77TH DIVISION OF WAR. ALLES HOPEFUL

The Situation in West Flanders and at Lille Appears More Favorable to Them

GERMANS SAID TO BE IN PERIL

Kaiser's Troops Operating Along the Coast of Flanders in Danger of Being Cut Off From the Main Body of the Army

London, Oct. 19, 10.30 A. M.—From the point of view of the allied armies, so far as could be learned from dispatches reaching London today, the situation in West Flanders and in France as far south as Lille, seemed on this, the seventh day of the war, perhaps more hopeful than at any time since the German advance on Paris was checked.

Reports Not Confirmed

Several reports contend that the Germans have withdrawn from this coast, but this is not confirmed, nor is the report that they evacuated Courtrai, nearly thirty miles northwest. It seems plain, however, that the menace here grew marked and that the German army operating along the coast of Flanders found itself in peril of being cut off from the main body.

French Capture Holland Ship

Paris, Oct. 19.—The French torpedo boat destroyer Cassabiane has captured the Holland freighter Koningin Emma, bound from Batavia, Dutch East Indies, with a cargo for Hamburg. The Koningin Emma was taken off Marseilles and conducted into that port. This information is contained in a dispatch from the Marseilles correspondent of the Exchange Telegraph Company.

Heavy Firing at Dunkirk

From various sources come reports, none of which were confirmed, that some sort of naval craft are being pressed into use by the allies in the canals of Flanders and perhaps from the sea. Sunday a dispatch direct from Dunkirk heard that heavy firing could be heard there and it was some time that gunboats were being used in the canals. It was added that heavy fighting was progressing south of Ostend, which, if true, meant the presence of allied forces at a point further north than heretofore suspected. This is contradicted by the report that the Germans are west of Furnes.

There was sporadic recurrences of the anti-German rioting in parts of London early this morning. Police protection in such places has been increased and no serious outbreaks during the forenoon in the city but at Saffron Walden, in Essex, an English lawyer's house was attacked and the windows smashed because it was said he had been harboring two Germans. In the continuation of the rioting at Deptford last night a German grain dealer's house and store were wrecked and then fired.

The Great Battle of Poland

In the eastern war area the great battle of Poland appears to be progressing in favor of the Russians who claim to have checked decisively the German forces in their attempt to cross the Vistula. The Russians in and around Warsaw are being temporarily protected from fresh German artillery bombardment by reason of the impassable condition of the country through recent rains and owing to the destruction of the only railroad from Lodz to Warsaw.

WHAT CATARRH IS

It has been said that every third person is troubled with catarrh in some form. Science has shown that nasal catarrh indicates a weakened condition of the body; that the secretion of the mucous membranes are quickly affected, and local treatments in the form of snuffs and vapors do little, if any good.

GERMAN SHOPS BURNED IN FIERCE LONDON WAR RIOTS

London, Oct. 19.—Serious anti-German rioting occurred yesterday in High street, Deptford borough of London. Shops conducted by Germans were wrecked by crowds and one shop was set afire. The police were called out to restore order.

Twenty shops were wrecked. Damage was also done in the Old Kent road, where meat markets were smashed late Saturday night and a confectionery store wrecked early yesterday morning. Some of the shops were pillaged. Police were called out and 20 arrests were made. Provisions have been taken to prevent further rioting.

Great excitement prevailed throughout Sunday in Deptford and neighboring borough. Crowds thronged the streets and refused to move at the orders of policemen and soldiers. It was found yesterday that twenty bakeries, butcher shops and saunas were completely wrecked. The rioters threatened to attack German places in Bromley and other boroughs if the authorities permitted them to open.

The rioting was led by 100 dock laborers, who had been turned out of a lodging house to make room for Belgian refugees. The men gathered in a German saloon and smashed the windows and the bar. The dockers charged the owner of the saloon with having started a report that two British battleships had been destroyed. The shop of a German butcher, in the window of which a picture of Emperor William was displayed, was wrecked.

The rioting proceeded for a distance of a mile before it was stopped by a detachment of soldiers. The shopkeepers all lived above their places of business, and their apartments were sacked. Twenty men were captured in one house. They had thrown a piano down the stairway, and the instrument became jammed and held them prisoners.

VON TIRPITZ, THE KAISER'S NAVAL MINISTER, AT ANTWERP

London, Oct. 19.—The Amsterdam correspondent of Reuter's Telegram Company says that it is reported from Sluis that Admiral Tirpitz, German Minister of the Navy, is at Antwerp, where, it is assumed, he arrived soon after the fall of the fortress.

A dispatch from Rome on October 9 said that, according to German newspapers received at the Italian capital, the war against Great Britain would begin late in October, after the fall of Antwerp, when Belgium would become the base of operations against England.

Ruined Poincare's Home

Paris, Oct. 19.—The Mayor of Samigny-sur-Meuse, states that German shells completely destroyed President Poincare's country house there, ruining all the paintings and statuary. Several shells went through the roof, the fire being remarkably accurate. The barracks, the town hall and a church, all nearby, were untouched.

