TRAMPED ON RUSTY NAIL, NOW IS A PHYSICAL WRECK

Chambersburg Minister Has for a Month Been Compelled to Abandon Church Work and May Have to Go to a Hospital

Chambersburg, Nov. 30.—A rusty nail upon which he tramped may be the means of seriously impairing the ministerial work of the Rev. Dr. G. A. McAllister, pastor of the Central Presbyterian church. The Rev. Mr. McAllister now is at his home in a state of physical and mental collapse. Constant medical and personal attention is necessary.

The accident to Dr. McAllister occurred about a month ago. But little heed was given it by him at first. Later the wound became more aggravated. Dr. McAllister declined to take the rest his weakened system demanded and the hurt ran from bad to worse. For a fortnight he has been compelled to abandon all pastoral duties. His friends believe his removal to a hospital in a few days will be necessary. His last public appearance was as moderator of the Fall Spring church congregational meeting which chose a successor to Dr. John Allan Blair.

Brother Welded Hatchet on Finger Instead of a Corn Cob Which Youngster Held

Waynesboro, Nov. 30.—Woodrow, young son of Mr. and Mrs. Walter Ressler, Tomstown, suffered the loss of a part of a finger in a peculiar manner. He and his elder brother, James, were playing together, when it was suggested that they cut up corn cobs.

One blow of the sharp instrument cut off the first finger of the left hand of Woodrow at the first joint. Dr. H. M. Fritz, Quincy, dressed the injury.

WEYAND ELECTED CAPTAIN

Tackle on Football Team Will Lead Cadets Next Fall

West Point, N. Y., Nov. 30.—The victorious Army football team reached home yesterday afternoon, and was accorded a rousing welcome for the victory of 20 to 9 over the Naval Academy. The entire cadet battalion, augmented by a crowd largely made up of the civilian residents of the post and vicinity and headed by the Military Academy band, escorted the returning heroes to their quarters. The ancient stage coach, in which the members of the team rode, and which has done duty for many years in the same capacity, was drawn by willing cadet hands up the long hill.

On the trip home, Cadet Alexander M. Weyand was chosen to lead the Army eleven next year. Cadet Weyand has played on the Army team for the last three years. He is 22 years old, and entered the Military Academy in 1911 from the 10th Congressional district of New Jersey. He is a "five-year" man, having been turned back once for a deficiency in studies during his third-year year. He is classed as one of the greatest tackles the Army ever had.

DIED AT COUNTY HOME

Carlisle, Nov. 30.—John A. Baker, who for the past two years has resided at the county home, died there Saturday morning at 7 o'clock. His death was very sudden and was caused by paralysis of the heart. He was 75 years old.

The deceased was a native of Perry county, but years ago moved to this county where he has relatives. He has a daughter living near Berwille and a son who lives near Shippensburg.

HORSE BIT OFF HIS LIP

Gettysburg, Nov. 30.—Hamilton Bacher lost a portion of his upper lip late Friday afternoon when he was examining the harness on one of the ice and storage company horses. The horse bit at his moustache tearing away the flesh. Mr. Bacher has been particularly unfortunate, for he lost the sight of an eye within the past year when a piece of kindling struck it. He is employed at the bottling works.

DANGEROUS GASES

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D., LL. D., Commissioner of Health

When the first cold snap comes down go the windows in homes and offices and whatever fresh air is obtained finds its way in when somebody opens the door to enter or depart.

If the heating arrangements are deemed insufficient they are often supplemented with oil heaters or gas stoves. In the vast majority of cases these have no blue connections and as they burn they exhaust the oxygen in the air with great rapidity. When the atmosphere in a room is devitalized in this manner it becomes dangerously unfit to breathe as the life supporting qualities are exhausted.

When gas stoves are used without ventilation there is danger from carbon monoxide gas. This is an odorless gas which also escapes from coal fire, one per cent. of which will kill a horse in two minutes. It is visible as the blue flame which burns over anthracite coal after it is put on the fire. This gas will often permeate the entire house from the furnace in the cellar or from the kitchen range. The sulphurous gas which escapes with it irritating to the olfactory organ and so usually gives warning.

To guard against the escape of gases, fire doors and stove lids should not be opened or removed beyond the point where the flame of a match held close outside will be drawn inward. As long as the draft is up the chimney the gases will be carried with it.

