

DIABETES

Physicians Using New Remedy With Great Success
Diabetes no longer need be a terror to those who have become afflicted with this dread disease.

TOO SPEEDY WITH DENIAL

Woman, Accused as Letter Writer, Shows Familiarity With Case
Sunbury, Pa., Jan. 13.—Mrs. John Hinkle, wife of a Mechanic, Pa., merchant, was placed on trial before Judge Charles B. Witmer in the Federal court here yesterday, charged with sending four scurrilous letters to Herbert C. Brown, general manager of the D. Wilcox Manufacturing Company, here.

MRS. ANNA CLARKE DIES

Was a Lineal Descendant of Pennsylvania's First Governor
Baltimore, Md., Jan. 13.—Mrs. Anna Woodall Smith-Clarke, who had an unusually large number of friends in this city, died at River Springs, Md., last Friday.

GIRL WEDS AS MEN DISPUTE

Leaves Suitors in Court Fight and Elopes to Elkton
Pottsville, Pa., Jan. 13.—While Louis Matthews and Elmer Fritz, of Minersville, were engaged in prosecuting each other before Alderman Martin yesterday over a girl which occurred because they were both paying attention to Suzanna Kalman, the young woman who was the object of their affections went away with a third young man to Elkton, Md., and got married.

WASHINGTON FLYER WRECKED

Passengers Escape, but Engineer Killed on Pennsylvania Railroad
Philadelphia, Jan. 13.—The Washington express on the Pennsylvania railroad, due at Broad Street station at 10:40 o'clock last night, was wrecked at Perryville, Md., by the engineer, James Murphy, of this city, who killed C. C. Fayers, the fireman, was injured. All of the passengers escaped unharmed.

Historical Society Elects Officers

Mountville, Jan. 13.—At the meeting last evening of the Lancaster County Historical Society the following officers were elected for the ensuing year: President, George Steinhilber; vice president, P. R. Diffenderfer and W. U. Hensel; recording secretary, Charles B. Hollinger; corresponding secretary, Miss Martha B. Clark; treasurer, A. K. Hostetter; librarian, Miss Lettie Bauman; executive committee, George K. P. Erisman, D. B. Landis, H. Frank Eshelman, Mrs. Sarah B. Carpenter, Monroe B. Hersh, John L. Summy, L. B. Herr, Mrs. M. H. Robinson, D. F. Magee and R. K. Buehrle.

Ex-Governor at School

Orono, Me., Jan. 13.—Former Governor William T. Haines, whose term of office expired a week ago, yesterday registered as a student at the University of Maine. He plans to take a course in agriculture. Failing eyesight and impaired health after long application to the law are said to have decided the former Governor to take up farming.

Farmer Killed by Bull

Norristown, Pa., Jan. 13.—John Fay, of Whitmarsh township, died in the Chestnut Hill hospital from seven broken ribs and other injuries received a few days ago when he was gored by a prize bull on the estate of Mrs. C. Morton Smith, which he farms, on the Skippack road near Broadacre. Other employees of Mrs. Smith tried to rescue Fay from the animal with the aid of ice hooks.

Teacher Wins a Divorce

Uniontown, Pa., Jan. 13.—Anna Kaiser was granted a divorce yesterday from David J. Kaiser, whom she married in 1905 in Camden, N. J. An hour later Kaiser wedded Miss Mary Lauderdale, of Uniontown, whom he bigamously married in 1913, the marriage having been annulled last year. Kaiser's first wife formerly was a teacher in the Philadelphia schools. Her home now is in Montana.

PATRIOTIC POSTAGE STAMPS SOLD IN RUSSIA TO AID FAMILIES OF SLAIN

The Imperial Russian Patriotic Society, wishing to gratify the urgent need of help to the families of the valiant soldiers who were killed on the battlefield, has obtained a temporary issue of patriotic postage stamps which are much larger and differ in design from the regular issues of one, two, three, seven and ten copek stamps.

