There has been a great flood at New Orleans, eaused by an overflow of lake Pontchartrain, covering an area of five or six square miles, including about three hundred squares thickly inhabited. Thousands of persons living in single story houses were forced to move out, while those living in two story houses removed their effects to the upper stories. The damage has been im-

The floor and table of a most uninviting sick chamber are appurtenances, labeled, "General Orders No. 11," "Nos. 38, 39," "XVth Amendment," &c. The Democracy, represented as much out at the elbow and looking very sick indeed; draws back in agony as the doctor proffers a small negro, with the remark, "Swallowethis now, there's a good fellow and you'll feel better."

The Springfield (Illinois) Journal says: "The Democracy are down on their marrow bones making all sorts of penitential promises, and particularly to accept the situation; but if they have been wrong all the time, it would be folly to trust them with the affairs of the country simply because the v omait up. It would be a much more sensible thing to retain in power those they admit to have been always right."

If one town with two hundred voters were to split up on four candidates, giving each fifty votes, a smaller town with only one hundred voters might cast them all for one man, and in this way a minority clique might secure a candidate by unity and concentration, We mention this, because we have heard it named as an objection to the system; but it is not valid as an objection. A majority can unite as well as a minority, and any party can beat itself by dissensions and indifference.
