Manhood; How Lost, How Restored.

Just published, a new edition of Dr. Culverwell's Colebrated Essay on the radical cure (without medicine) of Spermatorrhosa, or Seminal Weakness, Involuntary Seminal Losses, Impotency) Montal and Physical Incapacity, Impediments to Marriage, etc. also Consumption, Epilepsy, and fits, induced by self-indulgence or sexual extravagance.

Price, in a scaled envelope, only 8 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous rise of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every, youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpatid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Onitio," price 25 cents, Address the Publishers,

After the lecture, the dining room of the Cone House was visited, and the members of the society, in company

with their friends, did ample justice to the well filled tables. The thanks of the society are due to all the friends who contributed to make this meeting one of the most pleasant

of its sessions. The next meeting will be held at Potter's hotel, in Middlebury, the third Wednesday in September.

AGRICULTURE A FRAUD.

NOT BY H. G. The basest fraud on earth is agriculture. The deadlest ignis fatus that ever glittered to beguile, and dazzled to betray is agriculture. I speak with feeling on this subject, for I've been destroyed by this same arch deceiver. She has made me a thousand promises, and broken every one of them.

She has promised me early potatoes. and the rain has drowned them; late potatoes, and the drought has withered them. She has promised me summer squash-

es and the worms have eaten them; winter squashas, and the bugs have devoured them. She has promised cherries, and the curculio has stung them, and contain