A SERVICE TO POTATO MEN

Experts Sent Out by State Will Tell How to Destroy Diseases of Seed Potatoes and Protect Soil

The State Orchard Inspectors under the direction of State Zoologist H. A. Surface of the Department of Agriculture, are now commencing a new and important feature in the service of detecting and preventing loss by attacks of insects and plant diseases of vegetables, farm crops and fruits. At this time of year the severe weather prevents satisfactory service in outdoor orchard inspection, but it is very important that the farmers know the causes of blemishes or damage to their potatoes and stored fruits. It is an easy matter for a competent man to look over the potatoes in the bin, or the apples in storage in cellars, and point out to the owners the defects or injured places, and tell them the causes and how to prevent them. This service is of great and timely importance, because it aims directly at giving definite, practical instruction to the growers showing them just what pests they have to meet, or how to know the pests from the marks they leave on potatoes and fruits, and how to overcome them. This is a timely service, because the potato growers are now looking after the stock of seed for next spring's planting, and the most important point in preventing the spread and propagation of potato diseases is in recognizing the symptoms of these diseases and avoiding planting potatoes that are infected with them. It is well known that during the past two years unusually destructive diseases of potatoes have come into this country from abroad. For example, the potato wart disease and potato mildew, are newly imported and exceedingly injurious. Naturally they reached the great potato growing regions first, because in such regions more new seed was being imported. As a consequence of their introduction there Federal quarantine has been established on seed potatoes from all of the big seed-growing potato regions, that are infected, and discoveries are occasionally made where such diseases have started in other localities. It is not as present known that there is any potato mildew or any Wart disease in Pennsylvania, although they may be in this State. Inspection by experts has not previously been made for the detection of these diseases, but this service by the State's orchard inspectors will reveal the facts if such imported diseases are to be found within our Commonwealth. Of course, if found, efforts will be taken immediately to stamp them out. At the present time there are no less than four very destructive diseases of potatoes common in Pennsylvania, besides the injuries done by insects, such as grub worms and wire worms, that leave their characteristic marks on tubers. Among these diseases there are only two that can be effectively prevented by soaking or treating the

HOW TO HAVE LONG BEAUTIFUL HAIR

By a Hair Specialist

It is not hard to stop the hair from falling out and promote its growth if the right means are used. There is no hope for the scalp where the hair roots are dead and the scalp is shiny. However, to those who have not reached this condition, immediate steps should be taken to stop it before it is too late. Here is a simple recipe which you can make at home, that will stop the hair from falling out, promote its growth and eradicate scalp eruptions and scalp humors. To a half pint of water add 1 oz. bay rum, a small box of Barbo Compound and 1/4 oz. of glycerine, and apply to the hair, rubbing with the finger tips, two or three times a week. These ingredients can be obtained at any drug store at very little cost and mixed at home. This recipe not only promotes the growth of the hair, but darkens streaked, faded gray hair and makes it soft and glossy.—Adv.

QUARANTINE STOCK YARDS

Lancaster Again Feels Ban to Wipe Out Cattle Disease
Lancaster, Jan. 13.—The Union Stock Yards, at Lancaster, which were first quarantined early in November, and only reopened the latter part of December, were again placed under quarantine yesterday.

Evangelistic Services Closed Last Night

Marietta, Jan. 13.—The evangelistic services closed last night in the First Methodist Episcopal church, there being present a large number of people. The converts were presented with a book by the evangelist, R. M. Honeyman. The large choir rendered special music and a number of special selections were introduced. The evangelist left this morning for Perry county.

Mechanicsburg Bank Elects

The Second National bank, of Mechanicsburg, yesterday reorganized for the new year by electing a board of directors and officers. The directors are John M. Underwood, Eugene A. Burnett, Samuel F. Hruok, E. E. Strominger, James B. Koller, Albert P. Rupp and Washington Shaffer. The officers are: S. F. Hauck, president; E. A. Burnett, vice president; T. J. Scholl, cashier; W. B. Wister, first teller; Ruth M. Hefflinger, second teller; Robert H. Ross, bookkeeper; G. A. W. Stouffer, clerk.

