> The recent calamities by fire in the West are without precedent in the history of the world. In this fearful extremity, the whole civilized world seems moved to emulation in contributing telier to the suffering and such a wave of sympathy, bearing, such a affeight of substantial ald, has not been known in the world's history. "From the survivors we glean the following in reference to the scene at the village and in the farming region commonly known as the 'Sugar Bush.' Sunday evening, after church, for about region around was so thick as to be stifling, and hung like a funeral pall over everything, and all was enveloped in Egyptian darkness. Soon light puffs of air were felt; the horizon at the south, coutheast and southwest begain to be faintly illuminated; a perceptible trambling of the earth was felt, and a distant roar broke, the awful silence. People began to fear that some awful ca-

The illumination soon became intensified into a serce, lurid glare; the roar deepened into roofed, and, amid the donfusion, terror, and tor-rible apprehension of the moment, the flery ele-ment, in tremendous inrolling billows and masses of sheeted finne, enveloped the devoted village. The frenzy of despair seized on all hearts, strong recovering from the effects of a disastrous war, is thus prosperous—socially, inancially and politically—it strikes us that another four years of the same might be endurable, and not at all rudous.

The frency of despair seized on all hearts, strong men bowed like reeds before the flory blast; wo men and children, like frighteneds specters fitting through the awful gloom, were swept away like autumn leaves. Crowds tushed for the bridge, but the bridge, like all else, was receiving its baptism of fire. "Now, for the life of us, we cannot see why the aristocratic Philadelphians should make any pother about the matter; hold mass meetings in National Hall, or show their righteous wrath at the murderer by unwonted seal in funeral services for a martyr whose life they did so little to protect. "Minnesota has been the severest loser in a monetary sense. The value of the forests destroyed, and the immense loss by retarding development which must ensue, is incalculable. The fires in this State appear to have started from about the town of Breckenridge, a town in Tooms county, near the line of the Northern Pacific railroad.—

From here it appears to have spread to the 'Big best Ayrshire cow, John Dickinson best Durham Woods,' and theree all through the southern por of the best locations for a lumbering or other manufacturing establishment on the Tioga Rail-
