After eating his dinner and taking a walk he went to the stable. Sometime afterwards Mr. Vandever went to the mow to throw down some hay for the horse, and there saw his son lying on his back with his hat over his eyes .-He attempted to arouse him and to his horror discovered that he was dead. A crowd of neighbors soon gathered, when on examination it was found that the young man had deliberately opened his vest, turned it back, placed a pistol against his breast, and fired. The ball assed through his heart, causing instant death. He lay on his back, with the pistol at his feet. On his person was found the note he

RUPERT'S LAND.

A new Republic has been formed in that part of the British Possessions, known as the Hudson Bay territory. It is a large tract of land, extending from Hudson Bay, on the east, to the Rocky Mountains, on the west; from Crawford County, as we learn from the northern boundary of the United states as large as New York. It was north by Joel Parkhurst, east by F.G. Sa soothing expectorant, prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. diseases of the throat and lungs.

A trial of many years has established the fact, that it is more efficacious in pulmonary affections, than any other remedy. Its efficacy has now become so generally known, that it is justly regarded in many countries as a medicine of indispensable necessity. In Great Britain. France, and Germany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies in hospitals and other public institutions, where it is regarded by the attending physicians as the most speedy any neighborhood can be found where well known cases of diseased lungs, which had balled the efforts of the most skillful and experienced doctors have been completely cured by it. These results are the most onvincing proofs of the superior curative proverties of this preparation; and to them the authors point with pseuliar satisfaction. While it is most powerful against confirmed diseases, it is extremely gentle as a medicine in infancy and youth, being quite harmless to even the youngest, when administered judiciously.

This health restorer accomplishes even more by prevention than cure. If taken in season, it heals all irritations of the throat and lungs, whether arising from Colds or Coughs, or from other causes, and thus prevent that long train of painful and incurable diseases, which would arise from the neglect of them. Hence no family should be without it. Influenza. Croup.
