

PLANS MADE FOR STOUGH PARADE

Big Street Demonstration Is Arranged to Take Place at 10 O'clock To-night

REVIVALIST TO TALK ON SQUARE

Donations of Clothing and Food Received at Tabernacle Last Night Are in Hands of Associated Charities for Distribution

What promises to be the biggest street demonstration of the Stough evangelistic campaign in this city will take place to-night, weather permitting. Leaving the tabernacle at 10 o'clock, a parade expected to comprise nine or ten thousand marchers, with three bands, will pass through the principal streets of the business section, and halting in Market square will participate in a brief service of preaching and song. Dr. Stough will probably speak, making his first appearance at an out-door meeting.

To-night will be nominally Church and Sunday school night at the tabernacle. The original intention was to have members of local churches and Sunday schools form a great parade and march in a body to the building, but that plan was not deemed feasible because the tabernacle would not be able to accommodate so large a throng.

Three Divisions With Bands There will accordingly be a parade after instead of before the tabernacle service, in which the entire audience can join together with persons unable to gain entrance to the building. There will be three divisions, the first composed of the Stough party, the executive committee and the choir, and the other two of the tabernacle audience, in halves. There will be a band for each section.

James W. Barker, chairman of the Sunday school and children's work committee, will be chief marshal and the tabernacle ushers will act as aids. The route will be from the tabernacle to State street, to Fourth, to Walnut, to Third, to Market, to Fifth and center-market on Market to the square. The parade will move about 10 o'clock and the service at the square will not continue beyond 11, according to present plans. Dr. Stough will give a short talk and there will be chorus singing. Rain or snow would of course prevent the demonstration from taking place.

Donations to Be Distributed The articles of food and clothing taken by thousands of persons to the tabernacle last night as donations to the poor of the city were this morning taken in charge by the Associated Charities. There is enough of clothing, canned goods, potatoes, flour and foodstuffs on hand, according to a statement from the Associated Charities office, to hold out for more than a week.

All requests received in Dr. Stough's mail for aid have been turned over to the Associated Charities, and at that office large numbers of applications are now pouring in. No food or clothing will be given out until the case of each applicant is investigated. In other words, the donations will not be distributed to persons merely for the asking, but will be placed only in homes of the worthy poor.

Boy Has Faith in Dr. Stough In telling of the variety of letters he receives in his mail, Dr. Stough last night said that he has gotten a request from a boy in a nearby town for an oration suitable for the Christmas season. The boy said that he was on the program for exercises at school, and thought that perhaps Dr. Stough would oblige him by writing an "original" oration for him.

During his sermon the evangelist employed burlesque to a large extent. He enacted the building of Noah's ark, and told of the social ambitions of Lot's wife. There were 55 trail-bitters.

Dr. Stough will preach to women only to-morrow afternoon on "The White Slave Traffic," the last of the series. To-morrow night there will be a parade by the booster chorus, the last street demonstration of the campaign, and the climax of this week's activities. Sunday services will be held as usual. Dr. Stough preaching morning and evening at the tabernacle and to men only in the afternoon.

Party Anxious to Leave

Although nothing definite has been said as to whether there will be a final meeting on Monday, it is unlikely that there will be one, since Dr. Stough is required to appear on that day at Wilkes-Barre as defendant in four slander cases. Members of the party are desirous, too, of returning to their homes as soon as possible, before the vaccinations to which they were recently submitted give them trouble.

WILKES-BARRE COMING

Independents to Play in Chestnut Street Auditorium The Harrisburg Independents will play a strong Wilkes-Barre team at Chestnut street auditorium to-morrow night. The Wilkes-Barre team has especially strong line-up this year, composed of Rowe, and Jenkins, forwards; Nolan, center; Feinberg and Brooks, guards; Jenkins as been tried out by the Eastern League on several occasions and is one of the fastest forwards in the coal region. The public will be assured of a very fast game.

By request the management of the Independents have decided to play the National rules, as these rules are used by the Eastern League teams and the coal region teams, and by doing this both teams have an equal advantage and assured a faster game. Herman Early will referee the game Saturday night. The game will be called at 8 p. m. and will be followed by dancing.

At the Photoplay "The Naked Truth," a five-reel drama dealing with the story of a real woman; taken from life, giving the real joys and sorrows and the love of two women for one man. The good woman and the bad both want Pierre. This drama has been adopted from the French novel of that name and is truly a beautiful production. Adv.***

SCHOOL CHILDREN HELP IN RED CROSS SEAL WORK

Dr. C. R. Phillips Thinks That All Records Have Been Broken by Sale of More Than 60,000 Seals by Pupils

After three days of vigorous activity the 10,000 odd youngsters of the city's public schools to-day closed their part of the Red Cross Christmas seal campaign of 1914.

