The closing session of the Pennsylvania Industrial Welfare and Efficiency Congress, held in the House yesterday, afternoon, was presided over by James Maurer, president of the State Federation of Labor, and in taking the chair Mr. Maurer paid a high tribute to Dr. John Price Jackson, Commissioner of Labor and Industry, and his force, who have contributed so largely in making the department a success. The department, Mr. Maurer said, was one that ought to be highly appreciated, and the sincerity of its official is highly commended by organized labor. From the Commissioner down to the lowest department attache all are eager to serve, and he hadn't a single criticism to make. Mr. Maurer deplored the fact that there are not enough deputy inspectors to conduct the work along broader and more efficient lines, and said that 50 men could not be expected to do the work.

City. In a report yesterday to the Board of Aldermen, the Bureau stated that the \$1,200 a year salary is taken as the basis for what is termed higher

and lower grades of work. The report gives the results of work of nearly a year and officially disapproves of quick action in salary raise By establishing a system of regular periodic increases based upon length of service and efficiency records in the lower grades, and in the higher grades tain, upon length of service and efficiency Ov records it is estimated that a substantial equality in salaries will be brought about in a period of seven or eight

years.

concentrate their energies at the present stage of the war toward dealing, if possible, a crushing blow, to Russia.

Such fragmentary reports as were received to-day from the eastern zone of fighting showed that the German army was still pressing the Russians back through Russian Poland, over the same battlefields across which the Eussians a few weeks ago were advancing victoriously. No clear explanation has been made of the reversal in form of opposing armies, although it has been reported on several occasions that the Germans were sending thousands of their finest troops from France and Belgium to the east.

The Russian war chiefs state that their advance in east Prussia and Galicia continues, in spite of their admitted retreat in the center. German strategists believe that continued reverses in Russian Poland would force the Russians to draw back their northern and southern armies.

lands and hold back the German advance.

Notwithstanding the extent of the flooded area, the invaders hope to renew their advance. Large numbers of engineers are being sent to the front, and German ingenuity is to be put to the test to provide a scientific method of crossing the inundated country.

The outcome of yesterday's naval battle in the Black sea is still in doubt. No fresh information was received to reconcile the conflicting claims of Russia and Turkey, each of whom asserted that a hostile battleship had been damaged seriously in the engagement.

Witness Went to Luncheon

Ten minutes before the time for noon adjournment the City Solicitor announced he had three witnesses yet to call, but none responded. They had gone home for luncheon, presumably, and Judge Johnson sought to close the case. So did Mr. Hain. The lawyer for the plaintiffs said he was willing to admit just what the City Solicitor remarked the witnesses would say.

"Their evidence would be cumula-

The Russian war chiefs state that their advance in east Prussia and Galicia continues, in spite of their admitted retreat in the center. German strategists believe that continued reverses in Russian Poland would force the Russians to draw back their northern and southern armies.

German opinion admits of no doubt as to the outcome of the war with Russia. General Von Hindenburg, Germany's popula hero of the fighting in the east, is quoted as saying that Germany and Austria will win, although outnumbered, because they have stronger nerves and because their soldiers do their own thinking, while Russian discipline is "a mere blind and dull obedience."

Besides the possible withdrawal of German troops for use against Russian, there is another reason for the lull in the fighting in the west. Cold, wet weather has numbed and exhausted the weather has numbed and exhausted the weather in Belgium is compared with a black, windy December day on the New England coast. The storm continues and the waters of the North sea flow through the locks at Nieuport, which the allies opened to flood the lowlands and hold back the German advance.

Notwithstanding the extent of the

of the witnesses estimated, would be increased about \$200. One witness fixed the increase at \$100, while another said there was no change in the valuation. The property owners claim \$1,000 damages each.

The Questions Involved

Judge Johnson at noon said the issue upon which the jury first will pass has dwindled down to a question of whether or not the City, in opening South Front street, actually took property from the plaintiffs, or, if the ground was held by the plaintiffs through a qualified title and by reason of "waterways and navigation" legislation, they were not in absolute control of it, so that they could not suffer lamages by losing it.

William D. Block and David H. Ellinger, for more than fifteen years sanitary officers employed by the city, this morning declared the ground taken by the city had been see add, damains

ber almost double the day previous. So far more than 6,500 persons have seen the show.

The show, which is held in connection with the welfare and efficiency conference, will likely be repeated again next year, as John Price Jackson; Commissioner of Labor and Industry, yesterday announced at the closing session of the convention that a conference would be held next year. Already manufacturing firms are engaging space for next year.

The show has been a success from the start, although it was crowded in a hall much too small for it. "I have not overstepped my rights one per cent. as much as you have," snapped back the City Solicitor.

With Mr. Ellinger on the stand, Mr. Hain, on cross-examination, sought to know what the conditions along the river front would have been if the city had constructed a sewer in that locality "years before it did in 1911."

"That's folly to ask a question like that," interjected the City Solicitor.

"Now I have not cross-examined these witnesses as you did, and I insist upon my rights," shot back the plaintiffs' counsel.

"No, it's not a legitimate question,"

"No, it's not a legitimate question, "No, it's not a legitimate question," put in the Judge. "The witness need not answer it."

Ten minutes later, Daniel Sheesley, a real estate agent, who said he lives in "Sheesleytown," declared that the properties of the plaintiffs were benefitted to the extent of \$200 by the improvement.

Many Lives Endangered As Locomo tive Dashes Into Cleveland

By Associated Press. Cleveland, Nov. 20 .- An Eric railroad engine traveling at an estimated speed of fifty miles an hour ran wild into Cleveland to-day endangering the lives of scores of persons at grade crossings and resulting in serious in-jury to J. S. Hitch, 41, engineer, of Youngstown, who jumped to avoid what he considered sure death. The fireman succeeded in stopping the gine at Fifty-fifth street, near gine at Fifty-fifth street, near the heart of the city. When ten miles out of Cleveland

the throttle of the engine failed to respond to the engineer when the engine lurched forward and the coupling was broken from the tender, which was followed by a long freight train.
