FAIR AT TIOGA.—The ladies of the

Presbyterian society, will hold a Fair on Tuesday afternoon and evening, Dec. 21. Will also offer refreshments during afternoon and evening of the same day, at the Fair rooms over C. H. Seymour's Law office. By order of Committee.

THE LECTURE. - Dr. Webb's lecture upon the circulation of the blood, Friday evening, was in happy contrast to the dissertations of peripatetic physiologists. An hour suffices for little more than an outline lecture upon so pregnant's theme. The theory of the circulation of the blood was fully stated in intelligible language, and illustrated by plates. The Doctor confined himself to the presentation of fact in support of the theory, never for a moment attempting to cloud his subject with opinions, or guesses at results. The attentive listener must have gone home wiser. The attendance was large and the order good. The music, by Mr. Bailey, Mrs. Sofield, and Miss Bowman, was excellent. The next lecture of the course will be delivered by Rev. 0. L. Gibson, Friday evening, Dec. 10 Subject: "The Order of The Cincinnati."

old time when a boy in the company of grown-up people would not monopolize all the conversation, but reperently recollected that "little folks should be seen and not heard"? It seems so long ago that this was the rule, and yet it to as the rule, you know, less than thirty years ago. Now, when grown people meet for a social time, and Gossip.—Do you remember the good when grown people meet for a social time, and little folks chance to be present, there is about one chance in fifty that the latter will manage to make themselves heard most of the time. people have come to regard the number of minutes a man can talk as a sort of gauge of his ability; so, children are gauged by the number metaphors, "Booz" says "we have bot had a dranken person in the place for two years or more." Probably that may be correct, if we count the this is the measure established by their elders, and become garrulous. Children do not obey orders—or the few orders laid upon them by the superiors. You have only to go to any public meeting of an evening, and mark how forgetful of the rights of others they can be on occasion. You may reason this way: can be on occasion. You may reason this way : "If these boys do not want to listen, why are they here?" But you forget that this is "a free country," where the highest liberty consists in cultivating the testes of your household for the doing as you please without reference to the poisonous cup by flavoring dishes for your table with wines and brandies?, if so, beware! reficet! rights of other people. We are by no means certain that the conduct of boys at such places is rations to come, aye, to eternity; for verily as not the measure of the'r training at home. BROOKEIELD.—In spite of the hard frosts, the early snow, and cold, north wind, Brookfield still lives. Since I last wrote you, summer has faded from our hills, autumn has made the brown, and they are now white with snow. Ice, snow, and sleet! This has been the programme for a few weeks past. The old pine snow. Ice, snow, and sleet! This has been the programme for a few weeks past. The old pine and homlock trees down in the woods begin to look quite aged where the snow has tipped their shadow has long ago ceased its rippling music, its little tongue being tied with cold.

But as éarly as it came, winter found us all prepared. The crops came up to the farmers, highest anticipations, and barns, cellars, and storerooms were filled almost to overflowing.

Thus situated, we can laugh winter in the face; for however loudly the wind blows, or how deep soever the snow, we have the satisfaction of knowing that we have enough to last until spring.

KNOXVILLE .- On Monday evening, 22d ult., the quiet citizens of Knoxville, were kept awake some two or three bours, after people's bed time, by the "howlings" of some three or four young men, (at least they call themselves o), who had just come from the Lodge room of o know why they came from the Lodge in such naste, but we know that they went directly, to be Hotel and "made a clean breast of it," by exposing the whole unwritten work of the L. David Edgeton, one of the first settlers and faithful pioneers of Sullivan township, who has survived the storms of 75 winters, having rented his old farm, purchased a residence near the new Free will Baptist Church in Gray's Valley where they might live retired from the cares of the world and trouble of children. It so happened on Thanksgiving day, while the old folks were at church enjoying a rich and able discourse for the occasion from their present pastor, Rev. Asa

The class examinations passed off as previously advertised; the several classes bore the drill creditably. But these examinations are not as well attended by the ditirens, as would be pleasing to the Faculty, or to the Trustees of the institution. The faculty kindly published a list of classes, so that every one might choose those in which they felt most interested. We trust no one who can, will fail to attend the examination at the close of the winter term. In justice to the friends of the school I will say that the examination was better attended yesterday than usual.

RELIGIOUS .- At the call of the Bapgathered in that chapel, assembled to listen to a programme of unusual merit, as those who read it must observe. About twenty little boys, and half as many small girls in the audience, could have been spared as well as not. They were too young to appreciate anything, but noise and mischief, and too old to sit in mamma's lap or on papa's knee. Where all acquit themselves fowell, where hesitancy, much less failure is unknown, it becomes a delicate task to make any personal criticisms. But I believe extra merit deservés some passing notice at least.

Those whose names are starred on the programme are Seniors, and epoke original pieces; the others are juniors. Their declamations were selected, and well chosen, except one or two that were too long. HALLS vegetable sicilian HAIR RENEWER.

Among the many hair preparations in the market is no easy matter to decide which one of them is most desirable for use. HALL'S VEGE-TABLE SICILIAN HAIR RENEWER has been before the public about nine years, its virtues tested and certified to by many leading and influential physicians of New England, among whom we may name Walter Burnham, M. D., formerly Professor of Surgery in the Worcester Medical Institution, and in Penn University of Philadelphia who says, "I have used it for restoring the hair, whore inveterate eruptions had resisted various kinds of treatment, and found that not only was the hair beautifully restored to its original beauty, but also the disease of the scalp completely cured;" also Geo. Gray, M. D., of Nashua, N. H., the leading physician of the place where this RENEWER is manufactured, peaks of the preparation in this way; I have seen its effects in very many cases. It will corseen its effects in very many cases. It will cortainly restore the hair to its original color, it cleans the head of dandruff, and leaves the hair soft, glossy and beautiful. I do not think its use in any way injurious, but on the contrary, beneficial. I can, therefore, cheerfully recommend it to the public." A. A. Hayes, M. WALTHAM WATCHES!

For a few months past we have advertised the boyo Watches at extremely low prices, and the result has been most satisfactory. These Watches are, without exception, the most perfect specimens of fine mechanism ever produced in any country. Each and every part is made by machinery of the most delicate and claborate construction.

Compared with foreign watches, they possess many advantages, excelling not only in princi-ple and finish, but still more in their reliability

We often receive orders direct from our adver-tisement, but prefer that every one should send first for our descriptive price list, which explains all the different kinds, tells the weight and quality of the cases, and gives prices of each. This we will forward to any one on application, and it will be found very useful in making a selection. Every Watch is warranted by special certificate from the American Watch Co.

We send them by express to any address.-Allow the purchaser to open the package and examine the Watch before paying, and if afterwards it does not prove satisfactory, it can be exchanged or the money will be cherfully refunded. br. Ciark will treat no Chronic Disease unless he can aplain its character to the complete and perfect satisfaction of the patient examined. And the Dr. ould fere most positively state, that he desires no patients o take treatment from him unless they are fully and completely satisfied with his consultations and examinations which are made free from charge.

Dr. CLARK bases his practice upon the incontroverible law of Nature. First—That every cause has an effect. Second—that diseases, are causes producing effects or symptoms, and that every desage has its own jeculiar effects or symptoms, which if properly and thoroughly understood by the examining Physician. Tan be clearly pointed out to the complete satisfaction of the patient examined.

Dr Clark's method of diagnosing or explaining disease and their symptoms is only the process of reast oning from cause to effect, and has been acquired by thorough literary and medical culture, and also by an almost unlimited practice in every form of disease to which the binnan system is liable.

By this process of reasoning the Dr. has acquired a