Until the returns from the various teachers are filed with Dr. C. R. Phillips the exact number of the tiny white stamps that were sold will not be known, but Dr. Phillips, who is chairman of the sub-committee for school sales, said he believed last year's record was broken. In 1913, 50,000 seals were distributed in the schools. Early this week the 1914 allotment of 60,000 were taken around to the different buildings.

Most of the schools during the last three days set aside for the active selling, the story of what is done with the proceeds of the campaign was impressed upon the youngsters. About eighty per cent. of the net receipts are turned over to the anti-tuberculosis society here and the funds distributed for trolley tickets for the needy children and grownups who can't afford or are too ill to travel from their homes to the dispensary for daily treatment. Some is used to buy tickets for the poorer ones destination is Mont Alto or Cresson, some is used to buy clothes for the long, long journey; some more money was used last year to furnish the "window tents" for the shut-in patients—the clever little canvas canopies which are suspended inside the open windows in such a way as to provide shelter for the occupant of the bed and at the same time provide ample light and air and sunshine.

School buildings, rooms and pupils settled exciting little rivalries as which was the better way of disposing of the seals. From all appearances, however, the same spirit will lead again as last year and a peculiar co-incidence is that small Miss Mary Welomeer, a sister of the record-maker last year, Miss Katherine Welomeer, will be the star salesgirl of that building. The room is taught by Miss Anna Whitmeyer, Miss Whitmeyer's room incidentally is the star room in a star building thus far.

To-morrow will be "Draggists' Day" in the merchant series of salesdays and the following well known merchants will take part:

George A. Gargas, E. Z. Gross, Frank K. Kitzmiller, Brindle's Pharmacy, William F. Steever, C. M. Porney, Croil Keller, Golden Seal, J. H. Boher, J. C. McAlister, Logan Drug Company and B. J. Jenkins.

The stationers', florists', insurance agents and artists will also observe to-morrow as their special day for pasting the seals on their packages. They are as follows:

Florists, Schmidt's, Utley's; insurance, William E. Essick; artists, Marguerite Jacobs.

The need for speedy and liberal financial support was emphasized by former British ambassador to the United States, James Bryce, in a letter to Miss Mabel Borden, of the American Red Cross, calling attention to the deplorable conditions existing in northern France. The letter reads:

Miss Borden:—Communications have reached me as to the frightful state of distress, beggary, and death, which prevails over Northern France wherever the German armies have been. The conditions of the people are altogether deplorable. I have been asked to see what could be done to obtain American relief for these people, and naturally turn to you to know whether you can suggest names of rich and charitable persons in the United States who would be likely to extend help to the sufferers in these regions. The distress in Belgium is, of course, also severe, but I do not know how much can be done while the German armies are actually occupying its territory.

How little we think, you and I, that the most tremendous and horrible calamity that has ever fallen on mankind by its own fault was so near. Very truly yours, JAMES BRICE.

First receipts of the Red Cross Division of the Home and War Relief Committee were those from the sale of candy at the Orpheum theatre, Monday night, amounting to thirty-four dollars. This division follows the work of the Red Cross Society throughout the world in collecting funds, to send surgical and medical aid to hospitals and organizing branches for the manufacture of supplies so desperately needed.

Three Skaters Rescued

William Ihling, 107 Hanna street, was rescued from the river last evening after he had broken through the ice while skating. He was battling in the water with his neck and was almost exhausted when Edward Rupp, of South Front street, heard his cries and made his way to the hole in the ice broken by Ihling and completed the rescue. Ihling was too weak to walk to his home and Rupp carried him. He suffered from exposure and was placed under the care of a physician. Harry Fry, of Rockville, and another youth, were rescued from Wildwood Lake, where the ice gave way when they were skating.

Huston Accepts Reduced Pay

Accepting the County Commissioners' ruling that eight hours, instead of six, shall constitute a working day, Fred W. Huston, minority member of the Dauphin county board of auditors, this afternoon accepted pay for a fraction more than eighty days and mileage for 32 miles for his part in the 1913 audit. His bill totaled \$244.26, which was drawn and five minutes later he was paid in money by the County Treasurer. Mr. Huston's original bill contained a charge for 106 days at \$3 a day.