BRITISH LOSS 14,000 IN 2 OFFICIAL CASUALTY LISTS

London, Oct. 19.—An official report by General French, commanding the British expeditionary force, gives the total of British killed, wounded and missing from September 12 to October 8 as 561 officers and 12,980 men.

The War Office issued last night another casualty list received from headquarters, under date of September 16, giving 51 non-commissioned officers and men as having been killed, 149 men wounded and 553 men missing.

Those of the killed belonged entirely to the Royal Scots, the Royal Irish and the East Surrey regiments. The East Surreys, the King's Own Scottish Borderers and the Somerset light infantry figure largely in the missing list.

Of command officers the list gives four killed and five wounded.

One of the most pathetic incidents of Saturday was the arrival at Pulkstone of the body of Major General Herbert I. W. Hamilton. Two hundred recruits of Kitchener's army met the body outside the harbor station and stood at attention while the hearse passed. The refugees uncovered their heads and the emotional Belgian soldiers wept. The casualty list which includes General Hamilton's name makes no mention of where or how he was killed.

WOUNDED FRENCH OFFICERS PREFER DEATH TO CAPTURE

Paris, Oct. 19.—That wounded French officers prefer shooting themselves on the battlefield rather than risk being picked up by the Germans and held prisoners, is found in a report published in the "Temps" yesterday. This was revealed in a letter from a French officer, which says: "I was shot in the breast while leading a charge and the fear seized me that I might fall into German hands. Therefore, I held a revolver at my head ready to pull the trigger when my own men dragged me to the rear under a hail of lead.

"That evening a sergeant visited the ambulance with an address drafted by the regiment expressing a wish for my speedy recovery. But when he saw how pale I was, concluded that I was dying, and, leaning over the bed, he kissed me while tears streamed down his cheeks."

\$1,000,000 FINE REPORTED LEVIED ON CITY OF OSTEND

London, Oct. 19.—The Flushing, Holland, correspondent of the "Weekly Dispatch," in a message dated Saturday, says: "The Germans have levied a fine on Ostend of 200,000 pounds (\$1,000,000). At an early hour yesterday great forces began to pass through the artillery, in close formation, consisted of about 400 guns, and there were 400,000 infantry and a few cavalry. More guns arrived at noon.

"There are indications of a big movement against Dunkirk (the French report) on the allies' left. German sailors arrived at Blankenberge, a Belgian port on the English channel, nine miles northwest of Bruges, yesterday."

German Aviator Dies in Fall

London, Oct. 19.—A Reuter dispatch from Amsterdam says that in the course of a cross-country flight from Doberitz, October 16, a German military biplane, when near Rathenow, Prussia, suddenly fell to earth, killing the pilot and severely injuring a passenger.

AISNE BATTLE NOT DEFINITELY WON

Colonel Rousset Refuses to Concur in Statement That Allies Scored Victory

A RENEWAL IN ANOTHER FIELD

The Paris Military Expert Says the New Battle, That of Flanders, Is Clearly Offensive on the Side of the Allies

Paris, Oct. 19, 6.45 A. M.—An interrupted offensive movement by the allies at certain points in northern France was predicted here to-day as the battle was resumed. The retaking of Arrmentiers, on the river Lys on the Belgian frontier, and the occupation ten miles west of Lille of the right line leading towards Douai via Givanchy and Promelies was considered as constituting an excellent advance guard position by reason of its numerous places of support. This, with the progress in several other sections, notably Arras, gave the allies hope of continuance of their advance.

Expert Reviews Situation

Lieutenant Colonel Rousset, in reviewing the situation, refused to concur in the statement made that the battle of the Aisne has been definitely won by the allies. "One never knows what will happen," he said, "and, while the enemy will not take the return route, a revival of its activity can be produced in another vicinity, especially if the Germans see that their maneuver in the north is endangered. But it is certain that upon the horizontal line, going from the Oise to the Meuse, the allies have nothing to fear, as every effort of the Germans from this side would certainly be stopped.

New Battle of Flanders

"As to the new battle, that of Flanders, it is clearly offensive on the side of the allies. The circumstance which in some quarters it is said may develop of more favorable for attack than defense it is undulating land widely spaced, where troops can easily delie for aggressive movements." The Socialists of France have declared as inopportune and premature the suggestion made that their comrades in the United States hold an international Socialist peace congress.

The Public was Greatly Pleased

that Sunday passed without a visit from German aeroplanes and to-day it had much praise for the activity and vigilance of the aviation guard.

CZAR'S ARMIES HOLD LINES ON VISTULA AND SAN

The campaign in Poland and Galicia is developing into an extended battle on the Vistula and the San, where the Russians are strongly placed, supported by the fortifications of Warsaw, Praga, Novo Georgiers and Segrice. Germans are approaching the Vistula, while the Austrians are attacking the Russians along the San, from Stry to Sambor. Petrograd reports a demonstration by a German detachment near Miawa.
