# GERMANS ROUTED AT SCHOORBAKKE

### Compelled to Evacuate After Attack by the British Troops and French Sailors

# BROKEN DYKES FLOODED PLACE

Attack by the Allied Forces Was Made at Night—Germans Abandoned Many Guns, Ammunition and Stores as They Flew

Paris, Nov. 18, 11.11 P. M.—A brilliant attack by British troops and French sailors caused the Germans to evacuate Schoorbakke, Belgium, which is practically surrounded by the water from the broken dykes according to news reaching here from the battle front. Because of the flood only two roads were open to the town and on one of these the British approached in two armored automobiles.

It was a night attack and the Germans in the town immediately turned their attention to them. Meanwhile the bluejackets, who had made rafts on flat bottomed boats, crossed the water and took the Germans in the rear, forcing them to flee by the one road still left open. The Germans abandoned many guns, ammunition and stores and their dead and wounded.

There is some anxiety here as to just what has happened at Chauvencourt, a village near St. Mihiel on the Lorraine frontier. On Tuesday the French official communication reported that the French troops had occupied the western part of Chauvencourt, and yesterday's official statement said that this part of the town had been blown up by the Germans who apparently had mined the place before they retired. How severely the French troops suffered by this exploit is not yet known.

Chauvencourt, which contained vast French military buildings and stores, is on the right bank of the Meuse. It has been occupied by the Germans for some time and is an important link between Argonne and Metz.

The Belgian army is drawing a supply of new officers in large part from the Belgian civic guard. According to a member of the Belgian war office at Havre, the civic guard is composed of men who have seen service in the army and are well qualified to become officers.

Figures are not yet available regarding the results of the mobilization of the Belgian class of 1915 or regarding the call for volunteers, but it is known that the young men refugees in Holland, England and France are responding with great readiness and enthusiasm.

Easily Prepared—Costs Very Little, but is Prompt, Sure and Effective

By making this pint of old-time cough syrup at home you not only save about \$2, as compared with the ready-made kind, but you will also have a much more prompt and positive remedy in every way. It overcomes the usual coughs, throat and chest colds in 24 hours—relieves even whooping cough quickly—and is excellent, too, for bronchitis, bronchial asthma, hoarseness and spasmodic croup.

Get from any drug store 2½ ounces of Pinex (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Full directions with Pinex. Keeps perfectly and tastes good.

You can feel this take hold of a cough or cold in a way that means business. It quickly loosens the dry, hoarse or painful cough and breaks the inflamed membranes. It also has a remarkable effect in overcoming the persistent loose cough by stopping the formation of phlegm in the throat and bronchial tubes.

The effect of Pinex on the membranes is known by almost every one. Pinex is a most valuable concentrated compound of genuine Norway pine extract combined with guaiaecol and other natural healing pine elements.

There are many worthless imitations of this famous mixture. To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and do not accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.