Attempted Robberies in West End

Three attempts have been made to enter West End houses by thieves in the past week. Twice they attempted to gain entrance to the home of J. J. Breslin, 1835 Fulton street, the second attempt occurring at 2 o'clock yesterday morning, but screams frightened the intruders away. Thieves tried to gain entrance to the homes of Charles V. Rotrock, 1833 Fulton street and John Andrews, 1847 Fulton street.

Cottonseed Crop Increases

Washington, Dec. 18.—Cottonseed of the crop of 1914 crushed prior to December 1, amounted to 2,493,050 tons, compared with 2,192,276 for 1913, the Census Bureau announced to-day.

STEELTON FOOTBALL 'STAR' NAMED FOR WEST POINT

Continued From First Page. best students in the High school, standing high in his classes.

Walter K. Fasnacht, the first alternate, is a son of Samuel Fasnacht, of Palmyra, Lebanon county, a prominent merchant of that town. Young Fasnacht is a student at the Lebanon Valley College, in Annville, and is described as a young man of ability, standing high in the community. His age is nineteen.

Paul Carl, the second alternate, resides in Williamstown, and is a son of Lincoln C. Carl, an attorney of that town. He is said to be well qualified in every way to enter the big military school.

COURT HOUSE JUDGMENT TO BE OPENED

Court To-day Decees That H. Homer Matter May Be Let Into a Defense

In an opinion filed at noon to-day Judge McCarrell directs the opening of the judgment entered by the Home German Bau Und Spa Verein of Harrisburg against H. Homer Matter, an attorney and speculator that the defendant may be let into a defense. Matter appealed from assessments made against him by the building and loan associations, for alleged "negligence of payments" which from time to time had fallen due on loans he had made. He now will be allowed a trial by jury.

Want Company Dissolved

The court this morning fixed December 23 as the time for hearing testimony on Attorney General Bell's application to have dissolved the charter which in 1907 was granted to the Wilson Laundry Machinery Company. It is alleged that the defendant company has failed to comply with those provisions of its charter which sets out that the company shall complete its plant within seven years after the granting of the charter.

Paid on Bridge Contract

The Ferro Concrete Company to-day was paid \$12,000 on account in connection with the construction of the barrel arch concrete bridge over the Swatara creek between Middletown and Royaltown. The contract price of the bridge is \$17,950. The bridge will be completed within a week or two at which time the contractor will get the balance of the money.

May Seek New Bids

M. Harvey Taylor, Commissioner of Parks, may re-advertise for bids for the construction of the proposed bridge over Spring creek at Cameron street. Four contractors did submit proposals last Friday, although they are considered high. Mr. Taylor is now seeking to know whether it would not be advisable for the city to build the bridge and not award a contract.

Street Grading Estimates

Estimates on street grading jobs have been prepared by the boards of viewers as follows: Nineteenth street, Chestnut to Mulberry, \$344; Twentieth street, Market to Chestnut, \$1,170; Mulberry street, Eighteenth to Nineteenth, \$947; Hilltop, Nineteenth to Twentieth, \$1,017; Chestnut, Eighteenth to Nineteenth, \$193. The damages and benefits will be assessed by the viewers within the next few days.

Marriage Licenses

George T. Koch and Lettie T. Buffington, Washington township. Harry B. Shellhammer and Mary I. Lasky, Harrisburg. Alfred F. Smith and Florence I. Shoop, Enterprise. George Hammond, Buffalo, and Gertrude, B. Buchanan, Boston, Mass. Paul B. Durbin, A. Lemoine, and Fannie B. Day, Trindle Springs.

COLD WAVE IS DEPARTING

Mercury Dropped to Five Degrees This Morning—Snow and Rain to Take Its Place

As a departing slap the cold wave that has given Harrisburg the coldest December weather in twenty-six years, sent the mercury to five degrees this morning, one degree higher than the record established Tuesday morning. Since that time until today the temperature has not approached any closer the freezing point than twenty-five.

Storms are coming east from the western lake region and Southern California, causing snow and rain and decided rises in temperature in the lake region and the Mississippi Valley. The speedy development of the high pressure across the country gave the Susquehanna Valley falls in temperature last night, registering five degrees here, six below the forecast of yesterday. The special river station at Towanda reported a temperature of twenty below zero.

There was an unusually heavy snow frost this morning, forecasting the approach of a depression, which will cause increasing cloudiness here to-night, according to the local officials of the weather bureau. A minimum temperature of twenty degrees is fixed for Harrisburg to-night. Snow or rain will probably result to-night or to-morrow.

