London, Jan. 11, 12.57 P. M.—The London afternoon papers commenting on the reply of Foreign Secretary Grey to the American note concerning un-warranted interference with America's shipping, are unanimous in calling at-tention to Great Britain's debt of grat-tinude to the United States and her retitude to the United States and her re sire to repay it by interfering with American trade as little as is necessary

to secure the safety of this country and

n ports. Similarly, the desire of Germany and Sumilarly, the desire of Germany and Austria to us all surplus production has deprived contiguous countries of many raw materials, which they now are com-pelled to import from the United States. Such increases in total exports from the United States, officials here say would conceal the seel injury to Gazette'' savs: Gazette'' says: "A belligerent is guarding his own interests. Detaining of Many American Ships England's statement that out of 773 ships which proceeded from the United States to neutral countries in Europe since the outbreak of the war, only 45

States to neutral countries in Europe since the outbreak of the war, only 45 had had cargoes placed in the prize courts, while only 8 of the ships them-selves had gotten into the courts was regarded by officials and diplomats here as proving that the bulk of American commerce was of legitimate chardeter and had yielded only 45 doubtful cases. There is no mention made in the British note, on the other hand, of the large number of American ships which were detained, some of them for two weeks. for extended examination. In the next communication which the high seas is expected to be vigorously disputed. There is some doubt, not in-frequently expressed here among offi-cials, of whether the practice of the British fleet practically blockading the high seas instead of German ports them selves is not contrary to the funda-mental principles of the law. Inspection of Cargoes It is not unlikely that when the American rank is finally sent the State is not unlikely that when the convenient and injurious to American trade the American government has the remedy in its own hand

to secure the safety of this country and ther allies. The papers take the ground that the Foreign Secretary's facts and figures, unless they can be explained or re-butted, prove that enormous supplies necessary to the prosecution of the war have reached the enemy under cov-er of neutral trade. The "Westminster Gazette'' savs:

do whatever possible to mitigate the state of war to them. Closer co-opera-tion between the two governments will have good results."

suffered as seriously as had been repre-sented, but administration officials here contend that one of the chief purposes of the American protest was to prevent depletion of American commerce by continuation of British practices. The American note, they said, was framed with the very idea of forestalling de-straction of American trade. Figures Cited Mieleading Myers-Deckman Wedding Figures Cited Misleading Figures cited in the British note, in the view of officials here, are mislead-ing because much of the non-contraband goods which ordinarily go direct to Ger-many and Austria has really been shipped to neutral countries because of the searcity of ships that would dere
