Poesy, O Poesy,

Hearth and Home. How PANCAKES WERE MADE ONCE PON A TIME.—When our grandmothers of about fifty years ago made griddleakes, or, as they were then called, panakes, the following receipt was then in ase. We do not present it for imitation, put to show what changes a few years have wrought in that article of food. Pancakes should be made of half a bint of milk, three great spoonfuls of ugar, one or two eggs, a teaspoonful of lissolved pearl ash, spiced with cinnanon or cloves, a little salt, rose-water, ir lemon brandy, just as you happen to have it. Flour should be stirred in unil the spoon moves round with diffiulty. If they are thin, they are apt et boiling hot, and drop them in with spoon. Let them cook until thoroughly brown. The nore fat they are cooked in, the less they soak. If you he above ingredients, and supply the lace of eggs by two or three spoonfuls If lively emptyings, in which case they aust be made five or six hours before hey are cooked. A spoonful or more I New England rum makes pancakes light. Flip makes very nice pancakes. n this case, nothing is done but to weeten your mug of beer with molass-, put in one glass of New England Lum, heat it till it foams by putting in liet poker, and stir it up with flour as hick as other pancakes.!! Whatever and think of the above as a recipe, three dwelling houses, an apple and peach orchine result seems to have given great the result seems to have given great atisfaction to the good folks who made and ate paneakes fifty years ago. -Ex. A CROES WITH JERSEY STOCK .- A

EPPERIOR Cow.—As it is impracticable or farmers in most cases to invest sevral hundred dollars in a pure Jersey OW, they are generally doing the next est thing by obtaining a cross between and their best selection of common ws. Most of our dairies in this secon partake more or less of these strong arsey crosses, which has produced some traordinary milkers.

We have ascertained from SAMUEL RIMBLE, East Goshen, Chester county. at he owns a cow of this description, ised by himself and now about five ears old. She is seven-eighths Jersey ood, is of a fine fawn color, and milks ose up to her calving. He made one ial of her butter qualities three months ter calving, and obtained from her in e week, 141 lbs. of butter. We take is case to be encouraging to farmers, en they happen to own a deep milk-, to raise her helfer calves by a pure rsey bull .- Rural.

The color of yolks of eggs' may or ny not be slightly affected by the best workmen employed, and none but the best workmen employed, and none but the best had of food eaten by hens. But it is sessoned lumber used. Encourage home indusrtain that the yelk of a new-laid egg | try. always of a light lemon color, and Factory near the foot of Main St. at age causes it to grow darker. A ik of a deep orange color simply detes and old egg. The lighter the coof the yolk, the fresher the egg.

May 4, 1871-tf Ayer's Cathartic Pills,

ed by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus inciplent disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy; it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly care:

For Dyspepsia or Indigestion, Listless.

Tess, Languror and Loss of Appettie, they should be taken moderately to stimulate the stomach, and restore its healthy tons and action.

For Liver Complaint and its various symptoms, Biliqus Headache, Stek Headsche, Junique or Green Stekness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

diseased action or remove the obstructions which cause it.

For Bysentery or Diarrhom, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Pair pitation of the Heart, Pain in the bide, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

As a Diagram Polit, take one or two Pills to pathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the Stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
