Treves. They were said to have 400, 000 men. The French opposing them number 300,000. The Emperor Napoleon arrived at Metz July 28, when the Imperial head-quarters were established at that place.

The Emperor was accompanied by the Prince Napoleon.

The following is the address of the Emperor sent to the Garde Nationale, through the officer in command:

"Dear General: I beg you to express on my part to the Garde Nationale of Paris, how much I count on its patriotism and devotion. At the moment when I am about to set out for the army. I have to testify to it the confidence which I repose in its will and ability to maintain order in Paris, and to contri-bute to the security of the Regency of the Empress. It is becoming to say that each one, according to the measure of his ability, shall add to the safety of the country."

The following is the address of the Emperor on taking command of the army:
Soldiers: I come to take my place at your bead to defend the honor of the roil of our country. You go to combat against one of the best

armed of European countries; but other countries, as valiant as this, have not been able to resist your valor. It will be the same to day. The war which now commences will be long and severely conjested, for its theater will be places hedged with obstacles and thick with fortresses; but nothing is beyond the persevering efforts of the soldiers of Africa and Italy. You will prove once more what the French army is able to accomplish, animated by a sentiment of duty.— Whatever road we may take arross our frontiers, we will find upon it glorious traces of our fathers, and we will show ourselves worthy of them.

All France follows you with ardent prayers, and the eyes of the universe are upon you. Upon our success depends the fate of liberty and civilization. Let each one do his duty, and the god of battles will be with us.

The resolutions have the ring of the true metal, and indicate the great advancement made below the mountains in the progress of Republican principles, during the past few years, and augur the complete ascendancy of the party in that county at no remote period. Beside such principles, of how little consequence is the triumph or defeat of any man in a political contest! When we adhere to principles, we know where to find our reckoning at all times: when we forget them, and follow the fortunes or seek to bring about the defeat of any man, how soon do we become lost in an inextricable maze of private interests and minor conflicts! Stand by the party, so long as the party adheres to the sacred principles from which it sprang, and upon which it has stood the test of the nation's darkest hour of peril!-Looking over the past history of this much we find in its brilliant record of conquest in peace and by arms, of which every member of that party has reason to be proud! The inequality and unfairness of our present system of nominations is so apparent, that a mere statement of the facts should convince every reasonable man that it is wrong, and that some change should be made to remedy the disappointment over the result. The mischief. There are now 36 election districts in the county, each of which, under our present system, is entitled to tion. Will any one contend for a moment that such a system should be tolerated for a day longer than the situation compels us to submit to it? For the present year, it may be best to submit; but something should be done by the Convention to do away with this

In several counties, power is 'distributed among the several districts in ratio with the Republican strength they represent. That there may be no injustice to localities, each district is given one delegate, and then an addition of one for each 50 or 100 Republican votes, or fractional part of such number as may be adopted as a basis. This plan still gives the small districts more than their proportional strength, as it allows to each, one delegate as a representative of the municipality. That much, it seems to us, is proper. Questions may arise affecting the interests of the townships and boroughs, as such, and perhaps it great and growing organization, how is not improper that they should be represented.

On the basis of one for each district and one for every 50 or fractional part the vote for Governor in 1869, viz:-Bloss 7, Brookfield 4, Charleston 9, Chatham 5. Covington 4. Under this system, the number of delegates would be nearly double the number at present; and this might be months, they will be repaired free of charge thought an objection; but it is found, at the hoop skirt manufactory of A. Cleanse the Blood.

GROCERIES,

WITH corrupt or tainted Blood you are slok all over. It may burst out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing, But you cannot have good health while your blood is impure.

Ayer's Sareaparilla purges out these impurities; it expels disease and stimulates the organs of life into vigorods action. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or King's Evil, Tumors, Ulcars, Spres, Eruptions, Pimples, Blotches, Boils, St. Authony's Fire, Rose or Erysipelas, Tetter or Salt Rhoum, Scald Head, Ring Worm, Cancer or Cancerous Rhours, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Bore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilis or Veneral Diseases, Eiver Complaints, and Heart Diseases. Try Ayer's Sarsaparilla, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.

During, late years the public, have been misled by large bottles pretending to give a quart of Extract of Arasaparilla for one dellar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparille, but often no curitive ingredient whatever. Hence, bitter disappolatments has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become

one by the class of diseases it is inteded to cure. We can assure (the sick, that we offer them the best alterative we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered.

Ayer's Cherry Pectoral is so universally known to

Ayer's Cherry Pectoral is so universally known to surpass every other medicine for the cure of Coughs, Colds, Influenzs, Hoarsoness, Croup. Bronchittis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stugss of the disease, that it is useless here to recount the evidence of its virtues.—The world knows them.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadaliss Guide to Heaith Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuble information. will give you much valuble information.

Dr. R. W. Carr of Baltimore, says:

I take pleasure in recommending your Rosabalis as a very powerful alterative. I have seen at used in two cases with happy results—one the case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of secondary standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully dramined the formula by which your your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Or. Sharks of Nicholasville, Ky., says he has Or. Sparks of Nicholasville, Ky., says he haused Rosadalis in cases of Scrofula and Seconda

y Syphilis with satisfactory results. As a clean of the blood I know no better remedy. Samud C, McFadden, Murftersboro, Tenn., says 1 have used seven bottles of Rosadalls, and amenticily cured of Rhenmatism; send me four bottles, as I wish it for my brother, who has scrowed the says when he server ties, as I wish it for my prother, who has scroul-lens soro oyes.

Benjamin Bechtol, of Lima, Ohio writes, I have suffered for twenty years with an investrate oruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected
