

All of which he intends to sell at a profit, on the principle of "live and let live." He generally proposes also to receive in exchange all the pro-ducts of your farm and dairies, and it is said conadentially to the public, that he never refuses

Cash. The it inks him wretchedly to keep it. So anxious is hel that the dear people should want nothing whatever that money can buy of
