Nemo "Invisible" Self-Reducing

A New Corset With "Visible" Nemo Bridge

Some women object to the external Nemo Self-reducing Straps as being "bulky." In fact they are not—quite the contrary. But here's a new Nemo with a new kind of Self-Reducing Straps that are out of sight—"invisible!"

No. 341—for short stout } \$3.00 No. 342—for tall stout }

The "invisible" Straps are made of a series of narrow tapes, sewed to inside of corset and hooked to front steels. They support and reduce the figure perfectly and comfortably. The new "visible" bridge pivots on highest point of abdomen. Lower end of corset draws in, upper part goes out. This insures support, free breathing space and no over-pressure.

THREATENS TO WITHDRAW New York Athletic Club May Quit the National Body of the Amateur Association

Chairman Halpin's declaration followed the announcement last night that the registration committee of the Metropolitan Association had suspended six New York athletic club swimmers who had entered swimming races of the Sportsmen's show in Madison Square Garden and failed to compete. The swimmers did not compete and withdrew their entries, according to officers of the club, because of a rule adopted by the Board of Governors two years ago forbidding its members to enter contests conducted by professionals for monetary purposes. Jacob W. Stumpf, chairman of the registration committee, said that the withdrawal of the swimmers was received to late to permit the committee to accept them.

RAILROAD CIRCLING GULF OF BOTHNIA IS COMPLETED

Stockholm, Sweden, Jan. 6, Via London, 10.22 A. M.—The railroad circling the gulf of Bothnia, the northern extension of the Baltic Sea, was virtually completed to-day. Up to the present time there has been a gap of ten miles over which passengers from Stockholm to Petrograd had to drive. Now this distance has been reduced to half a mile. The Russian line now runs to a point opposite the Swedish station at Karungi. Here passengers leave the train and go half a mile over the river Tornea. This instead of the previous journey between the town of Cornea and Haparanda, a distance of ten miles. The new arrangement is working very well indeed. Between 500 and 800 passengers made the trip daily, the uncertainties of steamship to travel between the Swedish coast and Russian ports near Petrograd having of course, influenced many travelers to select the land route. Heavy freight also is being moved over land with little delay.

REPORTS 43 GERMAN SPIES ARRESTED AMONG TROOPS

New York, Jan. 6.—Charles Walter, an attorney of Toronto, Canada, announced to-day upon returning to New York from England aboard the steamship Minnehaha, that forty German spies had been arrested among the Canadian contingent of troops which sailed to England last fall. Mr. Walter said that he had been largely instrumental in identifying the prisoners and in causing their arrests. All the men, he said, had enlisted as Canadian soldiers. One of the forty-three, according to Walter was killed by the members of the company in which he had enlisted when the charge was made that he was a German spy. The troopers set upon this man and killed him before officers could prevent it, Walter asserted. The other forty-two alleged spies, according to Walter, had been locked up. What was done with them afterwards Walter said he did not know.

COLORED MOTION PICTURES

There are colored motion pictures that are made so by hand, each little picture being painted separately. In making pictures "in natural colors" the film is the same as that of the ordinary motion picture. But in making it the speed is twice as fast thirty-two pictures to the second. "Colored" pictures are photographed through mats or screens of colored glass. Two primary colors are used, red and green, with a sympathetic touch of blue. When the machine that makes the photograph is started a device causes the red screen to pass before the lens as the first photograph is taken, and the green screen passes the same way as the following picture is made. They continue to do so alternately as the film continues to be exposed. The negative is developed and a positive printed and when run through the projecting machine, the color screens are used in the same way as when the negative was made, red and green pictures being flashed on the screen alternately. Those colors that are in sympathy with the red are brought out, and those that are in sympathy with the green are shown in the same way, and through the persist-

ence of vision we do not notice the changes. Instead they blend harmoniously to our delight.—Charles M. Seay, in American Boy.

"Brotherly Love" in Islam! Aside from their political differences, the enmity between the Arab and the Turk is proverbial; a racial, deep rooted enmity, which the New Regime, instead of overcoming or at least tempering, has brought successfully to a head. And still the offendi of Constantinople refers to the son of the desert as "that dog of an Arab;" and still the desert Arab, who will rhyme even on his way to Juhannam, pours out his hatred and contempt in couplets like this: "Three things naugh but evil work—The locust, the vermin, and the Turks." There is such a thing as the fatality of hate, which seems to be a part of the Cosmic scheme. Indeed, some people are born to hate each other, and the sooner they know it the better. The Young Turk, for instance, when he can neither knife nor poison nor despoil an Arab aspiring to power, will invite him to Stamboul and make him a pasha, that is a Sublime-Porte instrument of murder and plunder. That is why the Arab chiefs as well as the leaders of thought in Syria and Egypt, have always resisted these baleful seductions.

And when one of them was told of a certain notable of Bagdad who was inveigled into the cafes, the music halls and the governmental bureaus of Constantinople, hobnobbing and intriguing with obse beys and oily pashas, the Sherik exclaimed, "And he will go staggering to Juhannam in a shimmer of Turkish trappings and decorations; a grave in the sand, billis, were better than such a jag." But this has always been an exceptional case. For to the Arab, whose pride and magnanimity are those of the barbarian, the patriarchal rule of Ibn ur-Rashid of Neid, or the theocratic government of the Sherif of Mecca, with all its open-air tranny and justice, is far better than the statoric abominations of Constantinople.—Ameen Ribani, in "The World's Work" for January.

Evelyn Nesbit Thaw and Son at Photo-play To-day Most famous actress appears to-day in a five-act Lubin drama, "Threads of Destiny." Evelyn Nesbit Thaw and her son, Russell William Thaw, appear in the leading characters of this splendid drama of Russian Life. To-morrow is presented Francis X. Bushman in an Essanay drama, "Any Woman's Choice." Bushman is supported by Bryant Washburn and Miss Beverly Bayne. Adv.
