ARMOR PLATE CONTRACT BOOMS BETHLEHEM PLANT

South Bethlehem, Oct. 30.—Official news of the awarding to the Bethlehem Steel Company of contracts for 16,256 tons of armor plate in four different classes for the California, Idaho and Mississippi, at a cost of \$7,121,808, has been received here.

It means that probably 30 mechanics now idle will have work for at least two years. Other departments will join in the boom to an extent, especially the machine shops, where the rough armor will have to be machined. This will mean giving employment to more idle men.

That the local armor plate department has not been compelled to close down long ago was due to foreign contracts. These are all about completed. The company will be able to rush this big order, as only a year or so ago it enlarged the armor plate plant fifty per cent. A high official stated last night that several other big orders could easily be accommodated at the same time. It is believed that this refers to contemplated orders from governments in Europe.

England may be one of these countries, for it was rumored here yesterday that the reason for Charles M. Swab's sudden sailing for England last week was due to a summons from Lord Kitchener.

Vast Order for Tinned Meat
Oklahoma City, Oct. 30.—An order for 15,000,000 pounds of canned meats valued at \$1,500,000, to go to Europe, has been received by a local packing company. Additional orders for dry salt pork amount to more than the supply in sight.

BARON FISHER SUCCEEDS PRINCE LOUIS AS FIRST SEA LORD OF ADMIRALTY

London, Oct. 30, 5.03 A. M.—The "Times" says it understands that Baron Fisher, Admiral of the fleet, will succeed Prince Louis of Battenberg as First Lord of the Admiralty.

London, Oct. 30, 3.48 A. M.—The morning newspapers in editorials dealing with the resignation of Admiral Prince Louis of Battenberg as First Sea Lord of the Admiralty without exception express regret and sympathy with the Prince and regret over the unfortunate circumstances which deprive the country of his valuable services. At the same time the newspapers generally think that Prince Louis has taken the right step.

The "Daily News" and the "Express," however, consider that Prince Louis has fallen a victim to mean and foolish clamor and that the circumstances surrounding the incident are not creditable to the British press or public life.

The "Daily Telegraph" says: "Prince Louis of Battenberg displayed a delicacy of feeling which will be appreciated, for he is, in fact, less intimately connected with Germany than are many others on the public service."

Russians Reoccupy Czernowitz
London, Oct. 30, 5.03 A. M.—A dispatch from Bucharest, Rumania, to the "Times," dated Wednesday, and which was delayed in transmission, says that the Russians, after beating the Austrians at Bojina, have reoccupied Czernowitz, capital of the province of Bukovina.

DANGER TO MARINERS IN THE NORTH SEA FROM THE MINES

London, Oct. 30, 3.40 A. M.—A dispatch from Flushing, Holland to the "Daily News" says:

"An examination of the map of the North Sea, with known mines marked, makes wonder that any mariner dares sail. The Germans, English and Dutch all have been active in mine laying during the past few weeks and as a result the sea is a veritable powder magazine.

The Germans are sending out motor boats to patrol the coast which they occupy. These patrol boats are also sowing mines wherever they are likely to be useful. The motor boats were brought overland from the Baltic.

BIG ORDERS IN NEW ENGLAND FOR SHOES FOR THE FIGHTERS

Boston, Oct. 30.—The war is proving a bonanza for the New England shoe industry, which produces 55 per cent. of the country's total. Orders have been already booked for the shipment of 2,200,000 pairs to the belligerents.

The hoddled boots for the French army have been made by hand, but special machinery will be installed to make 500,000 pairs. One leather concern with an annual turnout of \$12,000,000 is working 125 per cent. capacity on orders for England. Before the war it was running 40 per cent.

TURKEY GETS INTO THE WAR WITH BLACK SEA WARSHIPS

Theodosia, Crimea, Oct. 30.—From 9.30 o'clock to 10.30 yesterday morning a Turkish cruiser with three funnels bombarded the station and city, damaging the cathedral, the Greek church, a pier and some sheds. One soldier was wounded. A branch of the Russian Bank of Foreign Commerce caught fire. At the conclusion of the bombardment the cruiser left in a southwesterly direction.

Novorossysk, Caucasus, Oct. 30.—The Turkish cruiser Hamidieh, which arrived yesterday, demanded the surrender of the city and the government properties, threatening in case of refusal to bombard the town. The Turkish Consul and officials were arrested. The cruiser withdrew.

Theodosia (formerly Kaffa) is a Russian seaport on the southeast coast of Crimea, about 100 miles northeast of Sebastopol, by which it is connected by rail.

Novorossysk is on the northeast of the Black sea and is the capital of the territory of the Black sea. It is almost directly opposite Theodosia at a distance of about 120 miles.

London, Oct. 30, 3.10 A. M.—A dispatch to the "Times" from Petrograd says it was the former German cruiser Breslau, which shelled Theodosia.

London, Oct. 30, 3.30 A. M.—A dispatch to the Reuters Telegram Company from Petrograd, dated Thursday, says that immediately after it became known here that Turkey had opened hostilities against Russia a demonstration was made in front of the British and French embassies and before the legations of their allies. The representatives of those countries appeared on the balconies and made speeches.

