## ENGLAND IS STARTLED AT GERMAN NAVAL RAID NEAR COAST OF GREAT BRITAIN

### BITTER WEATHER MENACES LIVING IN THE TRENCHES

London, Nov. 5, 3:30 A. M.—Reviewing the situation on the eastern battle front of the "Daily Mail's" Petrograd correspondent says:

"Difficulty in living in the trenches in the bitter weather already has begun. Cases of men being frozen to death among the German troops have occurred because the trenches were dug in marshy soil and now are filled with ice. In such experiences the Germans are far less able to endure the winter than the Russians."

The correspondent adds that the Germans are somewhat disengaged owing to the fact that the Austrians are now fighting better than the Germans. This fact is due, he says, to the weeding of the Slav elements out of the German ranks.

### SAYS VON KLUCK DIED TEN DAYS AGO IN HOSPITAL

Paris, Nov. 5, 3:55 A. M.—The correspondent of the "Excelsior" at Havre, says he has from a source which he cannot designate, news of the death of General Von Kluck ten days ago in a hospital at Namur where he was treated for a wound in the head. The news of the alleged death, the correspondent says, has been carefully concealed in Belgium and Germany.

General Von Kluck who led the dash of the German right wing which got to within a few miles of Paris in the first month of the fighting has been reported within the last days in official communications as directing his army in the fighting on the river Aisne. When the scene of severe fighting shifted to Belgium and the German right wing was extended into that territory General Von Kluck following his skillful retreat from the vicinity of Paris, remained in the position he had taken on the Aisne. The fighting there recently has been overshadowed by the operations in Belgium and General Von Kluck and his army, according to reports have been given a much needed rest.

### Another Panic at Antwerp

London, Nov. 5, 3:10 A. M.—A dispatch to the "Daily Mail" from Rotterdam reports there is another panic and a general exodus from Antwerp arising from the aggressive attitude of the Germans because of their suspicions that the Belgians set the petroleum tanks on fire. All persons have been stopped. Fifteen thousand people are leaving town.

## RUSSIAN BATTLESHIP IS REPORTED SUNK BY TURKS

Amsterdam, Nov. 5, via London.—The "Vossische Zeitung" of Berlin, publishes a dispatch from Sofia saying that Turkish warships have sunk the Russian battleship Sinop.

The Russian battleship Sinop was laid down in 1884 and launched at Sebastopol in 1887. She was 339 feet long, 69 feet beam and displaced 11,240 tons. She had an armament of six 12-inch guns, seven 6-inch guns and four 3-pounders, and her complement is given as 650 men.

Berlin, Nov. 4.—Information was given out to the press from official quarters yesterday as follows:

"Nineteen Russian transports sunk by the Turks had on board 1,700 mines destined for the blockading of Turkish waters. This fact proves the hostile intentions of Russians."

"British warships on November 1, says an official announcement issued here yesterday, bombarded the Turkish part of Akabah and attempted a landing. The force re-embarked after losing four men."

"Dispatches from Constantinople say that a British squadron bombarded the Dardanelles forts at daybreak on November 3. They did no damage. The fire was at an extreme range and lasted fifteen minutes."

### 10,000 Boers in Arms

Berlin, Nov. 5.—Official information given out to-day says: "Firms in Amsterdam have been informed from South Africa that the insurgents in the Union of South Africa number more than 10,000 men. They have in their possession quick-fires and machine guns. The British war supplies in the Cape Colony are described as insufficient."

## RUSSIA ANNOUNCES SEIZURE OF EIGHT TURKISH TOWNS

Petrograd, Nov. 5.—An official communication from the staff of the Russian army in the Caucasus says that Russian troops have crossed the Turkish frontier, driving back the enemy's advance guards and taking a number of towns. The text of the communication follows:

"Our troops have crossed the frontier of Turkey and, having driven back the Turkish advanced guards, taken possession, after engagements, of the towns of Zivine, Karakilise, Passinka, Akchty, Boutak, Khorom, Myssoun and Arzap."

"The Turkish forces retreated, with losses, and abandoned their dead."

The towns mentioned in the above dispatch are in Asiatic Turkey, short distances south of the boundary line dividing Turkey from the Caucasus. This line runs from the Black sea in a southeasterly direction to Persia.

## U. S. WARSHIPS AT BEIRUT TO PROTECT CHRISTIANS

London, Nov. 5.—According to the Athens correspondent of the "Star," an American warship has arrived at Beirut, Syria, for the protection of the Christian population.

The Athens correspondent of the "Daily Telegraph" sends the following dispatch:

"British destroyers on Tuesday were obliged to interfere outside the entrance to the Gulf of Smyrna to save two American steamers whose fires two Turkish gunboats were trying to put out with the intention of retarding the ships. In the ensuing conflict the Turkish vessels were sunk."

## BERLIN WILL RETALIATE ON LONDON DECLARATION

Berlin, Nov. 5 (by Wireless to Sayville, L. I.)—Great Britain's denunciation of the principles of the declaration of London, it was announced in German official circles yesterday, probably will be followed by Germany.

An inspired dispatch from Berlin printed in the "Cologne Gazette," commenting on this question, says that newspaper reports of England's action have not been confirmed officially, but that if they are true Germany will adopt a similar policy towards England.

The German press generally refrains from commenting on the various British measures for closing the North Sea and with regard to her reported difficulties with neutral nations on the question of contraband, briefly pointing out that a closure like the laying of a mine field in the English Channel seems to be inspired more by a desire to interfere with non-contraband commerce seeking the neutral harbors contiguous to Germany than by purely military objects.

British warships on November 1, says an official announcement issued here to-day bombarded the Turkish port of Akabah and attempted a landing. The force re-embarked after losing four men.

British destroyers on Tuesday were obliged to interfere outside the entrance to the Gulf of Smyrna to save two American steamers whose fires two Turkish gunboats were trying to put out with the intention of retarding the ships. In the ensuing conflict the Turkish vessels were sunk."

Simultaneously, it is reported, two British cruisers fired a few shots at the seaport of Jaffa, in Palestine, but retired under the fire of the Turkish artillery.

## 304,000 PRISONERS NOW IN GERMANY'S POSSESSION

London, Nov. 5.—Reliable figures just received from Berlin show that in the German detention camps on October 14, there were approximately 304,000 prisoners, divided as follows: Russian, 140,000; French 125,000; Belgians, 30,000; British, 9,000.

These figures are exclusive of civilians, whom the Germans have taken in large numbers from France and Belgium. Until the receipt of this information it was believed Germany held 250,000 prisoners, including civilians.

It is not known how many Germans and Austrians have been captured, but the Berlin figures give an aspect of the magnitude of the present war.
