ROOMS OF THE STATE LIBERTY

LEAGUE PHILADELPHIA, Oct. 1, 1869.— DEAR SIR: It is now DEFINITELY ascertained that Gov. Geary is PLEDGED to advocate and sign a PROHIBITORY

Legislature to pass such a bill.
Forewarned—Forearmed. The hour has come for the friends of Liberty to rouse themselves to action. Our prinolples-our rights-our interests-the very bread of our families are at stake.

The League strongly urges that timely action be taken to counteract this base attempt to subvert the liberties of the people and the character of our free institutions: GOVERNOR GEARY MUST BE DEFEATED at every hazard. The prohibitory candidates for the legislature must share the same fate, NO MATTER TO WHAT POLITICAL ORGANIZATION THEY MAY BELONG .-Party considerations sink into insignificance when issues of such immediate

the continuous and the short of Parior Magnaine of America.

The engraving 28 x 25 inches, is from the original painting, entitled, "The Pic-Nic on The 4rn or July."

The painting took a whole year, and is considered the flicest of the entire list of numerous popular productions by Lillo M. Spencer. The engraving was the labor of four years, by three eminent artists—John Riogers.

John Halpin, and Samuel Hollyer; the last named having been induced to come from kuropo to America expressly to fluich it. The engravers have ably seconded the successful labors of the painter. None but artists can fully appreciate the fatil and labor lavished on this engraving. The general effect is very flue and in pressive, and the delicate fluich to the heads will bear the most minute inspection. The union of line and stipple is executed with unusual ability, and their skillful coublination has greatly contibuted to the success of the engravers in this unsurpasses proof of their artistical genus.

Cherry Pectoral. Is a soothing expecterant, prepared to meet the urgent need of a safe and reliable cure for a more efficacious in pulmonary affections, than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain. France, and Germany, where medical actence has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies in hospitals and other public institutions, where it is regarded by the attending physicians as the most speedy and agreeable remedy thatican be employed. Scarcely any neighborhood can be found where well known cases of discased lungs, which had baffled the efforts of the mest skillful and experienced doctors have been completely cured by it. These results are the most convincing proofs of the apperior curative proverties of this preparation; and to them the authors point with peculiar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as a medicine

peculiar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as almedicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously. This health restorer accomplishes even more by prevention than cure. If taken in season, it heals all irritations of the throat and lungs, whether crising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from the neglect of them. Hence no family should be without it. Influenza, Croup, Hoarseness, Whooping Cough, Pleurisy, Inciplent Consumption, and other affections of the breathing organs, give way before the pre-minent combination of medical virtues.
