CLOSE OF SCHOOLS.—Friday of last week was the close of our village schools. The afternoon was beautiful; the boys and girls came out in their holiday attire, as has been the habit of school boys and school girls these many years. Such a scene of happy, cheerful, all clated faces, gladdens the hearts of all, and awakens happy recollections of the distant childhood, all beautiful, pure and fresh as the morning.

We were glad to notice quite a large numbe of visitors present-parents, Directors, and others. We are sure they enjoyed the afternoon. There was speaking and singing by many pupils. They acquitted themselves well. The singing added greatly to the enjoyment of the exercises. We shall be glad when music is taught in all our schools.

There are three tenchers and about one hundred and fifty pupils. The rolls bear more names. The term has been eight months, with a vacation over the holidays. That is a long term; but the interest has been well sustained, though the attendance, latterly, has not been as regular as before the spring opened. That is not stronge; considering the temptation to be outdoors these pleasant days. Older people can scarcely keep their offices and places of business.

8. 8. INSTITUTE.—The Troy District 8. S. Institute and Convention will be held at Canton, May 10, 11 and 12, at the M. E. church. The Convention, already noticed in one or two Papers, will be preceded by a two days' Institute. The programme will soon be received, by each the brethren of the district and others who are booked for the discussion of a topic, &c. I trust they are on their way at this time, though lelayed, unfortunately, beyond the time of their

intended issue. Those whose names will appear in the programme, are generally pledged to be present, and prepared for the work assigned them. Hence failures need not be anticipated nor feared, but an occasion of unusual interest expected. Paslors are urged to bring two or three S. School workers with them, as delegates. Rev. C. W. His sayings are the reflection of a tracille, shorn of the iniquities, and untrammeled by the dissipations, of those degenerate days. OSCEOLA. The statement in my last that "the spring floods had come down the Cow-anesque," failed to cover the whole chee—at least it was somewhat premature. All day Sunday and Monday, the 17th and 18th, the rain poured place, lacked only four inches of the greatest height attained by the flood of 1865. All the low came in broad daylight. Our citizens, equipped are not smart.—May 4, 1870-cm. with umbrellas and their best tarpaulins, took occasion to see the sights, and kept the bridges well occupied. Down came the remnants of the last "drive" of logs, regardless of booms—trees, stumps, and rails, on their way to make fence for farmers further down stream, with an indescriba-ble amount of flood trash of all kinds. Fortunately, our village is situated above high water mark, and no one in the town suffered very much inconvenience. Holden brook brought down two or three small bridges, and some logs from Bon the Methodist church. At the mills on the river, there was a break in the embankment about the pond, but the damage will be covered by a few hundred dollars. I do not hear that any bridge

along the river has been swept away. And upon the whole, the flood did much less damage in this section than was at first expected. Tree. JACKSON.—The weather is fine, and he farming portion of our community are hurryng to put their grain in the ground.
