The London Syndicate, which takes the entire output of the DeBeers Mining Company and controls \$8 percent. of the world's Diamond supply, has received more money for each shipment during 20 years than the previous shipment brought. That fascinating and uprearously funny farce, "Twin Beds," which bids fair to make a fortune for Selwyn & Company, as did "Within the Law," and as "Under Cover," "The Lie," with Margaret Illington, and "The Show Shop," with Douglas Fairbanks—all playing now in New York—are doing, appeals to men and women alike. Its charm is irresistable and its laughter and fun contagious.

Most married men, after a hard day's work likes to come home, slip into comfortable footgear, and after dinner enjoy his grate fire, evening paper and a smoke. When the man comes home, to find the place alive with persons for whom he cares nothing and whom he must entertain, he is apt to be peeved. Clever wives know how to remove the grouch and make friend husband do as they wish.

The act is elaborate, thrilling and very interesting. Real Pictures of Conflict

There were many predictions when the great European war started and the governments began to imprison and shoot war correspondents, that there conflict. The movie man, who is as daring as any of the ancient war correspondents moved right into the war zone with his big camera and began making pictures just as though he had a clear field.

Undoubtedly many of the picture men have been shot as spies, uuknown martyrs to their art, but one at least came through, and we are to see to-day and to-morrow with daily matinees, authentic pictures of the battlefields of Belgium, taken when the fire was hot and while the operator was taken as big chances as the soldiers. The Popular Motion Company is to be congratulated in being the first to bring to this city a long series of pictures which the first half of the week.