PUZZLE FOR SHERIFF'S OFFICE

Mysterious Note Dropped in Box and Explanation Is Being Sought

A mysterious note containing jumbled and confusing words and figures was dropped in the letter box at the Sheriff's office by some unknown person this morning and county officials now are searching for an explanation. To reproduce the note, which is a two-page affair with scribbling on both sides of the paper, would be impossible. The only intelligent item on the note is the name and address of an individual who may be a student at the Carlisle Indian school. It is as follows: "William Henry Hoffman, Carlisle Indian School."

The writer apparently tried to quote passages of Scripture; wrote something about his "knowing more than you think I do," and intermingled words and figures so as make them absolutely incomprehensible.

25 CENTS SAVES A LIFE

Red Cross Division of Home and War Relief Association Welcomes Contribution of Any Size

If you haven't made your contribution to the Red Cross Division of the Home and War Relief Association, get busy! No matter what amount you can spare, it will do good work in saving some war victim from death.

Here is an idea of what fifty cents will do, when expended by the Red Cross: One cent will buy iodine to disinfect a wound.

One cent will buy cotton to dress the wound. Five cents will buy the bandages. Eight cents will pay for the temporary splint. Ten cents will provide chloroform for the operation.

Twenty-five cents may save a limb or a life. Through the efforts of the Red Cross "Nurses," who did volunteer duty at the Orpheum yesterday, \$48.70 was added to the relief fund. Monday at 9 o'clock headquarters, 7 South Front street, will open, when instructions in rolling bandages and the preparation of other surgical supplies will be given.

LATE WAR NEWS SUMMARY

Continued From First Page. its announcement of yesterday that a great victory had been gained over the Russians. It is said merely that the retreating Russians are being pursued.

The last of the venturesome crew which sailed on the German cruiser Emden have been captured by British warships. About forty of the Germans who escaped on Cocos Island when the Emden was destroyed by the Australian cruiser Sydney set sail in a schooner. They were reported to have seized a collier with the intention of resuming sea raiding.

Bombardments by a British squadron of Turkish fortifications in the Gulf of Saros, north of the Dardanelles, is said to have routed the Turks and inflicted heavy damage. Dispatches from Nish assert that enormous losses were inflicted on the Austrians in their recent defeat by the Servians. It is said that "innumerable" bodies lie buried along the line of retreat of the Austrians.

The German squadron which attacked the eastern coast of England, causing the death of about 100 persons, is said in Berlin to have sunk two British destroyers and damaged badly a third. The British Admiralty states that two warships were struck by German shells and that five men were killed and 15 wounded, but makes no mention of the loss of any vessels.

Both Berlin and Vienna assert that a decisive defeat has been inflicted on the Russians and that they are retreating along the whole line, their resistance broken. These statements are not borne out, however, by the Russian military authorities who say that one of the German columns advancing on Warsaw has been routed and that elsewhere there have been no significant changes.

Emperor William is said to have improved in health sufficiently to permit of his return to the front next week. The British South African forces are soon to undertake a campaign against the neighboring possessions. Premier Botha considers that the rebellion in the Union of South Africa has been crushed definitely.

INTERNET CIVILIANS TRADED BY GERMANY AND FRANCE

Berne, Switzerland, via Paris, Dec. 17. Midnight—The exchange of interned civilians in Germany and France has been almost completed. About 8,600 from France and 3,000 from Germany have passed through Switzerland bound for their home countries up to date.

It is believed that all the French and German now have been repatriated, but that there are still some thousands of Germans detained in France. It is hoped, however, that all these Germans will be at home by Christmas. It is understood that Austria has interned no French civilians.

TRINKS GROVE WILL WIN

City Officials Base Their Belief on Statements Made in Court by Judge McCarrell

Basing their belief on statements made by Judge McCarrell at the close of the court trial last evening, city officials to-day were of the opinion that James H. Grove, Harrisburg's Building Inspector, will be cleared of the conspiracy charge which was lodged against him in legal proceedings brought against him and John Wagner by James J. Lynch and W. F. Martin. Lynch and Martin are contractors who erected an apartment house at 603 York avenue for Wagner. One of the walls of the building bulged several inches and when the Building Inspector condemned the structure and ordered it razed the contractors charged him with entering into a conspiracy with Wagner to cheat them out of their money, something like \$2,600.

Injunction proceedings were brought by the contractors to restrain either or both from tearing down the building and it was upon that preliminary restraining order that a hearing was held. Testimony was taken and at the close of the hearing last night Judge McCarrell announced that "it is my present notion that this injunction should be dissolved."

