THE INDIANS. WASHINGTON, Aug. 29 .- During conversation at the War Department, to-day, a prominent general, who has given much attention to the Indian question, stated that it seems impossible for the Indians and the white settlers to get along together in peace; and no nerves. Among these "Griff" Jones was always a recognized leader; and few men have that there would be no difficulty in managing the Indians if it were not for the whites, and that the whites would

get along very well if it were not for the Indians. It seems, however, that the War Department has been con-
