#### FRANCO-PRUSSIAN WAR.

A detachment of 200 French soldiers erossed the frontier into Prussia on Tuesday 19th, ult., for a reconnoissance, and had atkirmish with a small Prussian force. The Frenchmen, were towards Thionville. Nothing remains finally surrounded by the German sol- at Strasburg. Apparently, says a rewere killed, and only a few wounded.

• National honor, violently excited, press-es itself irresistably rises above all other interests, and applies itself with the single purpose of directing the destinies of Aho nation. One of these decisive bours has now arrived for France.-Prussia, to whom we have given evidence, during and since the war of 1866, of a most' conclliating disposition, has, held our good will be no account, and has returned our' forbearance with encroachments. She has aroused distrust in every quarter, necessitating exagerated armaments, and has made of Europe a camp, where reign disquiet and fear of the morrow:

and fear of the morrow: A final incident has disclosed the instability of the international understanding and shows the gravity of the situation. In presence of her new pre-tentions, Prussia was made to understand our claims. They were evaded and followed with contemptuous treat-Our country manifested proment. found displeasure at this action, and quickly a war cry resounded from one end of France to the other. 'There Femains for us nothing but to confide our destines to the chances of war. 🐇

We do not make war upon Germany, whose independence was respected. We pledge ourselves that the people composing the great Germanic nation-ality shall dispose freely of their destinies. As for us, we demand the establishment of a state of things guaranteeing oursecurity and assuring the future. We wish to conquer a durable peace, based on the true interests of the people, and to assist in abolishing that precarious condition of things, where all nations are forced to employ their re-sources in arming against each other. The glorious flag of France, which we once more unfurlin the face of our challengers, is the same which has borne over Europa the civilizing ideas of our great revolution. It represents the same principles. It will inspire the same devotion.

Cleanse the Blood.

WITH corrupt or tainted Blood you are sick all over. It may burst out in Pimples, or Sores, or in some ac-tive disease, or it muy merely keep you listless, depressed and good for nothing, But you cannot have good health while your blood is impure. Ayer's Sarsaparilla purges out these off life into vigorous action. WELLSBORO, PA.,

The work upon the forts was to be dinished within twenty four hours. Sixty cannon were brought into position. Ditches, casemates, bomb proof barracks, &c. were in process of construction on an immense scale. This is not merely intended to defend Metz, which was before sufficiently fortilied, but to protect a vast encampment like mo one at present; or, perhaps, to,give shelter to a heaten army. The fact that these additional works were com-menced months ago is a clear indication that France has been preparing so as to be ready, upon the first opportunity, for an aggressive war. There are two forts of Queutin, commanding the bread valley of the Fitum and the approaches to the town. Their gubs wo'd ply with tremendous effect upon any enemy advancing through the valley to attack the town. In the valley itself there is ample shelter for a whole transpire. army, guarded on one side by the guns of the town and on the other side by, these of the forts.

Still we call this compound, "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of oblodgy which rests upon it. We think we have ground for believing it has virtues which are irrespan-ble by the class of diseases it is inteded to cure. We can assure the sick, that we offer them the best altera-tive we know how to produce, and we have reason to believe. It is by fur the most effectual purifier of the blood yeld discovered. will give you much yalable information. Dr. R. W. Carr of Baltimore, says: I take pleasure in recommending your Rosabal-is as a very poworful alterativo. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrotula of long standing, which is rapidly im-proving under its use, and the indications are that the pationt will soon recover. I have care-fully examined the formula by which your your Rosadalis is made, and find it an excellent compound of alterative ingredients. Or.