The Court previously stated that no evidence had been added to support the conspiracy charge. The Court made no final decision in the matter, however, saying counsel will be given an opportunity to present argument on the legal questions involved. If argument is made in the afternoon, it will be fixed for some time early in January. Until then no decision will be rendered.

To dissolve the injunction, which the contractors had sought to have made permanent, will mean that the Building Inspector may carry out his order to raze that part of the building which he considers to be dangerous.

Head of Catholic Society Dies

Hornell, N. Y., Dec. 18.—Joseph Cameron, Supreme Recorder of the Catholic Mutual Benefit Association of the United States and Canada, died at his home here to-day.

GRANTS 5 PER CENT. INCREASE ON FREIGHT

Continued From First Page. Considerations presented, we agree in the conclusion that by virtue of conditions obtaining at present, it is necessary that the carriers' revenues be supplemented by increases throughout official classification territory.

What are the consequences of the war may prove to be what most recognize the facts that it exists, the fact that it is a calamity without precedent and the fact that by it the commerce of the world has been disarranged and thrown into confusion. The means of transportation are fundamental, and indispensable agencies in our industrial life and in every good of the commonwealth should be kept abreast of public requirements.

Sources of Additional Revenue "The original report, besides approving a rate increase in central freight association territory, suggested ten sources of additional revenue for all carriers throughout official classification territory; the present report, recognizing the existence of a new situation since July 29, acquiesces in a territorial extension of the relief granted by the Central Freight Association lines by permitting the carriers to file tariffs providing, with certain exceptions specified, for horizontal rate increases in official classification territory. It is expected that the constructive work suggested in the original report for the purpose of conserving and augmenting the necessities of the carriers generally will be carried forward without interruption.

Carriers will be required to keep an account of the additions to their revenues from increases in rates subsequent to July 29, 1914, and from new charges and to report separately thereon to the Commission at the end of 12 and 24 months, respectively."

After stating the exceptions, heretofore given, the decision proceeds: "In our original report we declined, for reasons there stated, to allow increased rates in Central Freight Association territory on cement, starch, brick, tile, clay and plaster, on further consideration in the light of the existing situation, these rates may be increased throughout official classification territory under the limitations herein set forth.

Joint rates between official classification territory on the one hand and southern territory, the southwest and points on an east of the Missouri river on the other may be increased not to exceed five per cent. of the division of the rate accruing to the carriers in official classification territory. On these increases involve a change in the relationship under the long and short haul rule between intermediate points and more distant points outside of official classification territory, relief from the fourth section of the act must first be secured on regular application.

Rates in Trunk Line Territory "Interstate rates to and from New England from and to points in trunk line or central freight association territory, where necessary to preserve established relationships between points or ports in New England and points on or in trunk line territory, may be increased not to exceed five per cent.

Subject to the maintenance of the established Atlantic port differentials, rates to and from New York may be increased not to exceed five per cent., and rates to and from Portland, Boston, Philadelphia and Baltimore, may be increased to the extent necessary to maintain said differentials.

Except as otherwise above specified rates in official classification territory may be increased by not more than five per cent.; but rates increased since July 29, 1914, may not be again increased so as to exceed those then in effect by an aggregate of more than five per cent. of the intra territorial rate, or of the portion or division of the inter-territorial rate accruing to the road or roads in official classification territory as the case may be.

If fractions in excess of one-half a mill are rounded upward, fractions less than one-half a mill are to be discarded.

Carriers May Suspend Tariffs "In some instances and in part because of the pendency of this proceeding, we have recently suspended proposed increased rates in this territory. Carriers may, if they so elect, now cancel such tariffs so suspended and file in lieu thereof tariffs which conform to the limitations above specified. If that is done such suspensions will be vacated.

To the extent above indicated we now modify our previous findings, and carriers affected may file effective on not less than ten days' notice, such tariffs as do not offend against the restrictions above stated."

The exceptions from the proposed increase of rates are stated in the decision as follows: "1—Rail-lake-and-rail, lake-and-rail and rail-and-lake rates. It is shown on the record that since the rail carriers acquired ownership and control of the lake lines successive increases have been made in the rates via lake tending to lessen the differences between them and the all-rail rates.

