fendant procured the pension check, belonging to his wife, (whom he had married but six short days before,) from the post office in this place, and drew the money from the bank, on a false endorsement of his wife's name. He at once left the place, and was apprehended at Harrisburg and brought back here within a week. It was very clearly shown that his wife was not where she could have endorsed the check, and the jury were satisfied by the similarity of handwriting between defendant's own endorsement and that purporting to be his wife's, and from the circumstandes given in evidence, that the "Colonel" sas riding on the horse power of a threshing forged the endorsement. They hesitated but a short lime.

The indictment laid the offense with the word ' feloniously," as required by one section of the statute under which the offense was prosecuted. It is doubtful whether the case comes within the act of 1867; and to sustain the indictment, under the other section of the code, the word "feloniously" must be considered surplusage, and mere matter of form, which must have been taken advantage of before the jury was sworn.
