B. & O. ISSUES FEATURES OF RAILWAY GROUP TO-DAY

but Falls Back-U. S. Rubber, Goodrich and Western Union Gain a Point or More

By Associated Press.

New York, Jan. 14.—Speculative issues showed all of their recent uncertainty at the opening of to-day's stock market, United States Steel and Reading selling lower, while Union Pacific and Amalgamated Copper were higher. New York Central was strongest of all the railway issues, soon rising a point. B. & O., whose directors meet to-day to act on the dividend, held steady, despite the general belief that a lower rate of disbursement will be declared. United Railways Investment pfd. added a point to yesterday's gain, while the common yielded fractionally after opening at an advarce. Leading stocks continued to react during the morning. Steel selling at yesterday's low quotations.

Other speculative favorites showed little disposition to move forward. Toward midday, however, improvement in that the needles broke. Vessueves, according to correspondents in that district, has shown no signs of unusual activities.

Other speculative favorites showed little disposition to move forward. Toward midday, however, improvement in Amalgamated, Smelting and some of the motor shaves stiffened the list elsewhere. B. & O. issues were the real features of the railway group with a gain of 1½ for the common. Canadian Pacific made an initial rise, but fell back, presumably on weakness in "soo?" issues, the preferred falling five points to its minimum. U. S. Rubber, Goodrich and Western Union gathered a point or more "Bonds were steady."