Rates on Coal and Coke "2—Rates on bituminous coal and coke. Not long since these rates were investigated and maximum rates were prescribed by the commission. The key rates upon bituminous coal—the rate from the Pittsburgh district to Youngstown, and the rate on lake cargo coal to Ashtabula—have been fixed in the light of the various factors which enter into the transportation of such coal. The prevailing rates are remunerative, and the financial condition of the principal bituminous coal carriers is in marked contrast with that of many of the other carriers in official classification territory. Twice in the not distant past the rate on bituminous coal have been increased five cents a ton, and would seem now to be as high as may fairly be allowed. It must be remembered also that the carriers are not seeking general increases in rates on an anthracite coal, and both kinds of coal are used in competitive markets.

As to coke, the rates controlling the greater volume of traffic now moving in official classification territory, have recently been set by the commission upon a basis which was specifically designed to guard against shrinking the carrier's revenue there from, and which really resulted in substantial additions to their earnings on that tariff.

Rates on anthracite coal and iron ore, largely because they are before us for review in other proceedings.

Rates held by unexpired orders of the commission. "3—Rates on iron ore, coke and pig iron. These figures serve to emphasize our previous finding of the need of car-

MORE LOW RECORDS MADE IN STOCK MARKET TRADING

Opening Irregular With a Fair Sprinkling of Gains Which Were Seen Effaced by a Selling Movement That Was Depressing

By Associated Press. —New York, Dec. 18. (Wall Street)

—Many more low records for the current movement were made by leading stocks in the early part of to-day's session. The opening was irregular with a fair sprinkling of gains, but these were soon effaced by a selling movement which was most effective in depressing Amalgamated, Atchison, Great Northern, Lehigh Valley, Northern Pacific, Canadian Pacific, Reading and Southern Pacific. Steel was almost the sole issue of the active group to display comparative steadiness. Offerings were very light, with a suggestion of short selling.

The market continued to recede for the great part of the morning session until it manifested a weakness, many important stocks selling from 1 1/2 to 3 points under yesterday's closing. Just before mid-day, when it became known that the Interstate Commerce Commission had granted, in large part, the demands of the Eastern railroads for freight increase, the list suddenly reversed its course, wiping out most losses. From that level there were reactions extending to a point, with recurrent dullness, but the undertone reflected greater firmness. Bonds were heavy.

As the text of the decision became generally known the financial district seemed to arrive at the conclusion that it carried many favorable implications. There was a renewal of buying and prices extended well beyond the first rally. New Haven gained 3 points.

FIRST WIFE OF HOHL DENIES ALL KNOWLEDGE OF CRIME

Continued From First Page. journal brass in Harrisburg," she said, "and was sent to the reformatory at Huntingdon, Pa., when he was but 17 years old. He got out of the reformatory by forging the name of a Harrisburg man to the release papers for which he was later arrested and, in connection with several robberies, was sentenced to the Eastern penitentiary for an indeterminate term of from one to five years. He served 18 months and returned to Harrisburg where we were married.

After that we came to Columbus, Ohio, where he secured work in a garage," Mrs. Hohl continued, "but he had trouble with the owner and about 14 months ago brought me to Cincinnati. He left me, saying he was going to Chicago and the next time I heard of him he had married Ivy Ormsby, 20 years old, of Salem, Ohio, at Harrisburg, in 1913, under the name of Frank G. Carroll. He also went under the name of Frank Wilson."

JEWS TO HOLD CELEBRATION

Will Observe Feast of the Chanukah on Sunday

One hundred and seventy-five children will take part in the celebration of the Feast of the Chanukah by the Hebrew Educational Institute on Sunday afternoon at 3 o'clock at the Congregational Church Zion. Rabbi Leon Abum will give a talk on "Judas Maccabees."

Rabbi and Mrs. Leon Abum will give a Chanukah Festival in honor of the board of directors of the Hebrew Educational Institute Sunday evening at 8 o'clock at their home, 213 Kelker street.

Chanukah is one of two festivals that was not commanded by Moses. Both commemorate great historical events in the national life of the Jews. For the story of this festival one turns back the page of history to the second century before the present era.

ELMER E. MILLER EXPIRES

Was Father of Eugene Miller, Former Football Star

Elmer E. Miller, a cable spicer living at 1108 Plum street, died at 1 o'clock this afternoon after an illness of pneumonia. Mr. Miller is the father of Eugene Miller, who was last year's quarterback and captain of the Penn State football team. The funeral arrangements will be announced later.

Canadians Fear Bombardment H. W. Snavely, stock broker, in the Arcade building, received the following telegram this afternoon: "A sugar refinery in Halifax has taken out a \$2,000,000 insurance policy on its property as a guard against bombardment. A number of other large concerns in that city have done likewise."