Unfortunately the majority of heating systems are planned without providing for ventilation. Direct steam and hot water plants which have this pernicious fault of making no provision for the admission of fresh air are responsible for much ill health.

More people die from the improper use of steam heat than freeze to death.

WAIT TILL NEXT YEAR

Navy Cohorts Look to Future to Wipe Out Army Defeat

Annapolis, Md., Nov. 30.—To show the Naval Academy team that they were with it to a man and appreciated that, although defeated, every player had fought to the limit, the midshipmen gave the returning Navy warriors a hearty reception last evening. The crowd reached the depot at 5.30 and found the whole regiment of middies waiting. As the players led the car the midshipmen with uncovered heads gave the "four N" yell, and after the players were seated in the vehicles took the places of the horses and drew them to Bancroft Hall, at the Academy.

Arriving at Bancroft Hall, individual yells were given for players and coaches and a significant closing yell for "next year." It is understood that chances favor the selection of Quarterback Miles as captain of next year's eleven.

INDEPENDENTS ORGANIZE A BASKETBALL FIVE HERE

G. P. Hammond Makes Announcement of Plans of New Team—Games Will Be Played in Chestnut Street Auditorium

G. P. Hammond announces that the Harrisburg Independents have organized a basketball team to play their home games in Chestnut street auditorium every Saturday night. Mr. Hammond has signed up a very strong team composed entirely of Harrisburg boys.

In Harry Rose and "Ike" McCord the Independents have the best dribbling and passing pair of forwards in this part of the State. H. G. Geisel, physical director at the P. R. R. Y. M. C. A., will jump center in the opening games. His basketball experience will be a great help in developing team work. Geisel's position with the P. R. R. Y. M. C. A. will prevent him from playing the entire season, but Charles Loomis has been secured to help out at the pivotal position. Loomis is the former Tech star who is now making a name for himself at Lebanon Valley College, being a regular on the varsity football team as well as on the basketball team. Dave McConnell and Gordon Ford will take care of the guard positions. Both of these boys are well and favorably known by basketball fans. They were members of the Central High team of 1911-12, and have since been playing with the P. R. R. Y. M. C. A. "Mike" Yoder, forward on last year's Central team, and D. C. Smith, who has played with Chicago, will probably be the utility men. Smith is a guard, while Yoder can play either center or forward.

The strongest of the coal region teams, Eastern League teams and the best college teams are now scheduled, and are being scheduled. An effort will be made to have every one of the six teams in the Eastern League appear in Harrisburg, and already dates have been closed with Camden, Reading and the Nerl.

All games will be started at 8 o'clock. This is done with the idea of giving as long a time as possible for the dance which will be held after each game. A fifteen-minute dance between the halves of the game will take place. The ladies who attend the games will not be required to pay an added fee for this dance or for the dance after the game, but will dance free.

Shamokin has been secured for the opening attraction, and Captain Pete Barr will bring his regular lineup with him. C. J. ("Badgel") Householder will referee the game.

95,955 MEASURES SEIZED

James Sweeney, Chief of Bureau of Standards, Makes Report Covering the Past Year

In his annual report to Henry Houck, Secretary of Internal Affairs, of the work accomplished in the last year by the Bureau of Standards, James Sweeney, Chief of the bureau, says:

"Virtually all of the counties have complied with the law which commands each of them to appoint an inspector of weights and measures. Many cities have separate officials of this character, while in other cases county and city have combined. There are almost 100 such officials in the State who report to the Bureau of Standards.

"During the last year these sealers and inspectors inspected 734,124 scales, weights, measures, etc., of which 221,959, almost one-third were boxes, baskets, barrels or other packages generally used as containers rather than as measures. The remainder of inspections were of measuring or weighing devices, and 23 per cent. of those examined were found to be inaccurate. Of those found faulty, 21,216 were adjusted to standard and kept in use, while 95,955 were confiscated and put out of business.

"Prosecutions to the number of 106 were brought and in every case the defendant was convicted and paid a fine and the costs; the fines ranged from \$4 to \$50. Most of the prosecutions were for the use of short weights or measures, which in some instances were kept in use after a warning from the sealer.

"The dishonest weights and measures and the other shortages were not usually by intention. All of the experience in this State has shown that."