Russians Repulsed by Austrians
London, Oct. 30.—A Reuter dispatch from Amsterdam gives an official announcement, issued at Vienna Thursday afternoon, as follows: "In the northeastern theatre there was no great fighting yesterday. During the last few days the Russian attempts to advance in the direction of Turka have been successfully repulsed."

London Saloons to Bar Women
London, Oct. 30.—There has been such an increase in drunkenness among women, supposedly the wives of absent soldiers, since the outbreak of the war that the authorities are considering the advisability of forbidding women from entering saloons.

10,000 Cigars for Soldiers
Bordeaux, Oct. 30.—The French colony in Porto Rico has sent a gift of 10,000 cigars to the French soldiers. The colony is collecting funds to supply 100,000 cigarettes monthly to the soldiers at the front.

London, Oct. 30, 3.10 A. M.—Colonel Conrad Brins, who has been engaged in suppressing the rebellion started by Lieutenant Colonel Maritz in Northwest Cape Province, reports that the invasion of the Cape has finally been broken, according to a Cape Town dispatch to Reuters Telegram Company.

RUSSIAN VIEW OF TURKEY'S ACTION

Bombarding of Former's Ports More Important to England Than Czar's Domain

LATTER NOW HAS NEW WARONHAND

Said That Russian Policy Will Not Be One of General Aggression Against Turkey but a Defense of Black Sea Interests

Petrograd, Oct. 29, Via London Oct. 30, 6.50 A. M.—In the highest official sources here it is stated that Russia views the action of Turkey in bombarding two unfortified Russian ports without a declaration of war as infinitely more important to England than to Russia on account of the English communications with India and her position in Egypt. Although Russia, it is stated, now has a new war on her hands, her policy will not be one of general aggression against Turkey but merely a defense of her own interests in the Black Sea. It is pointed out that the allies had previously guaranteed the integrity of Turkey only if she remained neutral.

Farhad Bey, the Turkish Ambassador here, said to-night: "I have had no instructions from Constantinople, communication now being cut and have heard only from the Russian newspapers about Turkey beginning war. I am now in the hands of the Russian government whose instructions I am awaiting."

"I am sorry that my labor to improve the relations of the two countries has had so disastrous an ending. What moved the Sultan's government to take this step is absolutely unknown to me. I am sure I have nothing to fear personally."

While giving this interview in the Turkish embassy a clamorous throng surrounded the building, manifesting against Turkey. The people were restrained from violence by mounted gendarmes.

Earlier the same mob paraded the streets with bare heads singing and cheering. They called the orchestra out of the hotels and demanded that they assist by playing the national anthem. The excitement in Petrograd is the greatest since the declaration of war against Germany.

WAR WITH ENTENTE POWERS IF TURKS CROSS FRONTIER

Constantinople via London, Oct. 30, 3.52 A. M.—In anticipation of the possible invasion of Egyptian territory, British Ambassador Mallett, acting under instructions from his government, has plainly informed the Grand Vizier that if the Turks cross the frontier it would mean war with the entente powers.

It is understood that the embassies of the allied powers, fearing a rupture, have already made the necessary arrangements for the departure of the diplomatic representatives.

19 WOMEN KILLED BY GERMAN BOMB IN BETHUNE MARKET

Dunkirk, Oct. 30.—Nineteen women were killed and forty injured by a bomb dropped by a German aeroplane in the market place at Bethune Wednesday. Two bombs were dropped. The first failed to explode, but the second burst in the midst of a group of women.

Two bombs were dropped in Dunkirk. One fell in the Rue du College and killed a woman and a child. The other, which fell near the town hall, caused no casualties.

GERMANY INTENDS TO EXHIBIT AT THE PANAMA EXPOSITION

New York, Oct. 30.—Factories in Germany are still running, general business is good and the empire intends to take advantage of the Panama-Pacific Exposition at San Francisco to show the world that the European war cannot force her from the position she has held in trade and commerce.

This was the general outline of conditions in Germany given yesterday by Walter W. Schultz, commissioner to that country for the Panama Exposition, who recently returned here. In explaining the industrial and business conditions in Germany at the present time, Mr. Schultz said:

There are 70,000,000 people in Germany. Possibly 5,000,000 are fighting. That leaves a large part of the remaining 65,000,000 to carry on the business. Mobilization was carried out in such a manner that enough men were always left to keep factories in operation.

30,000 Horses For England

New York, Oct. 30.—Dr. Martin J. Potter, the veterinarian, at the New York Hippodrome, who supplies the trained animals for that institution and for nearly all the traveling theatrical companies of this country, has been given a contract by the British war office to supply 30,000 horses for immediate shipment. Dr. Potter has opened headquarters at East St. Louis, the center of the belt where horses of the desired types, cavalry and "gunners," are raised.

American Tanker at Copenhagen

Copenhagen, Oct. 29, via London, Oct. 30, 4.05 A. M.—The American oil tank steamer John D. Rockefeller arrived here to-day. For the last three years no mercantile vessel carrying the American flag has visited Copenhagen and the advent of the Rockefeller to-day was made the occasion for a hearty greeting by a large crowd which gathered at her pier.

