The Singer

SEWING MACHINE

Sept. 21, 1870,-1y.

FIGURES, FACTS AND FANCIES. The Singer manufacturing company in 1869 sold 86,781 machines. These figures, and those given below, are from sworn returns (to which any one can have access) made to the receiver, appointed by the owners of valuable sewing

machine patents, who license most of the companies of lesser importance.

In 1869 the Singer Manufacturing Company Sold over the Leavitt S. M. Co., 86,010 machines. Sold over the Parfilm "85,640 "Sold over the Empire" 82,233 "Sold over the Empire" "82,233 "

It is a fact, and the figures show it, that the sales of 1800 far exceed those of our rivals in trade. It is also a fact, that we sold last year over FORTY THOUSAND more machines than wo did two years ago. It is also another fact, that these increased sales are owing to the great that these increased sales are owing to the great and growing popularity of our New Family Sewing Machine. It is still another fact, that ninety of every hundred machines made and sold by us are for FAMILY use. But the stran-gest fact of all is, that some dealers, knowing in would be vain to attack the reputation of our would be vain to attack the reputation of our manufacturing machines, and who are free to admit all that can be said in their favor, thus hoping to secure the buyer's confidence, have the boldness to say that we have no family sowing machine, whereas our new machine for that purpose is capable of a range and variety of exquiatta cawing which amayes even those who are site sewing, which amazes even those who are familiar with the best work of other family ma-

chines.

Now it is mere fancy to suppose, in the face of the above figures and facts, that such sayings as the one spoken of can have any weight. Instead of giving ear to such fancies, most people, before buying, (whatever may be claimed about Paris Exhibitions—or Fairs, where we soldem exhibit machines,) examine and judge for themselves, and because in doing so they find our New Family Sewing Machine as superior to other er family sawing machines as our manufacturing machines are for their purposes. The true world's Fair, held in every city, hamlet and home, has awarded us the premium of the high-
