RED SPOTS FROM HEAD TO FOOT When Two Months Old. Could Not Sleep. Itched All the Time. Pitted Sight. Used Cuticura Soap and Ointment. Skin Smooth. Green Farm, Greenwood, Del.—"When my girl was a baby two months her back was covered with red spots as large as a penny. They continued to spread until they covered her from head to foot. The spots were inflamed. She could not sleep; they itched all the time. She was a pitiful sight. Her clothing aggravated her. The eruption made her very cross and fretful. "A salve we used did no good. She was bad for about two weeks when my husband bought a cake of Cuticura Soap and a box of Cuticura Ointment. I used them faithfully and soon the spots began to heal and she began to sleep as usual. In one month's time her skin was smooth and soft as satin." (Signed) Mrs. Ida Biddle, Apr. 14, 1914.

WHAT "SHOCK" MEANS How It May Affect the Physical and Mental Systems. In medical language "shock" means the depression of the vital forces, both mental and physical. The condition may result from many causes and may vary from a faintness and pallor that soon disappears to a state so desperate that the sufferer dies of it, as in the case of serious accident or difficult surgical operations.