Mrs. Pye Wants Photograph Returned

Mrs. J. N. Pye, 610 North Second street, widow of the late J. N. Pye, who until his death recently was toll gate keeper at the Harrisburg side of the Market street bridge, is eager to obtain a photograph of Mr. Pye with another man which was snapped at the toll gate. This photograph was obtained from Mrs. Pye last November, before her husband's death, by some one who wanted to use it in a newspaper story, but Mrs. Pye has been unable to learn who it was to whom she lent the photograph. She hopes the person who got it will return it to her, as it is of great sentimental value to her. In the picture Mr. Pye was shown seated and the other man was standing.

Dedicate a Mennonite Church

Lancaster, Jan. 13.—The largest Mennonite church in Lancaster county was dedicated yesterday—Mellinger's, on the Philadelphia turnpike a mile east of Lancaster, a handsome structure. Several thousand attended the services, which were participated in by half a dozen bishops and 20 ministers. The sermons were preached by Bishop Abraham Herr, of New Danville, and Bishop C. M. Brackbill, of Kinzer.

Find Ore on Berks Farm

Reading, Pa., Jan. 13.—The discovery of a deposit of high-grade magnetic iron ore on the farm of John T. Rohrbach, in Pike township, has caused great excitement, and neighboring farmers are boring test holes.

Florida Orange Juice is the All-Day-Long Health Drink
Florida oranges bloom, develop and ripen under just the right conditions. They are charged with condensed sunshine, made liquid by summer showers and flavored by gentle Gulf breezes as sweet as those of Cathay. Each Florida orange is a storage battery of health and joy—the abundant juice has been gradually sweetened and is richly flavored yet contains enough citric acid to make it pleasant to the taste. Florida oranges make a most palatable and refreshing beverage, which every member of the family will enjoy all through the day and at all seasons of the year.
Florida Grapefruit—Food and Tonic
Grapefruit grown in Florida contains a maximum of juice. Its contents have both food and drink value. The taste and flavor are unsurpassed. The tonic qualities cause Florida grapefruit to be highly recommended by physicians. Athletes eat them freely when training. Only tree-ripened oranges and grapefruit are good. When picked before ripe, the fruit is not edible—lacks in juice and sweetness.

HE SHOWED \$50,000 IN CASH

Woman 60, Then Marries Man 75, Whom She Knew Only Through Mail Correspondence
Grafton, W. Va., Jan. 13.—The last chapter was written here Monday night in a matrimonial agency romance when Jesse Williams, 75 years old, of Preston county, met Mrs. M. Pennell, of Cincinnati, a widow of 60, and wedding bells pealed. They had never met, having depended upon the mails that bore tender messages of unyielding love. After a year of correspondence arrangements were made to meet here. Part of the agreement was that Williams must bring \$50,000 in cash as proof that he was able to support a wife.

40,000 ALLIES VACCINATED AGAINST TYPHOID RAVAGES

Paris, Jan. 13, 4.40 A. M.—The war has demonstrated beyond all question, according to members of the medical commission, the efficaciousness of anti-typhoid vaccination. Most of the members of the active army had been vaccinated before the war, but the reservists and territorials drafted and sent to the front later had not, and, as a result, towards the end of October, a large number of cases of typhoid developed. The medical commission sent doctors to the firing line and they vaccinated a whole army corps of 40,000 men. By the end of December the good results of this treatment became apparent, as typhoid had practically disappeared, the only cases remaining being among the men of two regiments which the doctors were unable to reach.

British Farmer Enjoying Prosperity

London, Jan. 1.—After many years of depression, the British farmer is enjoying prosperity. Everything he raises is quickly saleable at prices which are gradually climbing higher and higher. Wheat and oats, which are the staple crops of most English farmers, are fetching excellent prices, while the live stock which they fattened for the holiday market was taken at figures which have not been touched in many years.

