BABY WEEK AT BOWMAN'S

Hundreds of Infants Photographed and Weighed

To anyone visiting Bowman's Department Store during the past week, there appeared to be an epidemic of babies. The event was Baby Week, of which this store has made a popular feature for several seasons. Babies from near and far were gathered there and it was indeed a rare treat for the little tots.

A feature of the occasion was a photograph gallery where pictures of babies were taken free of charge, and every day found this section crowded with infants of every size—large and small. There were babies who could talk and babies who could walk, and others who could do neither. Babies that laughed and babies that cried, but in all it was an unusual sight, and a great pleasure to the mothers as well as the little folks.

Every baby who visited the store received a toy balloon and the number given away ran into the thousands.

Another feature was the weighing contest. All babies were weighed and a record made of their weight according to their age. At the close of this contest, four valuable prizes will be given to the four heaviest babies according to the classes.

A good word may be said of the Infants' Wear Department for which this event was held. Everything presents a very attractive appearance, and the stocks of baby apparel for winter are most complete.

This firm wishes to extend an invitation to mother, to bring baby to the great event to-night, as it comes to an end with the close of the store at 9 p. m.

ARE HELPED BY GOOD ROADS

Improved Highways Increases Value of Adjacent Lands—Also Benefit to School Attendance

Washington, D. C., Nov. 7.—The following cases showing the relation between improved roads and adjacent land values are cited by the specialists of the office of public roads in the United States Department of Agriculture bulletin No. 136:

Manatee county, Florida, built 64 miles of macadam and shell road. From 1911 to 1912 land on the road increased in value \$20 per acre, and land a mile away from the road showed an increase of \$10 per acre.

Spotsylvania county, Va., improved 41 miles of road and land which formerly sold on an average of \$24.74 changed hands within three years at an average of \$44.74 per acre.

In Dinwiddie county, Va., where 125 miles of road were built, land between five and ten miles from Petersburg advanced on an average from \$15.25 to \$30 an acre in about fifteen instances, while land ten miles from town increased on an average in sixteen cases, \$16.32 an acre.

In Franklin county, N. Y., where 124 miles of road were built, eight pieces of land selected at random, showed an increase of 27.8 per cent. after the improved roads were built.

In Lee county, Va., which built 84 miles of road, land similarly advanced 25 per cent.

The construction of the bond-built highways in several of the counties herein mentioned has been of decided benefit to school attendance. In Spotsylvania county one consolidated school replaces three one-room schools, and another consolidated school is planned. In Dinwiddie county school attendance increased 17 1/2 per cent. in one year on the improved roads, and several school wagons carrying twenty-four pupils each, have been put in service. In Lee county school attendance along the improved roads shows an average of 71 per cent. against 62 per cent. along other roads.

In Wise county, Va., several successful school consolidations have been effected since 1909. The Pole Bridge school in this county on the road from Coburn to Wise replaces four one-room schools.

West Point is said to be in need of 200 embryo major generals. And the supply of the boyhood of the country ought to be superabundantly equal to the demand.

MASONS END ACTIVITIES TO-NIGHT AT ZEMBO HALL

Held Informal Banquet Last Night, in Which Over 100 Persons Participated; Also Conferred Thirty-second Degree on Large Class

As a fitting climax to Masonic activities of the past week, the Zembo Temple of the Mystic Shrine prepared to-day to take a large class of candidates over the hot sands to-night in a full ceremonial session at Zembo hall, Chestnut and Court streets. A banquet will be served the nobles preceding the evening session.

Imperial Potentate Frederick R. Smith, of Rochester, N. Y., was present, together with some illustrious potentates from cities in Pennsylvania and their official divans. The visitors were taken a ride over the city in automobiles this afternoon when they arrived.

After an informal banquet, in which over 800 persons participated, last night, held in the Masonic Temple, Third and State streets, the thirty-second degree was conferred by the commander-in-chief, Frederick Smith, on a class of 51 members of the Scottish Rite Masons. The annual fall reunion of this organization has been in progress since Tuesday and the ceremony last night was the closing one.

The greater part of the week has been spent in the conferring of the various degrees. Thursday the seventeenth and eighteenth degrees were conferred by William H. R. Baker, Harry N. Bassler presided.

The nineteenth degree was conferred yesterday afternoon by Irvin E. Runk, also the twenty-fourth degree, during which W. Sherman Steele presided. At night the thirteenth degree was conferred. Henry W. Gough had charge.

Commander-in-chief, Frederick J. Smith was chairman of the reunion committee. Luther W. Walzer was chairman of the committee on entertainment. The choir furnishing special music was led by Prof. Edward G. Rose.

The following is a list of the names of members who died since the last reunion: Alfred H. Day, Henry Moser, Henry C. Brennan, Charles L. Meixel, A. Miller, J. N. Bistline, Samuel N. Miller, E. Rankin Huston, Harry W. Moyer, Orrin B. Ross, Atmore Loomis, John P. Nissley, Charles W. Davis, Clark Crazier, Harry W. Buckius and William E. Fasnacht.

GET A GOOD BIBLE CHEAPLY

Star-Independent Presents Thoroughly Illustrated, Bound in Limp Leather Bible, to Its Readers

It has long been said that "seeing is believing" and the ear is not to be depended upon. It could be committed for heresy at any time. It cannot believe all it hears and on that account often takes the wrong side of the question. It is never quite sure of anything. But the eye sees and knows. It seldom errs. It is accurate. Its judgment is dependable. The things which make the deepest impression on the mind are those that are seen; things that pass to the mind through the "eye gate" are not soon forgotten, and the "eye gate" becomes the main channel of information.

The pioneer of all learning is the eye. Young and old alike ask questions about what they see. Publishers of modern literature take advantage of this and use illustrations, so that the main points of the story or article may be impressed upon the minds of readers through the "eye gates" and thus be permanently established.

In selecting a Bible to present to its readers the Star-Independent found several that set up the claim of being illustrated, but, upon investigation, they were shown to merely contain "pictures" placed at random in its place. Besides being in its place, it accurately and appropriately portrays the subject matter which it accompanies and makes clear—illuminates it—gives to it an added interest and an educational value. It matters not how many or what kind of Bibles you may have in your home, the illustrations in the Star-Independent Bible give to it an individuality that at once makes it the only real reference book in any collection of Bibles.

The Illustrated Bible distributed by the Star-Independent is bound in genuine limp leather, stamped in gold, printed in large readable type on a fine quality of paper. It contains educational helps, marginal references, self-

pronouncing text and colored maps. With the six hundred magnificent illustrations which were prepared for this work at an expense of \$50,000, are also full-page plates from the world-famous Tissot collection, so it becomes a work of art not to be excelled.

For a short time the Star-Independent will distribute this grand educational work to its readers, and everybody in Harrisburg and vicinity should avail themselves of this rare opportunity. The educational certificate is printed elsewhere in to-day's issue. Clip it now, before you forget it.

Color Changes of the Hair
 Accounting for color changes of the hair, it is explained that this change is not due to a destruction of pigment present in the hair or to a bleaching of hairs already formed, but that pigmented hairs fall out and are replaced by unpigmented or white ones. Completely pigmented hairs never turn gray, they fall out. It has also been observed that the process of pigment formation may cease during the development of a hair. In such case the tip of the hair will remain pigmented though the base appears white.—Indianaapolis News.