NATIVE TROOPS BLEW UP A GERMAN AMMUNITION PARK

London, Oct. 30, 3.50 A. M.—The correspondent of the "Daily Mail" in Paris describes how the Germans (native Indian troops) blew up a German ammunition park, thus causing some of the German coast batteries to move to the rear. He says:

"All the efforts of the allies' artillery against these batteries had been unavailing and the Germans were causing severe losses when the air scouts located the ammunition stores seven miles behind the German lines.

At night the Gurkhas detachment embarked on boats which proceeded to the mouth of the Yser and after a long silent march the Germans were causing severe losses when the air scouts located the ammunition stores seven miles behind the German lines.

Shortly afterward the general staff of the allies saw a great flash of light on the horizon and heard a great explosion followed by countless others as the shells and shrapnel in their cases exploded in all directions. The Gurkhas returned safely to the gunboats."

GERMANS AND AUSTRIANS FIGHT WITH GREAT ENERGY

Petrograd, via London, Oct. 30, 5.25 A. M.—General Maelof, military critic of the "Novoe Vremya," in summing up the war situation in the east, says: "Although, generally speaking, the trend of the Russian military operations is becoming increasingly favorable, battles rage on all fronts with unprecedented tenacity and stubbornness. Not only the Germans but the Austrians, despite their recent defeat, are fighting with intense energy and it would not be surprising if the Germans should reinforce their fighting lines and again attempt to assume the offensive. At present, however, the Russians largely retain the initiative."

The "Army Messenger" announces that the Russian commander-in-chief has sanctioned the formation of Polish legions under Polish commanders. The legions are furnishing their own uniforms but the Russian government will provide the arms, ammunition and commissariat. Proclamations have been posted in all Polish towns and villages exhorting the people to join the legions and expel the enemy.

PUT WHITE FEATHER ON MEN SHIRKING CALL TO THE FRONT

Windsor, Ont., Oct. 30.—Young society women of Windsor are making life miserable for timid young men who have not offered their services to England in the war.

The girls invaded department stores, factories and offices and decorated every man under 30 that was found at work with a white feather—symbolic of lack of nerve.

The young men say they can't go to war unless more troops are called for, but unless they enlist the girls will ostracize them, so they are up against it.

Fire Raging in Timber Tract

Marietta, Oct. 30.—Fire of unknown origin is raging in a tract of fine wood land owned by H. W. Burg, of East Prospect, and about 35 or 40 cords of wood cut for stove use, has been consumed also. Many men are fighting the fierce flames.

Farm Sold For \$2,800

Marietta, Oct. 30.—A farm of sixty-two acres of valuable land, including timber and farming land, the estate of Samuel J. Nixon, was sold at public sale yesterday to Howard S. Nixon for \$2,800.

A REMARKABLE APPEAL TO POLES CREDITED TO KAISER

Petrograd, Via London, Oct. 30, 4.20 A. M.—The "Gazette," which is now published by the Germans at Czenstochowa, Russian Poland, prints the following proclamation, which it credits to Emperor William:

"Poles: You, of course, remember how once at night the bell of the Holy Swistogorsky monastery began to ring without human aid and when all the pious people understood that this great and important event had been signaled by a miracle.

"That event was my decision to wage war with Russia and restore to Poland her saints and annex her most cultured land to Germany. I had a wonderful dream. To me appeared the Virgin Mary and commanded me to save her holy convent, which danger threatened.

"She gazed at me with tears and I proceeded to fulfill her divine behest. Know this, Poles, and meet my troops like brothers, saviours! Know ye, Poles, that all who are with me will be liberally rewarded, that those against me will perish! With me are God and the Holy Virgin. She lifted the sword of Germany to succor Poland."

GERMANS AND AUSTRIANS SUFFERING HUNGER AND COLD

Geneva, Switzerland, Via Paris, Oct. 30, 12.25 A. M.—A dispatch from Basel received here says that the German troops are suffering from hunger and cold. The dispatch says also that Germany has called upon the 1914 class of reserves, ranging from 17 to 45 years of age and numbering at least 450,000 men.

According to the Swiss and French military critics, no serious attack between Belfort and Verdun is to be feared until the battle of Flanders is settled.

SLICES OF ALBANIA TAKEN BY BOTH GREECE AND ITALY

Paris, Oct. 30.—The action of Greece in occupying the southern end of Albania is regarded by competent observers here to be news of great moment.

Italians already have been landed in Albania, a naval force being occupying the seaport of Avlona October 26. The expedition is said to be in the nature of a relief and sanitary organization. It is added that pains are being taken to show that Italy's step was merely to see that the decision of the London conference creating an autonomous Albania is carried out.

The Greek premier, questioned in the chamber of deputies, concerning the situation in Albania, is said to have replied that the Greek government had ordered the reoccupation by Greek troops of the Argyro, Castro and Pre-moti districts in Albania. The aim of the government, he said, was not conquest, but dictated rather by reason of humanity. These were simple police precautions to assure the security of the frontiers of Greece.

He added that Greece continued to recognize the decision of the conference of London on this subject and remained faithful to her engagements.
