

OUR FLAG COVER ALL.
BY DECKER SMITH.
Columbia welcomes to her doors
The Gentle and the Jew,
And finds a home upon her shores
For men of every hue
And asks not what their creed may be,
Nor U in prayer they fall;
Yet, while she gives them liberty,
Our flag must cover all.

AGRICULTURE.
How to Improve a Farm.
Many of our farmers spend money freely in purchasing manures—guano, superphosphates, bone dust, gypsum, etc., and they realize a profit by it. I do not wish to say one word to discourage them from a continuance of the practice; but I would advise them to be a little more careful in their experiments and statistics.

WELLSBORO
Door Sash & Blind Factory.
YANKEE MILK.—They have at Worcester, Massachusetts, a "Milk Manufactory." In a recent case in the Police Court there, Lyman H. Whipple was charged, and the Worcester Gazette says: He has had a place of business on Front street, and employed two or three hands in his "milk factory," who appeared as witnesses against him. They state that he has a room fitted up with a great tank or can, holding 150 gallons, into which the good milk is put, but that every time it is filled forty gallons of a mixture of burned molasses, chalk, salt, and water is put in, and the whole is mixed together and sold as genuine country milk. The business has been thus conducted for some time, all the customers receiving their share of the "milk," except a few who buy the small cans to be filled with the milk of one cow, for children. The doors of the establishment were kept locked, and the business was conducted in as private a manner as possible. The examination resulted in finding Whipple guilty on both charges—of keeping and selling—and he was fined fifty dollars and costs on each complaint, which he paid and departed.

Ayer's Hair Vigor,
For restoring to Gray Hair its natural Vitality and Color.
A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can be used merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil the comb, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
