SERBIA REPORTS VICTORIES IN COMBAT WITH AUSTRIANS

Nish, Serbia, Saturday, Oct. 31, Via London, 2.49 A. M.—A semi-official note has been issued here, as follows: "The enemy operating October 29 in the direction of Gutchevo and Banja from 7 o'clock in the morning until noon. At this hour they attacked, but were repulsed by our troops. Our counter attacks developed into violent bayonet combats, in which the enemy, sustaining heavy losses, was forced to fall back in disorder, leaving three officers and about 200 men on the field. "The enemy delivered another attack on our positions in the evening, but was again forced to retire with heavy losses. "Nothing of importance has occurred on the remainder of the front."

Predicts Allied Victory at Ostend

London, Nov. 2, 4.50 A. M.—The correspondent of the "Times" in northern France, telegraphing under date of Sunday, sums the situation on the battle front by stating that the allies are daily creeping on toward Ostend, which is now hardly occupied at all in a military sense. The number of Germans holding it is so negligible that, he says, if the allies achieve a definite victory in the fight for the river Ostend will fall unresistingly into their hands.

Deadly Work of Belgian Batteries

Havrre, via London, Nov. 2.—"Two Belgian batteries, eight guns altogether, fired 8,000 rounds on the Yser in eight days of battle," says an official Belgian statement. "The Belgians used chiefly highly explosive shells, and almost every German battery that was unmasked was destroyed. The Belgian's guns are of 1905 model and are in excellent order."

RUSSIAN PRESS IS ELATED OVER TURKEY'S ENTRANCE INTO THE EUROPEAN WAR

Petrograd, via London, Nov. 2, 3.05 A. M.—All the Russian newspapers express most enthusiastic gratification at Turkey's entrance into the war, declaring that it makes the Turkish question possible of settlement at once and for all time.

"It is Russia's opinion," says the "Bourse Gazette," "there is no general combination of powers such as several times saved Turkey from final destruction by the heavy hammer of Russian forces. With the blood of our sons we have shown the allies our friendship and therefore nothing will move them once more to hold back our hand."

"We shall for once receive only help and co-operation from the Anglo-French fleets in the Aegean. We will then watch the enemy from the rear, we will tackle in front by sea and by land. Russia accepts the challenge thrown down by the mad hirelings of Germany and marches to the fulfillment of her destiny with undimmed faith."

London, Nov. 2, 3.20 A. M.—A dispatch from Rome to the "Express" says a report has reached there that 400,000 Turks are massed on the Caucasus border and that 300,000 are waiting at Beyrut, Jaffa and other ports for transshipment to the Sinai peninsula. The ports, it is said, are well guarded by the British and French fleets.

"I am officially informed," says the "Express" correspondent, "that a circular announcing the mobilization of the Greek army has been received by the foreign consuls."

SAYS ARMORED TRAIN ROUTED FORCE OF 10,000 GERMANS

London, Nov. 2, 3.53 A. M.—The correspondent of the "Daily Mail" in northern France, telegraphing under date of Saturday, relates how a force of 10,000 Germans was completely routed and scattered by an armored train. He says:

"The Germans had almost surrounded a British regiment, which fought on doggedly, though so vastly outnumbered. Suddenly an armored train shot up the railway line which the British were holding. Right and left the train poured broadsides of machine gunfire, mowing down the Germans at every yard until the line on each side was covered with heaps of German dead. The rest fled precipitately and the British pursued."

German Fire Wrecked Towns

Rotterdam, Nov. 1, Via London, Nov. 2, 2.38 A. M.—Advices from Belgian coast towns state that the exchange of artillery fire by the Germans and the warships has wrecked most of these towns. Westend, Westkerke and Middekerke are all in ruins. There has been no resumption of the German march on Calais and present appearances point to an abandonment of that movement.

Bulgaria to Remain Neutral

BALANCE OF GAINS FAVOR THE ALLIES

Latest Offensive Movement of Germans in Belgium and France Determinedly Met

THE FIGHTING ON YSER RIGHT BANK

While Paris Admits Allies Have Not Regained All Lost Ground in Valley of Yser, Their Known Gains Give Hope of General Success

Paris, Nov. 2, 6.50 A. M.—The allied troops, according to official information here, are still determinedly meeting the latest vigorous offensive movement of the Germans in Belgium and in France. To date the French and English assert that the balance of gains is in their favor and they look to see the failure of the German offensive in this section indicated soon by a general and definite withdrawal of the enemy upon the right bank of the Yser.

While it is admitted that the allies have not regained all of the lost ground in the Valley of the Yser, their known gains in that region give every hope of a general success. In the vicinity of Nieupoort and Dixmude the enemy has been repulsed beyond the railroad while the inundation effected between the Yser and the Nieupoort-Dixmude line has rendered the ground so swampy that the German trenches have become uninhabitable. This last fact is noted in the latest Belgian official statement.

Allies Surround Poelkapelle

Referring to the developments on the line from Dixmude to Ypres the Belgian statement is precise in its announcement that Poelkapelle is surrounded by the allies. Poelkapelle is an important point as it is the center of the network of communication of routes and railroads between Dixmude, Ypres, Reulders and Thorout.

The French assert that there is more significance in the announcement that in one week 7,683 German prisoners have been taken than appears on its face. They assert that when such a number can be gathered in it indicates that the German troops are becoming worn on or suffering from normal depression.

Precautions Against Epidemic

Sanitary measures to avoid a possible epidemic are being taken on a large scale by the French league. Six thousand communes in France, which are seeing the ravages of war, will be visited sooner or later. Of this number there are eleven hundred where hygienic measures will be immediately taken.

Lieutenant Colonel Rousset, the military critic, in reviewing the recent operations, declares it is impossible to say how long the war will last or whether Germany still can find enough men to prolong the contest. He believes he is able to affirm, however, that they have already made their strongest efforts.

GERMANS ARE ELATED OVER THE SUCCESS ON THE AISNE

Berlin, via The Hague and London, Nov. 2.—The German general staff was highly pleased with the report of Friday's fighting and the announcement that the allies had been thrown back across the Aisne, near Soissons, and that the Germans had reached positions to the west of Verdun.

This was described as the most promising news received for some time. "We have finally started the stone rolling," said one officer, commenting on the official statement issued Saturday.

Majoor Morant, military correspondent of the "Berliner Tagblatt," points out that Soissons is the point on the long battle line that is nearest Paris, which is only fifty miles distant, and adds that the allies may learn from this success that the German front has not been weakened at any place, while the daily reports of allies repulsed to the east and to the north of Verdun show that a desperate effort the French are making to prevent the investment of the fortress and delay the opening of the bombardment.

1,000 TONS OF AMERICAN FOODSTUFFS FOR BELGIUM

Rotterdam, Via London, 2.30 A. M.

The unloading of the steamer Coblenz, which reached here from England Sunday night with 1,000 tons of foodstuffs sent by the American commission for the relief of the poor of Belgium, began immediately after her arrival and continued throughout Saturday night and Sunday at high pressure. The cargo was promptly transferred to river and canal vessels, which last night started on their way to Belgium.

The Brussels correspondent of the Rotterdam "Courant," writing regarding the need of foodstuffs, says: "Lines of people form in front of the baker shops before daybreak and a large number daily are unable to obtain any of the hard, brown bread which is the only kind now baked. The flour supply is being husbanded to the utmost in order that it may last until the American supplies arrive. The American consul expects these within two or three days."
