HAS GONE.-Who's gone? Why, Kelley has gone to New York. Perhaps this is all that is necessary to say to open the eyes of the people. The ladies especially, will be more interested when they see the new spring goods piled on his counters. Keep a sharp look out for the next ten days.

ALMOST A CONFLAGRATION .- Our an alarm of fire-not a false alarm, for the roof of the foundry was on fire. But it was a weak affair, and not having a fair showing, subsided on the application of a bucket brigade. A little judicious neglect, at the right time, would have made it warm-for insurance companies.

Music Store.-Mr. J. W. McIntosh, have charge of the sale of the instruments and music. She also teaches vocal and instrumental music as heretofore, and guarantees good satisfaction. Her long experience in teaching, and constant application to the business, gives h or advantage over many others. Rooms opposite Cone House.

RELIGIOUS.-Rev. C. A. Stone will istrations the past year, has greatly endeared himself to the membership of the Church, and the separation will be one of regret.

-A series of meetings have been held the past week in the M. E church in this village, and quite a number have been brought out and others reclaimed. The good work still continues. under the ministration of the pastor, Dr. Buck. Rev. O. L. Gibson, the former paster, labored a few evenings with the Church last week,

RAILROAD UP THE COWANESQUE .-The projected narrow gauge railroad from Lawrenceville to Elkland seems in a fair way of becoming an accomplished fact. The entire cost of the road is estimated at from \$120,000 to \$130,god, and the stook, it is claimed, is nearly all taken. That a narrow gauge road, using light rolling stock, can be made to pay in very many places, where a broad gauge, with heavy locomotive and cars, would be rainous, is getting to be tive and cars, would be rainous, is getting to be so well understood by railroad men, that we product the general adoption of the narrow gauge on B.'s lecture because I lacked the conventional sixall routes where the business is light, within the | pence. pest decade. We read of a railroad in Wales, the track of which is only eighteen in ches in width, and which cost the stockholders less than Georgi, Piano, sold by B. F. Dowd, Knoxville

San Francisco, Jan. 24, 1871.

Convention.—As announced last week, the Wellsboro Graded School Convention came off in Smith & Bowen's hall on Friday af tenuoun last, and was a perfect success. The hall tennoon last, and was a perfoot success. The hall was crammed with scholars, teachers, parents and epectators. The test of order provailed during the exercises, which was evidence that the scholars were under the best of discipline. The pupils performed their part admirably, and the spectators were highly entertained. At the close, Rev. J. P. Calkins and Hon. H. W. Williams is the convention with short and appropriate addresses. Such gatherings are profitable, Let with the scholars, but to persons of mature Jents. TROUT PIBLING. THE STOW DAYS (HE JACKSON THE SOURCE AS JOB'S CON HERESTO DESTREE CONTROL season for trout-fishing will commence, and the banks of all our trout streams will show the falls, narrow paths made by the angler. We wish for the sake of sport as well as humanity, avery lover of the rod would altogother abstain from throwing a line during the next two seasons, but there is no hope of this. The trout have been running lighter and still lighter every year since we first wet a line in the waters of Tioga county. At first we could fill a 12 lb. basket in a day, and they would not reckon over five to the lb. Gradnally they diminished in size, until we counted a basket of them caught on the Yarnell, the count of which ran up to 105-and we had thrown away many of the smallest, at that. When we saw them running up to 14 in the lb., we lent our basket and rod, and have only fished since

then whon camping out, where comething to est became an imperative necessity.

We yield to no man in a liking for the sport; only we don't care to fish for trout so small that it takes a sharp pair of eyes to tell at a first glance which is the trout and which the fiv. The prosent law as it stands is good, and if carried trictly into effect will do something toward inoreasing the size and quantity of trout in our treams. The decadence of the mills and washing away of dams on the waters of Pine creek will also help : and if the trout could by any means be insured a rest of two years we should

have as good fishing here as our streams afforded twents years ago. As the law is rather stringent, and as many who take trout illegally do not know the penalties, we publish a part of it below. SECTION 6. "No person shall at any time, with intent so to do, catch any speckled breek trout with any device save only a hook and line, and no person shall catch any trout, or have in his or her possession, save only in the months of April, May, June, and July, under a penalty of five dollars for each trout so caught or had in

My health had been failing from this serious

affliction for seven long years. I had consulted the most prominent physicians of western New York and northwestern Pennsylvania, and had learned that my case, with its complications, presented many difflucties in the way of a successful operation. I placed myself under the care of Dr. F., in the latter part of December, 1869, and on the 8th of January, 1870, I was operated on for an existing complication, and preparatory to the main and important one of removing the store. This proving the store. preach his farewell sermon on Sunday morning removing the stone. This proving a success, on the 15th of February I was operated on for the stone, in the presence of Drs. Barton, Blakeslee, Gray and M. L. Faulkner. I was uncenscious from chloroform nine minutes, had no pain dufrom chloroform nine minutes, had no pain during, and but very little subsequent to that event. The caculus was large and rough, measuring over four inches in its largest circumference. I had a very comfortable recovery, and the Doctor discharged me on the 7th of April; and to-day I am as sound as I ever was, and wish, in closing, to express, my most sincore and heartfelt gratified to Dr. F. for his kind and skillful services.

ns churches, but in so far as the fact of establishment goes."

Now, sir, I am unfeignedly thankful to find your correspondent so far on the right side on this (at the present time) most important public question. But it is useless trying to draw a line of distinction between the Church of England and the Establishment, so long as the Church stands so unanimously and possistently arrayed against discatablishment. But let us hope that the Church of England may experience a speedy new birth unto righteousness, and voluntarily furever free itself from this "detestable" establishment, and quit taking by force what is not its own. It will not then be the Church of England, with the Queen at its head, but may become a member of Christ's Church, and acknowledge only His authority in things spiritual.—Then, sir, and not till then, will I be prepared to acknowledge that its ministers are made such by the influence of "the grace of Qod."

The near prospect of a railroad through the town is inducing people from abroad to invest, not only in pleasant homes, but in manufactures. And we know of no point in Northern Pennsylvania that can offer more solid inducements to investors than Wellsboro. The place is growing rapidly; it is not surrounded by other and larger towns, atpling its trade and prosperity. Our Graded School affords educational facilities not to be overlooked by those having children to bring up. The location is exceptionally healthy and plearism, we are handy to the streams where trout do cangregate, and a few miles of easy travel will take a man from the town pump to a good deer range.