Desertions From German Army

Paris, Jan. 13, 4.50 A. M.—The real reason for the strict guarding of the Belgian-Dutch frontier, says the "Matin's" correspondent at Havre, "is an epidemic of desertion which began in the German ranks after the battle of the Yser. From November 15 to December 15 there were 11,000 desertions from the garrison of Bruges alone."

Obliging Conductor

The fussy lady had noticed that the rude man sitting beside her on the street car had expectorated on the floor. The fussy lady immediately signaled the conductor, and that official came in to see what was wanted. "Do you allow spitting in this car?" demanded the fussy lady. "Well, no," replied the conductor, "but you can come out on the platform if you want to, lady."—Cincinnati Enquirer.

The Careful Wife

"Wife, I wish you'd buy me a couple of five-cent collar buttons. I need 'em badly."

Satisfactory

Mrs. Gobb—Are your new neighbors all right socially? Mrs. Tabb—Oh, yes—their children stand even lower in their studies than mine do.—Kansas City Star.

At Photoplay To-day

"Dope," a modern drama of the use of drugs, will be shown at the Photoplay to-day. No children under 12 years admitted. This production is similar to the "Drug Terror," which made such a sensation a few months ago. Friday Evelyn Nesbit Thaw and son, William Thaw, play a return engagement in "Treads of Destiny," a five-act Lubin production, which deals with Russian life. Monday a Broadway Star Vitagraph production, "Two Women."

Victoria

A most unusual attraction is "After Thirty Years," an intensely dramatic feature in three parts, which heads to-day's bill at the Victoria theatre, 223 Market street. "The Legends Beautiful," is a strongly spiritual subject, beautifully pictured in two reels. The program concludes with "Our Mutual Girl" and the "Pathe Daily News." To-morrow will be "Bargain Day" at the Victoria. Adv.

More Ohio Towns Dry

Columbus, O., Jan. 13.—Middleport, in Meigs county, yesterday voted "dry," but Pomeroy, the county seat, is "wet," and unless that city votes the saloons, the "drys" may move the Court House to Middleport. Pleasant City and West Liberty and Lawrence township, in Stark county, also voted "dry" yesterday.

Francis Bushman Comes Unexpectedly to the Photoplay To-morrow

Most popular actor, Francis X. Bushman, comes unexpectedly to the Photoplay to-morrow in a two-act Essanay drama, "The Shanty of Trembling Hill." A thrilling drama of love and strife in the north woods, Richard Scott, a rising young politician of a Canadian city, is ordered to take a complete rest. His fiancée, Frances Warfield, breaks the engagement when she

WASHINGTON GIRL WHO WILL WED GERMAN ARMY OFFICER IN BERLIN

Original No. 6 Extra Rye Whiskey
Playing against odds is risky, and the man who knows will call for Original No. 6 Extra Rye Whiskey
The neck of each bottle of which is now equipped with a New Silvered Non-Refillable Device
MISS CECILIA JACQUELINE MAY
A cable message to the State Department at Washington stated that the marriage of Miss Cecilia Jacqueline May, youngest daughter of Colonel and Mrs. Henry May, of Washington, to Lieutenant Wilhelm von Rath, Jr., would take place at the American Embassy at Berlin. No member of Miss May's family will be present at the service, the date for which was contingent upon the fortunes of war. Lieutenant von Rath was attached to the German Embassy in Washington and was in Newport with it last summer. Leaving Newport immediately upon the declaration of war last August, Lieutenant von Rath has been in constant service since then.

Original No. 6 Extra Rye Whiskey
Our Trade Mark No. 6 is Registered in the U. S. Patent Office as No. 59,300.
Playing against odds is risky, and the man who knows will call for Original No. 6 Extra Rye Whiskey
The neck of each bottle of which is now equipped with a New Silvered Non-Refillable Device
permitting an absolutely free flow without in any way affecting the color or purity of the contents.
Paterson & Co. PHILADELPHIA
