#### Grain Marketing Exceeds Last Year's, Yet Reserves Are Heavy

Chicago, Dec. 8.—Business conditions throughout all sections of the West, North, Northwest and Southwest are healthy, and making gains. Good, bold weather is needed, however, to stimulate more animation in the buying. Farmers have marketed 42 per cent. more corn so far this season than for the same time last year. The North-western corn movement is largely to Chicago, and is a month earlier than usual. Marketing of wheat since July 1 has exceeded last year by 46 per cent., and of oats by 33 per cent. In the face of this heavy movement farm reserves are large except on the Pacific coast, where they are only ten per cent. of wheat.

Pottsville, Pa., Dec. 8.—A jury yesterday awarded Mrs. Elizabeth Long, of St. Clair, \$7,500 damages against St. Clair borough for the electrocution of her husband on March 25, 1913. Long, a hotelkeeper, was inside his cellar to adjust the electric lights. A minute afterward he was a human torch, finding it impossible to get to the wire he had grasped. Flames came from his mouth, hands and legs and friends who tried to pull him away were themselves stricken unconscious.

### SELFISHNESS-HYSTERIA

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D., LL. D., Commissioner of Health

One cannot say that selfishness is responsible for nervousness and yet unquestionably it is often a considerable factor in causing nervous ailments. The self-centered individual who is continually thinking of his own comfort and who manifests annoyance over every trifling interference with his particular occupation or activity, is running a decided risk. With advancing age a marked degree of irritability is almost sure to follow.

If a selfish attitude is cultivated and consideration is demanded for individual whims without consideration for others, this readily grows to be little less than a mania. Our nervous systems are delicately adjusted and once the mind weakens its control it is apt to become a factor for pain and discomfort.

In the beginning many of the things which "get on our nerves" do not really distress us. We note them casually. With their repetition comes the selfish wish to have our individual comfort considered without regard for general conditions. If we give way to this, the most trifling occurrences hold the possibility of causing infinite annoyance.

The greatest number of sufferers from nervous diseases are not as might be expected, overworked individuals, but are commonly enough, people who have little or nothing to do and for want of activity devote too much time to thinking of self.

It is common to hear some irritable individual say, "so and so gets on my nerves" and the very manner of the speaker has an equally irritating effect upon the unfortunate auditors. Nervous irritability and selfishness beget their like. They are contagious.

Let us be unselfish and avoid the spreading of this all too common complaint.

### VACCINATION SUIT UPSET

#### Judge Decides Girl Has No Claim Against Health Officer

Lebanon, Pa., Dec. 8.—Judge Charles V. Henry yesterday ordered a compulsory non-suit in a \$2,500 damage case brought by Oscar Peffley and daughter, Beulah, against Dr. Edwin H. Gingrich, city health officer during the smallpox epidemic last year. The Peffley girl claimed she was compelled by Dr. Gingrich to undergo vaccination. The testimony showed that the girl had not refused to be vaccinated and also failed to show that she had suffered any damage.

A month ago Judge Henry, specially presiding in the trial of a case in the Philadelphia Courts, upset a \$5,000 verdict awarded negro against the city of Philadelphia for the loss of a leg, resulting from negligence on the part of the doctor who vaccinated him.
